MONTREAL

MONTREAL (CP) — Senior mines led prices on the Montreal Stock Exchange to a fractional advance Tuesday — the market's best performance in two weeks.

However, the gains were confined mostly to blue chip issues and trading was light. The 85-stock composite index rose .89 to 138.78 compared with a rise of 0.36 Monday.

Brokers said the strong gains among senior mines partly resulted from rising metal prices in London. Cominco advanced 1½ points to 32¾ and International Nickel 2⅛ to 92¼.

A handful of other favored issues made strong showings. CPR and Bank of Nova Scotia each climbed one point to 55⅞ and 63 respectively.

CONTINUES RECOVERY

Canadian Breweries was the most active industrial, rising ⅛ to 6¼ on 5,905 shares. Massey-Ferguson continued its recovery from a heavy loss last week as it rose ⅜ to 22. B.C. Telephone was up ⅛ at 60½ and Home Oil ¾ at 23.

Prices were generally lower on the Canadian Stock Exchange. Garney dropped four cents to 34 cents and Glen Lake five cents to $1.25.

Industrial volume on the two exchanges was 132,700 shares and oils 525,700 compared with 134,000 and 546,000 Monday.

On index, industrials rose 1.12 to 145.54 and utilities 0.48 to 128.47. Banks were off 0.06 at 108.97 and papers 0.27 at 105.97.
