## FINANCE

By Frederick Gardner  
Associated Press Financial Writer

NEW YORK, Aug. 11—(AP)—The stock market Saturday ended another sluggish week on a moderately rising note. The Associated Press average of 60 stocks finished at 43, adding 2 of a point to the 4 rally of Friday. The composite was up 1 on the week. Transfers of 180,260 shares were the best for a Saturday since June 22.

General Motors gained 1 3-4. Westinghouse was up as much. International Paper preferred pushed ahead 2 1-8. Lesser improvement was retained by U. S. Steel, Chrysler, Briggs Mfg., Baldwin Locomotive, Great Northern, Sears Roebuck, Eastman Kodak, Johns-Manville, Kennecott, United Aircraft and Sperry.

In the Canadian section, International Nickel and Lake Shore improved fractions. Dome and McIntyre dipped slightly, while Canadian Pacific and Distillers were unchanged.

## GRAIN

WINNIPEG, Aug. 11—(CP)—Marking the end of seven successive weeks without a fluctuation in price, wheat futures failed to climb from their pegged maximum level on Winnipeg grain exchange Saturday. October closed 75 3-8 cents a bushel and December at 74 5-8.

Some export inquiry was reported and there were indications of a light mill demand, but dealings were limited to a few trades in the October future.

Buenos Aires wheat values remained unchanged. In cash wheat mills showed some interest in no. 3 northern.

Coarse grain operations were confined to light commission house buying in barley.

## PRODUCE PRICES

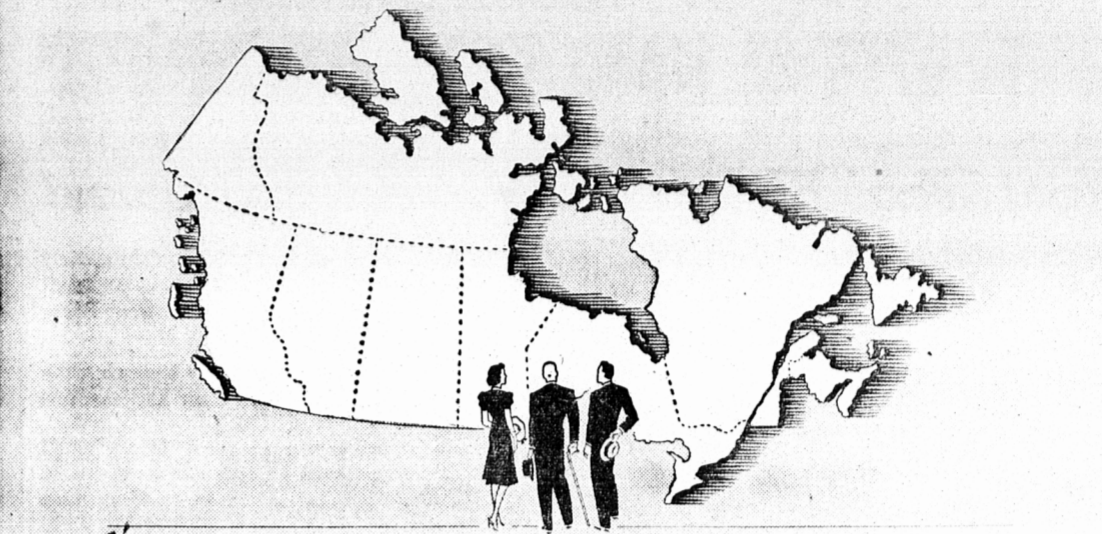

MONTEAL, Aug. 11—(CP)—Produce Market prices here Saturday, as reported by the Dominion Department of Agriculture, follow:

Butter: first grade creamery prims, jobbing price, 24-24 1-4; first grade solids, jobbing price, 23 1-2-3-4; Quebec no 1 pasteurized, current receipt price, 22 1-4; Quebec no 2, 21 1-4; Quebec no 1 pasteurized, wholesale jobbing price, 22 5-8; Quebec no 2, 21 7-8.

Cheese: Western white, current receipt price, 13 5-8-13-16; colored, 13 3-4-14; White and colored, wholesale jobbing price 14. Quebec white and colored, current receipt price, 14; Wholesale jobbing price, 14.

Eggs: graded shipments in used free cases, selling price, A—large 27; A—medium 25-25 1-2; B 19 1-2-20; C 15.  
Potatoes: Mt. new grade 1, 65-75; 2, 50-60; NB old no 1 75-125-140; PEI old no 1 75-125-140. (Potato prices are wholesale.)

# This Canada of Yours..

In your hands lies the future of this great Dominion—this nation of free and peace-loving people. Stand steadfast, with unconquerable spirit, in the defence of your country. Give loyal and unselfish service. Be confident that right will triumph over might. Be confident in Canada. Be confident in life insurance, which writes millions of Canadians for their common security. Remember in the past 100 years life insurance has been tested by wars, panics and epidemics—and it has weathered every storm. Remember that every working day, policyholders and beneficiaries are receiving \$500,000 from this great co-operative enterprise. Remember that millions of life insurance dollars, invested in war loans, are helping to provide the men and materials which are so urgently needed for the defence of this Canada of yours. It is good citizenship to own Life Insurance

## PROVINCE OF QUEBEC

EASTERN TOWNSHIPS AND OPEAWA VALLEY—While still somewhat backward in some sections, grains show good growth. Some damage from lodging is reported. Hay, which has been retarded by frequent showers, is about completed with an average cut indicated. Pastures are in very good condition and dairy production is at a high level. Fodder and canning corn shows improvement, but the crop will probably be below average. Early canning peas were plentiful; gathering of later varieties is under way, with the yield reported as average. Tomatoes, while late, are making good progress. Potatoes and other roots are promising. Tobacco plants are in good condition. Raspberries and blueberries are plentiful. LOWER ST. LAWRENCE AND LAKE ST. JOHN DISTRICT—Grains continue to make good progress, but are still retarded in some districts. Pastures show good growth and give promise of a satisfactory yield. Other roots are doing well. Hay has been harvested by a late under way. Hay is bearing completion, with quantity and quality satisfactory. With the exception of onions, which are damaged by frost, the crop is generally fair to average yields. Apricots of good quality and yield are nearly over. Early peaches and apples are moving in volume. The following fruit yields are now indicated at interior points: Apricots and peaches 100 p. c., apples and pears 85 p. c., plums and cherries 80 p. c. of average. In the lower Fraser Valley tree fruits yields generally will be light. Apple scab is developing in some parts of the Kootenay districts. The supply of water for irrigation is sufficient in most districts. Pasture has benefited from recent rains.

## PROVINCE OF BRITISH COLUMBIA

Recent rains have been beneficial. Cutting of early crop of grain is under way. Hay is bearing completion, with quantity and quality satisfactory. With the exception of onions, which are damaged by frost, the crop is generally fair to average yields. Apricots and peaches 100 p. c., apples and pears 85 p. c., plums and cherries 80 p. c. of average. In the lower Fraser Valley tree fruits yields generally will be light. Apple scab is developing in some parts of the Kootenay districts. The supply of water for irrigation is sufficient in most districts. Pasture has benefited from recent rains.

## PROVINCE OF ONTARIO

Warm weather and timely showers have maintained favourable growing conditions. Good yields are anticipated for the main grain crops, although considerable lodging and some rust is reported. The fall wheat harvest is well advanced. Cutting of early-sown spring grains has commenced; late crops are filling and ripening rapidly. A heavy hay crop has been stored under difficulties due to frequent rains. Corn and roots are progressing favourably. Apples, especially late varieties, promise average yields. Below-average yields are forecast for peaches, pears and grapes, particularly in the Niagara district. Small fruits generally are satisfactory.

## PRAIRIE PROVINCES

ALBERTA—Crops are making good progress and recent rains where most needed have been beneficial. In central and northern districts higher temperatures are required to hasten maturity. Cutting has commenced in the southeast, but generally, harvesting will be later than usual owing to a late start. In some sections the satisfactory and pasture is in good condition.

Manitoba—Crops are making good progress and recent rains where most needed have been beneficial. In central and northern districts higher temperatures are required to hasten maturity. Cutting has commenced in the southeast, but generally, harvesting will be later than usual owing to a late start. In some sections the satisfactory and pasture is in good condition.

## PROVINCE OF SASKATCHEWAN

Manitoba—Crops are making good progress and recent rains where most needed have been beneficial. In central and northern districts higher temperatures are required to hasten maturity. Cutting has commenced in the southeast, but generally, harvesting will be later than usual owing to a late start. In some sections the satisfactory and pasture is in good condition.
