

Try Doing Next Week's Washing with Rinso

Find out for yourself why hundreds of thousands of women say that they could not face another wash day without it. The two easy steps below will save you hours of back breaking rubbing.

First: For each tub of clothes dissolve a half a package of Rinso into a little cool water until it is like thick cream, then stir in two quarts of boiling water. If the water is hard, or the clothes extra dirty, use more Rinso.

Then, pour into tub—of cool or luke-warm water. Mix well. Keep adding the solution until you get a rich, lasting, soapy suds, even after the clothes

have been put in. *Do not pour the Rinso direct from the package into the tub.*

Soak the clothes for one hour, two hours, overnight, or as long as convenient. Then rinse to remove the loosened dirt, until the water runs clear. Hang them out to dry.

There's no rubbing—no boiling. Rinso is not a washing powder, but a scientific combination of pure cleansing materials that loosen and dissolve the dirt from even the heaviest pieces. It soaks clothes clean in a few hours without injury to a single fabric.

IF YOU USE A WASHING MACHINE

Follow the regular directions given here. Soak the clothes. Then, before operating the machine, add fresh Rinso solution using the same amount of Rinso as you used for soaking. No other product is needed when Rinso is used.

SWISS MILITARY SYSTEM

The Swiss system is ultra military and probably would never be acceptable to the United States. But it is interesting nevertheless, as indicating how the problem of defense has been met and apparently solved by the earnest and patriotic people of a republic like our own.

The Swiss system is compulsory and begins with the early school

ing of each boy. He does not drill or handle firearms, however, until he is twenty years old, when he reports to federal authorities for physical and literary examination. He must be able to read and write and figure, and answer questions on elementary Swiss history and geography.

The physical tests require that the applicant shall cover at least eight feet in a running jump, lift

weight of thirty-seven pounds in both hands at least four times, and run eighty yards in fourteen seconds.

Those who fall in these tests are given an extension of time for further training, not to exceed four years, and if physically disqualified at the end of that period they are obliged to pay a tax, or to take some assigned position which they can fill.

MONDAY

The public schools of the city opened for the term yesterday, with a good general attendance.

At Prince Street School the attendance was 428. This is a big record over last year and is a record over the attendance for the past fifteen years. The public are invited to visit the building in the morning and on Monday afternoon there will be a public meeting in the hall. Among the speakers will be Sir Louis Davies.

A good attendance is also reported by Principal Johnson at West Kent School, there being about 420. No date has yet been fixed for the opening of the new wing as there is considerable work to be done yet.

At Queen Square School the grading of classes occupied most of the day. The attendance numbering 452 is highly satisfactory, reports Principal Wynn.

The attendance at Rochford Square school yesterday was 389. Other students are expected in the course of a day or two and this will bring the attendance up to a quite satisfactory average.

FROM ATHABASCA. — Mr. R. C. Fitzsimmons of Spokane, Wash., formerly of Montrose, P. E. is visiting the province and is a guest at the Victoria Hotel. Mr. Fitzsimmons who recently completed an investigation of the tar sands deposits on the Athabasca River, shows enthusiastically the possibilities for the commercial development of this product in the district which came under his observation. He plans making another trip within a month, while development work on a large scale is being considered for next spring.

LOBSTER INVESTIGATIONS. — Dr. Knight, Chairman of the Biological Board of Canada, is in Charlottetown today. He has been conducting experiments in the South coast of Prince County with a view to ascertaining the advisability of beginning the lobster fishing on the first, rather than on the 15th of August. The experiments were conducted from Victoria harbor on the east to West Point on the west and necessitated fishing at Victoria, Borden, Summerside, Cape Egmont, Higgins' Wharf and West Point. The result of his observations will be laid before the Department of Fisheries as soon as they can be tabulated and studied. The Minister of Fisheries will in due time announce the results and the decision which he reaches from the facts submitted to him.

The death of Mr. T. B. Riley, occurred at his late residence on Hillsboro Square at 1:30 Monday. The late Mr. Riley was born in Charlottetown seventy-seven years ago, and spent the whole of his exceptionally long and useful life in this city. He was the founder of the extensive business so widely known as the firm of T. B. and D. J. Riley, Tobacco Manufacturers, carried on for over half a century by himself and later in partnership with his nephew, ex-Mayor Riley.

Besides the firm's business operations, the late Mr. Riley was interested in several other commercial enterprises as well as extensively in real estate in this province. Indeed every legitimate undertaking for the expansion of business and the development of trade in the Island, had Mr. Riley a strong supporter and staunch advocate.

The late Mr. Riley was in every sense a man of affairs from whom advice on business was much sought. He kept abreast of the times and was one of our best informed citizens on public and commercial matters.

For at least a quarter of a century he was Vice President of the Queen's County Liberal Association and for double that period was an ardent and unwavering supporter of the Liberal party and its principles. Several times Mr. Riley was approached and offered nominations, both in civic and provincial politics, but he invariably declined although he was one of the most active workers for the party.

Mr. Riley attended the school of the late Mr. Blake Irving in this city and afterwards St. Dunstan's College. Then he entered into the business which he so successfully conducted all his life. It may be truly said of him that he was the architect of his own fortune. His was a familiar figure upon the

streets and his unusually large circle of acquaintances embraced both city and country. In his departure, a link between the past and the present of the social and business life of our city has been severed.

He was during all his life a consistent member of St. Dunstan's Parish and was ever in his place at the church services. His unexpected death will be deeply and widely regretted. He was a gentle disposition and a friendly nature. Few enjoyed a companionship more than he and among our most respected and prominent citizens may justly be numbered the late Mr. T. B. Riley. He was twice married, first to Miss Annie Keough, who died about eighteen years ago leaving one daughter, Miss Anna, and afterwards to Miss O'Toole of Providence, R. I., who survives him with a family of four sons and one daughter. These are Thomas B., Charles, Gerald Daniel and Mary. Also one sister, Mrs. T. E. Flynn, of this city. Mr. W. M. Flynn, C. N. R. Ticket agent of this city is a nephew while life lasts. To the bereaved, the Guardian extends sincere sympathy.

The funeral will take place today, Wednesday morning at 9:45 o'clock from his late residence to St. Dunstan's Cathedral, thence to the Roman Catholic Cemetery.

THURSDAY

LAI D TO REST. — The funeral of the late T. B. Riley took place yesterday morning at 9:45 to St. Dunstan's Cathedral where a Requiem High Mass was celebrated by Rev. Maurice McDonald. The pallbearers were Hon. D. A. McKinnon, M. P., Messrs J. B. McDonald, Gilbert Gaudet, Chas. Chandler, Simon Paul and Hon. P. J. Nash. Services at the grave were conducted by Rev. Jas. Rooney.

The large number of valuable gifts received testify to the high esteem in which they are held by their many friends. After the ceremony the happy couple drove to Borden on their way to the Mainland where they will spend a short honeymoon. On their return they will take up their residence in their new home at 72 Rochford Street where we hope many happy years of wedded life await them.

RETURNING HOME.—Rev. Dr. John W. Wadman and his wife, after a visit of some weeks with their relatives and friends on the Island, leave this morning on their return trip to California. They go by the C. P. R. and expect to make a few short visits here and there en route. They have greatly enjoyed their vacation here before proceeding to their home in Hawaii. Dr. Wadman may remain on the Pacific Coast for some time filling engagements as a Missionary delegate to the Methodist Churches or as pastor of one of the California Churches. It is possible, however, that he will go direct to Honolulu in order to organize a church of all nations for the benefit of every creasingly large number of native-born, English-speaking Hawaiians and Orientals residing in the city and who have recently petitioned the Methodist authorities for such an institution.

Miss Mary T. McDonald of Harmony Jet. died very suddenly, last Wednesday afternoon, while on a business visit to Mr. Isaac Cheverie's, New Zealand. After reaching Mr. Cheverie's in the forenoon, she felt unwell, and lay down on a bed for a short time. Presently she felt better and sat down with the family to dinner, apparently all right. After dinner she relaxed and died quite suddenly, supposedly of heart-failure. Her remains were taken to her home at Harmony Jet. the same evening where they remained until Friday morning.

Good prices were paid for the horses, the sales being made in Charlottetown, and the horses shipped by way of Sydney. This extensive transaction speaks well for the reputation of Island horses and such buyers as Mr. Curran are deserving of every encouragement. Mr. Curran during his stay in the city was a guest at the Revere Hotel.

At the recent convention of the N.S. and P.E.I. Retail branch of the Dominion Retail Merchant's Association held in Charlottetown the question was passed that at any time this province might become linked up with the Association as an independent branch, instead of being as during the last five years, attached to the Nova Scotia branch, under the supervision of Mr. J. Cuthbertson Doyle of Halifax, who has acted in the capacity of secretary for both provinces. It has been felt that the Island has a right to be represented on the Dominion Council and Dominion Board, as it would be to the advantage not only of this province but to the growth of the association as well. The system under which the Association is operating gives each branch six representatives and in this case the Island will enjoy a better representation according to size and population than any province in Canada.

The organization of the independent Island branch was completed yesterday at a meeting held in the city and presided over by provincial president Chas. H. Chandler. Mr. B. Roy Holman city was elected Secretary for the Island and in future all communications respecting association matters will come to him. He was also appointed chief agent for the Retail Merchants Underwriters Agency and the North West Mutual Fire Insurance. This association established through the Association enables the retail merchant to get his fire insurance at cost and has in late years proved very successful.

Mr. Holman is taking over his secretarial duties at once in his office in the Riley Block, Queen Street. A competent assistant in the person of Miss Dorothy Davis has also been appointed as stenographer.

At an executive meeting held at the close of the recent convention here, Hon. Geo. E. Hughes and Mr. S. A. McLeod, of the firm of Moore & McLeod, were added to the provincial executive members.
