"The Charlottetown Board of Trade is en-

lished between Summerside and Cape
Toronto."—Monetary Times, July 19. Is
this above a joke on the Charlottetown
Board of Trade, or is it a fact that they
have really come to the rescue of Sum-
merside. But where is Cape Toronto?

Mr. Horace H. Beer has returned from
St. John after securing the agency for the
Maritime Provinces of the McClary Mfg.

THERE is quite a grade in the railway at
the west end of the town and why trains
should be allowed to come in from the
west at an eight or ten miles an hour
speed is more than most people can un-
derstand. Should any person or team be
crossing during the approach of a train
and by accident trip and fall over the none
too smooth crossing the result might be
that the train which certainly could not
be stopped in time would be the means of
the recording of another appalling acci-
dent.

Kensington is a busy and beautiful
town. It also has an extensive business
as a trading centre. It has an excellent
store near the depot.—R. Tuplin & Co.—
large comfortable, and modern in equip-
ment. Kensington is a typical farming
town, surrounded by rich meadows. The
prospect from the outskirts is splendid
not only from its sublime breadth but
for the variety of its loveliness. The
white and clustering cottages, thickly
shadowed by their luxuriant trees evi-
dence a degree of comfort equalled by few
of our growing towns. Knowing that the
best is required for the particular trade
enjoyed by the firm Messrs R. Tuplin are
having a great cash sale of crockery con-
sisting of blue ware, dinner, tea, and
toilet sets at one quarter less than their
value. The firm are also offering haying
and harvesting implements.

New System of DENTISTRY

—AT THE—
BALTIMORE DENTAL ROOMS
Dr. Wright & Loge
(Graduates of the Baltimore College of Dental Surgery.)

Some Notable Features of Our New System
Science. Quickness. Neatness. Cleanliness. Copies Nature. Endurance
QUICKNESS

We can save you TIME, MONEY and pain.
Those who live in the country and wish to save the expense of staying in town,
and the annoyance and pain of several operations, can do so by coming to the Bal-
timore Dental Rooms. By our famous "extraction of the pulp" we can treat and fill
your teeth at once.

Our Crown and Bridge Work

Is done while you wait and before you leave, the work being fitted directly to
the teeth. By this new system metal, which so often follow the old method of mak-
ing crowns on models, are impossible.
We want to introduce our "new system" into every home in the Province, that
everybody may know from experience, the merits of it and the great advantage it
possesses over the old method.
