DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS
Toronto: Market higher; trading heavy.
New York: Market mixed; selectively demand.
Montreal: Market showed moderate gains; trading edge.

CURRENCY

MONTREAL (CP)—The U.S. dollar closed at a premium of 7 11-16 per cent in terms of Canadian funds, unchanged from Thursday's close. Pound sterling closed at $3.00⅝, up 1-16.

NEW YORK

NEW YORK (AP)—The stock market closed higher Friday but the issue wasn't settled until the final minutes of trading.

Most gains were under a point among the key issues, but all popular averages reflected the upward movement.

The only price movement came in the opening and closing minutes of the day. Both were upward.

The final buying came soon after the U.S. Federal Reserve Board reported industrial production in August held unchanged from July on a seasonally adjusted basis.

Building materials, metals, oils and utilities edged ahead. Rails and drugs slipped a notch. Otherwise major groups were mixed.

Sales totalled 2,880,000 shares compared with 3,100,000 Thursday. There was little public participation.

The Associated Press average of 60 stocks advanced .8 at 223.6. The Dow Jones industrial average was up .85 at 605.84 and Standard and Poor's 500-stock average gained .19 at 58.89.

Dome Mines finished ¼ higher among Canadian stocks, helped by word of a further decline in U.S. gold reserves. Walker's Gooderham, McIntyre Porcupine and Granby Mining all rose ⅛. Aluminum Ltd. and Canadian Pacific were ⅛ lower and International Nickel lost ¼. Distillers Seagrams was off ⅝.

American Stock Exchange prices closed mixed. Shawinigan spurted ahead 1¼ points. Preston Mining was up 3-16. Brazilian Traction was off ⅛.

MONTREAL

MONTREAL (CP) — Stocks closed higher on the Montreal and Canadian Exchanges Friday following a late-afternoon spurt. Trading was active.

Canadian Pacific rose ⅝ at 41⅝ in active trading and Imperial Oil added ½ to 43⅞. Royalite Oil rose ⅝ to 14⅝ in active trading among western oils.

Shawinigan rose 1¼ to 24⅞ in heavy trading to feature the utilities. Bell Telephone rights rose two cents to 90 cents and Bell added ⅛ to 49⅞.

Canadian International Power rose a point to 11½ and Massey-Ferguson ¼ to 11⅝ in active trading. Hudson's Bay was unchanged at 11.

In active trading among mines, Bruneau rose 2½ cents to 39½ cents, Fox Lake fell 1½ cents to 36½ cents, Kiena Gold rose 19 cents to $2.25 and Mount Pleasant fell two cents to $2.23. Keeley-Frontier lost three cents to 54 cents.

On index, banks were up 0.22 at 59.61, utilities up 1.3 at 131.5 industrials up 0.3 at 296.8, combined up 0.7 at 241.7, paperboards 0.5 at 475.2 and golds off 2.75 at 75.93.

TORONTO

TORONTO (CP) — Speculative action calmed somewhat on the stock market Friday as industrials showed their first significant gain of the week.

In the low-priced mining list, Lencourt was most active, rising two cents to 14 cents on a turnover of just more than 400,000 shares.

Tribag gained seven cents to $1.37, while ViolaMac dropped 15 cents to $118.

Industrials featured a strong performance by Canadian Oil, which jumped to 42¼—its highest since listing on the exchange —before easing to 41⅞, ahead ¾. Power Corporation, biggest single C issue in Oil sharehold, advanced ⅝.

Shawinigan also burst ahead, climbing 1⅞ to 25. Other gainers included Inter provincial Pipe Line, Massey-Ferguson, Bank of Montreal and Walker-Gooderham, all ahead in a ½ to ¼ range.

On the exchange index, industrials rose .85 to 546.81, golds .19 at 75.73 and western oils .91 at 107.59. Base metals dropped .06 to 183.18. Closing volume was 5,784,000 shares compared with 7,030,000 Thursday.

In base metals, International Nickel and Noranda fell ¾ and ½ respectively, while Denison rose ½ and Consolidated Mining and Smelting ⅜.

Among western oils, Calgary and Edmonton advanced ¾ and Hudson's Bay ⅞, while Home A and Pacific Petroleum both fell ⅛

Leadership in Crises

ILLUSTRATED SUNDAY SCHOOL LESSON
Scripture—Nehemiah 2; 4; 6:15.
By Alfred J. Buescher

Persia was Nehemiah, an exiled Jew. Persia was Nehemiah, an exile Jew. In 445 B.C., having heard that conditions were still bad in Jerusalem, and its walls still unrepaired, he got his ruler's permission to go there and help.—Nehemiah 1:1-3; 2:1-8.

When he arrived, he took a few trustworthy men and went forth secretly at night, making a personal inspection tour of the city's ruined walls, destroyed nearly 150 years before. Then he roused the people to repair them.—Nehemiah 2:11-18.

The neighboring states, frightened and jealous of this sign of Judah's rise, ridiculed the Jews, then planned war against them. Nehemiah armed the workers and set half of them on guard while the others continued the work.—Nehemiah 4.

As Nehemiah traveled from place to place along the walls, a trumpeter went with him, ready to call others to arms at the first sign of an attack. In a record 52 days the walls were finished.—Nehemiah 4:18-20; 6:15.

MEMORY VERSE—"SO WE BUILT THE WALL; AND THE WALL WAS JOINED TOGETHER UNTO THE HALF THEREOF: FOR THE PEOPLE HAD A MIND TO WORK."—Nehemiah 4:6

Coal Firms Have Been Interested In Thermal Power Production

WINNIPEG (CP) — The intense interest of the coal industry in Canada in the production of electricity was outlined at a meeting here by John J. Laffin, chief lectrical engineer of the Dominion Coal Company Limited of Sydney, N.S.

He told the 14th Dominion-provincial conference on coal, "every kilowatt-hour of electrical energy consumed represents a pound of coal sold."

Mr. Laffin said the coal industry is looking to the use of coal in the production of electricity as "one of the practical methods of replacing markets lost in certain areas to competing fuels."

He said that thermal installations in Canada are likely to continue on the increase, "even in the provinces where there is an abundance of water power."

Thermal power, he said, is being used extensively as a supplement in peak demand periods and when rivers are running be low normal capacity.

He also said that construction of hydro power installations is becoming increasingly costly as more remote sources of power are becoming economic with the attendant increase in the cost of primary transmission. On the other hand, he said, the effects of inflation on steam - generated power have been generally offset by advanced technology and design improvements.

Text of Mr. Laffin's paper was released to the press in advance of delivery.

NEED LESS COAL

Mr. Laffin said that where 10 years ago one kilowatt - hour of power needed 15 pounds of coal, the average today is
