Hair Secrets
Gleamy, Thick, Wavy Hair in a Moment

A delightful surprise awaits those who try this. When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! Your hair will appear twice as thick and heavy—sparkling with life and possessing that incomparable softness, freshness and luxuriance, and just delicately perfumed.

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, heavy and strong. Hair stops falling out and dandruff disappears. Get a 35-cent bottle of "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair appears after this delightful, refreshing dressing.

FACE WAS DISFIGURED

With Pimples. Terribly Itchy. Cuticura Healed.

"My trouble began with blackheads and pimples on my face. The pimples were large, hard and very red, and some of them festered. They were terribly itchy causing me to scratch and the right side of my face was disfigured. The irritation kept me awake, and my face was a sight. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and before long I saw a wonderful change. I continued the treatment and now I am healed." FIRST HOCKEY AT BEDEQUE

The first hockey match of the season was played at Bedeque rink Friday night, Jan. 1st, the contesting teams were the Borden Nationals and Bedeque Beavers, the Beavers winning by the score of 3 to 1, which was a surprise to the spectators as Bedeque started with three new players Bagnall and Noonan as juniors who never played a senior game before and Barwise in goal. Bagnall played a great game (who by the way is only a youngster) and had it not been for the stopping of McPherson in goal for Borden who stopped shot after shot from Bagnall's stick the score would have been different. A. Howatt, C. Howatt and P. Doucette played a good game for Borden and P. Noonan, P. Callbeck and F. Moysie for Bedeque.

After the game one hour's skate was enjoyed by over one hundred skaters. After this the Borden hockey team were invited to the home of Mr. and Mrs. W. Bradshaw for lunch.

The Quest of Youth

The question has been asked why young Canadians look outside their own borders for their heroes in industry and commerce

THIS is due, perhaps, to the prominence given in magazines from other lands to "stories of successful men," while men who have built vast Canadian enterprises often remain in the background rather than pass under the spotlight of publicity.

Canada has progressed farther in the development of electricity than most nations. Do Canadians fully appreciate what this means? Canada's great water powers are her natural heritage. And she is fortunate in having had men with the vision and capacity to direct their development for the use of municipalities, industries and homes. She is doubly fortunate in having had, at the same time, men with the foresight and ability to organize the electrical industry, to manufacture and distribute the millions of pieces of equipment through which electricity has been made the servant of the Canadian people.

This is a story that Canadians should know

One of Canada's great electrical organizations, Northern Electric Company, Limited, takes pride and pleasure in the duty of telling it. Through advertisements in the public press of Canada, Northern Electric is informing the country of the important part that the electrical industry plays in the national life.

The success this company has achieved has come through service—honest, painstaking service, and this is assurance to young men of their own success in the electrical field in Canada.

In the electrical industry thousands of young Canadians are, today, laying the cornerstones of permanent prosperity. It is an industry with unlimited opportunities, of golden promise.

The growth, the expansion, the enterprises which follow this one branch alone of Canadian activity, is proof in itself that the future of the youth of this country lies within our own gates.
