NEW YORK (AP)—Wall street's greatest bull market in stocks passed another milestone Monday—it has made up the $20,000,000,000 lost in the Septembe-October decline.

Using the Associated Press average of 60 stocks as the yardstick, here is the big picture:

Last Sept. 23 the AP average stood at $181.50, highest level it ever had reached and substantially above the old 1929 highs.

Then the news of President Eisenhower's heart attack hit the market place. Stocks tumbled with a swiftness and severity that had not been seen since the 1929 crash.

On Oct. 11, the AP average reached its low for the reaction—$163.40. That indicated an estimated $20,000,000,000 had been erased from the quoted value of all listed securities.

From that point onward, the stock market recovered strongly with ocasional, brief pauses for consolidation.

Monday the market advanced moderately with steels as the fea tured strong leader The AP average gained $1 and closed at $181 50, equal to its all-time high of last September.

The industrial component advanced $2.60 while both railroads and utilities held unchanged.

Up with steels were aircrafts, chemicals and many individual issues. Motors, rails and oils were mixed.

Canadian isues were mixed. Canadian Pacific and Hiram Walker both added g and International Nickel gained ½. McIutyre fell ¾, Dome Mines lost ¼ and Distillers Seagram slipped ⅛. —

On the American stock exchange Giant Yellowknife and Royalite Oil both gained ⅛ while Lake Shore lost ⅛.
