## CURRENCIES

MONTREAL (CP) — The U.S. dollar Monday closed at a discount of 3 27-32 per cent in terms of Canadian funds, unchanged. Pound sterling 2.68⅛, up 13-32.

## TORONTO

TORONTO (CP) — The stock market Monday suffered its sharpest decline in nearly a year as western oils and industrials led the sell-off which pounded down prices in all sections.

The industrail index lost nearly nine point its heaviet loss since Oct. 1, 1956. The closing figure of 419.56 was the lowest in two years. Western oils suffered one of their worst index losses on record, losing nearly 6¾ points. The index closed less than a point from its 1957 low.

Base metals, aided by some minor gains among a few key issues, didn't feel the selling as much as the other two sections but lost more than a point on index. Golds were three-quarters of a point easier.

Western oils started the decline, losing more than three points on index in the first hour following the news that buyers' nominations for Alberta oil for next month was at the lowest daily-rate average in 2½ years. As the session progressed and Wall Street tumbled, the market here sank further down.

**LED LOSERS**

Calgary and Edmonton and Pacific Pete led the senior western oil losers, each dropping about three points. Other seniors were down in a two-point range. Security was a 75-cent lose at $5.85 among lower-priced stocks while the majority of issues lost between 25 and 50 cents. Gains were few and confined to 15 cents or less.

The mining list held the most respectable showing of the entire board. There were a few 20-cent gains but generally the advances were 10 cents or less. International Nickel lost 2⅝ points at a new low of 75 while other senior base metals moved off in a one-point range.

Golds, uraniums, coppers and other lower-priced mines were quietly lower with the volume among these stocks light compared with recent sessions.

Index losses: industrial 8.88 to 419.56, gold .71 to 77.62; base metals 1.19 to 166.88; western oils 6.67 to 151.55.
