At the Wednesday evening session of the Maritime Board of Trade in Truro the following resolution, moved by Capt. Read, Summerside, and seconded by C. McArthur, Summerside, was presented:—"Resolved that a better telegraph service between the mainland and P. E. I. is an urgent necessity." The inconvenience of the present service was graphically portrayed by these and other gentlemen, who advocated the laying of a second cable. An amendment was moved by E. T. Higgs and seconded by R. H. Jenkins, Charlottetown. Acting upon the suggestion of the President the contending parties conferred together and agreed upon the following:—"Whereas, the Dominion Government is under statutory obligations to maintain telegraphic communication with P. E. I., under the Act of Confederation; and whereas, the present service is inefficient, unsatisfactory, expensive and frequently interrupted by the breaking of the cable. Therefore, be it resolved that the Maritime Board of Trade now in session in Truro, request the Dominion Government to take immediate steps to place the telegraphic service between P. E. I. and the mainland on such a basis as will ensure a continuous service, equal in cost and efficiency to that enjoyed by the people of the mainland. And in the opinion of this Board a second new cable is necessary in order to do this." Passed unanimously.

"There's a good line of new perfumes here in bulk. FINE CUT GLASS
Purchasers of cut glass need to make sure that they are getting the genuine article. We know that there is being marketed by manufacturers who are considered reliable a line of so called cut glass in which the pattern is really pressed, and afterwards touched up and polished on a wheel.
Our Cut Glass is fully cut. When the cutter takes a piece in hand it is perfectly plain on both sides and every line is cut and polished by hand.
We control for Charlottetown, the product of the oldest and largest Canadian factory, and feel that we have the very best in cut glass to offer our patrons.
