HOUSEHOLD SCIENCE SHORT COURSE.—The outlined program for the Short Course in Domestic Science to be given each afternoon this week at Prince of Wales College will include on Tuesday afternoon, general directions for washing and care of dishes, measuring and combining foodstuffs used in cookery, Table of Measurements and proportions of different thickening agents together with the preparation of representative dishes under the different methods of cooking in dry and moist heat. On Wednesday afternoon the subject will be Soups and Accompaniments, while Frying in Deep Fat is the subject chosen for Thursday afternoon. In addition to the cookery classes, lectures will be given on various subjects from nine to twelve.

BREAKS A BAD COLD IN A JIFFY! TRY IT

"PAPE'S COLD COMPOUND" GIVES QUICK RELIED— DON'T STAY STUFFED-UP.

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head— nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconveniences. Be sure you get the genuine.

VISITING.— The engineer in charge of the terminals at Traverse and Tormentine is going to St. Sault Marie on a short visit to his mother, after which he will return to the Island.

EDITOR IMPROVING.—His friends in P. E. Island will be pleased to learn the following from The Wesleyan: "We are glad to be able to announce that Dr. Johnson's health is slowly improving and his strength gradually returning."

NO CHANGE.—Mr. A. A. McLean, M. P., of Charlottetown, received a telegram on Saturday night from the railway management to the effect that there will be no change in the rates respecting the carriage of mussel mud on the Prince Edward Island railway.

CALENDAR.—The Guardian is in receipt of a pretty calendar from Mr. Ensley B. Johnson, manufacturer of Printers' Rollers, St. John, N. B. The calendar represents a peaceful country scene—a flock of sheep being driven down a winding road by a shepherd, while all around is green foliage.

JUDGING HORSES.—Tomorrow morning in the Short Course lectures there will be given, inter alia, "points in judging horses. Several local horses will be shown, among them six owned by the McKinnoo Drug Co. The class commences at 9 o'clock in the Agricultural Hall, and it is hoped that there will be a large attendance.

STONE EXCAVATION.—Mr. Downing, assistant engineer of car ferry terminals at Carleton Point, was called to Shediac to make a survey of Mr. Miller's stone quarry. The contractors, it is understood, are making good progress in the excavation of stone and have a number of men employed. Mr. Downing will return to Carleton Point in a few days' time.

NATIVE BORN—One set of tables in the latest volumn giving details of the census of Canada deals with the origins of the people. It is noticeable that more than one half of the people were born in Canada. Prince Edward Island has a total population of 93,728, of which 91,151 are native born. In all the provinces except British Columbia and Alberta the native born Canadians are in the majority. Charlottetown has 98.49 per cent. of its people classified as being born in Canada. It is noticeable that some of the places with the smallest proportion of native born are emphatic in asserting Canadism. The home counts for more than the birthplace.

P. E. ISLAND.—In the membership report of the Canadian Manufacturers' Association for 1913, published by the Association on the last of the year, it is shown that P. E. Island has two more members than in 1912. Comparatively few realize the great advance the Island has made during the past year in the progress of her industries. There are now four members from the Island in the Association.
