

Important Provincial News of the week for Saturday Subscribers.

FRIDAY.

The death occurred at Clifton, New London, on Aug. 11 of Mrs. Murray, wife of the Rev. John Murray.

At the Caledonian games, held at the Caledonian grounds, Roxbury, Mass. recently, B. F. Stewart, formerly of Montague, won second place in throwing the hammer, open to members, and second place in the 220 yards (handicap), open to members.

Yesterday morning the prohibition case against A. W. Reddin for third offence came up at the Police Court. Ernest Foster, drug clerk for Mr. Reddin, was placed on the stand but on questions being put to him he refused to answer them giving as his reason for this that it was not compulsory for him to reply to questions that might incriminate his employer.

George and Mrs. Matheson, Revelstoke, B. C., the parents of the late J. Montgomery Matheson, teller of the bank of Nova Scotia, Campbellton, who died on Friday last at that place, arrived in this city Wednesday night by the express to attend the funeral of their son.

Particulars to hand state that "Monte" as he was familiarly called, was suffering from inflammation of the glands of the neck and abscesses of the throat for a couple of weeks, but supposed he had recovered from both of these ailments and returned to work again. Very shortly after going back to his duties internal troubles aggravated by heart trouble set in and he sank quickly, and death came on Friday morning, the 6th, inst.

Mr. Matheson was a general avocate both in business and social circles, and he leaves a vacancy that will be difficult to efficiently fill as "Monte" did. He was about to go on an extended vacation to the home of his parents in Revelstoke, B. C., hoping that the change would benefit him. Interment will take place at Portage today.

There have been a great many athletic events in Charlottetown before last night of more than ordinary interest to the sport loving public. Charlottetownians have witnessed contests—Provincial and Maritime—that have been close and in which excitement reigned supreme.

The City and province have sent its quota of people to witness events at the C. A. A. grounds, in the time of its greatest popularity that were considered large, enthusiastic and sporty. The attractions to the grounds have also been in most cases such as to merit these good attendances, a great many of those who have been contestants in track events here having since won honours for themselves in the Dominion Championships.

But last night! It was the peer of them all. The interest evinced by the general public was unusually great and the question of the minute up to the time the first man crossed the tape was "who will win?" All looked up the past records of those coming from Nova Scotia and Cape Breton and weighed the chances of our local men against those of the men who had already won fame and set the time for long distance grinds in several towns on the other side. On their arrival here they were watched for and on their appearance on the street judgment was passed on their build and physique.

In this way the attention of the public was more forcibly drawn than ever before to the Ten Mile Run advertised for some time past.

ond in the Herald Road Race in Halifax last fall which was won by Hans Homer, fourth in Montreal Star fifteen mile "around the mountain" race coming in ahead of Fred Simpson, the Indian, being beaten by three men, viz: Longboat, Homer and Sellin, all of whom are now professional. He also won a fifteen mile indoor event in Sydney and the ten mile indoor run in Windsor last spring. He won the last ten mile run at the Arena in Halifax in which Campbell of Glace Bay was second. Prominent men in athletics who have seen Rogers run in Canada. Cameron is practically a new man and sprang into prominence only shortly before winning the recent five mile event in Amherst. Paul, of Truro, a brother of M. Paul, who trains Michael Thom. He is also a new man and was a competitor in the last mentioned race, beating Thomas. Howard, York, is a new man and showed good form in training. Thomas, Harley and Robertson are too well known here to need any comment. There were some entries from Lennox Island but they did not show up when the starter called his men out.

In preparation for this event the C. A. A. grounds had been fixed up, the track received considerable attention in addition to being officially measured in which it was found that in forty laps a runner would cover ten miles and eighty-five yards. The Grand Stand had been attended to and all seats numbered and reserved. The lighting received special attention. Seventeen 500 c. p. electric lights shed their brilliancy on the quarter-mile track and there was also a string of lights at the entrance. Everything that concerned the comfort of the public and the contestants was carefully seen to by the efficient committee in charge.

The race began about 8.58, the runners started off in a bunch, Cameron of Amherst, taking the lead. In the first mile all the runners held their positions except Howard, who dropped back at the fourth quarter. In the first quarter of the second mile, Cameron took the lead, followed by Thomas and Rodgers, the remainder following behind in regular order. This continued with no change until the first quarter of the third mile, when Harley, who had been with the hangers on, struck up a faster gait and joined the three leaders, taking fourth place amid great cheers of approbation from the assemblage.

It was at this point that the race began to show signs of concern, the following order, viz: Cameron, Thomas, Rodgers and Harley, with the others some distance behind, ran two quarters when they lapped Howard who had lost some forty seconds in a delay owing to an accident.

The above order continued for quarter after quarter, the sameness being marked by some of the contestants being attended by their trainers with a dampened sponge. Harley was making a good showing up to the eighth mile when it became evident that he was weakening and he fell back gradually, and running alone for two and three quarter miles, when he was lapped by the three with whom he had been running only a short time before. A change being made in the order by Rodgers showing a sprint at the end of the fourth mile, and passing Thomas and Cameron, he took first place which he held for about three hundred yards, after which he was again forced to drop back to his old position. About the end of the eighth mile Harley dropped out of the race. The same positions were held by the three leaders, viz: Cameron, Thomas and Rodgers up to the thirty-eighth lap when they lapped Robertson and Campbell. Up to this time Cameron had been running a beautiful race with easy light strides that impelled him along with apparently little or no effort. Thomas short springs stride was just the same as he had started off with. Rodgers was running easily and putting up a following race in which he was evidently expected to find himself leading owing to the others setting a faster pace than they could stand. When they had but three quarters of a mile to go Cameron tried to shake off his persistent pursuers but his attempts in this direction were of no avail for after every fresh trial he would find Thomas and Rogers close behind. It was not until the first 100 yards of the last quarter had been passed that the Halifax boy made his second effort to pass Thomas, and this time he was successful. As he approached Cameron that gentleman promptly improved his gait and the two at a splendid speed came around the 220 turn. Then Cameron redoubled

his energies and with a most magnificent burst of speed, finished in beautiful form in the last time of 56.04 2-5.

Rogers was second, his time being only a few seconds behind that of the winner, and Thomas finished in 56.26. Robertson won fourth place and Campbell, fifth.

The race was over, enthusiasm ran high and the applause that greeted the winners assured the management of the complete satisfaction of the public and at the success of the first Championship Ten Mile Run for the Maritime Provinces.

The prizes will be—1st, gold medal (Championship); 2nd silver medal (championship); 3rd, 4th and 5th, medals.

The following is the time and leader at the end of each mile:—

Mile 1—Cameron 5.11
" 2—Cameron 10.43 2-5
" 3—Cameron 16.22 4-5
" 4—Cameron 21.17
" 5—Rogers 27.00
" 6—Cameron 33.37
" 7—Cameron 33.13 2-5
" 8—Cameron 44.58
" 9—Cameron 50.43
" 10—Cameron 56.04 2-5

The quarter mile handicap run was won by M. Paul, (10 yards), second, P. Hooper, (scratch), third P. Corish (10 yards) and fourth P. Duffy, (scratch), time 52 seconds.

A three mile Bicycle Race which was well contested, was also run off which resulted as follows: first H. Howatt; second, N. Winchester; third, J. Gaudet; time 8.32. Winchester entered the race with an injured wrist which must have interfered with him to a certain extent.

The special train from Montague and the special from Summerside had fifty excursionists each and left on return at 11 and 11.15.

It is only fair to mention that Mr. Campbell of Glace Bay was at a great disadvantage having been sick in bed yesterday and under the care of a doctor. His plucky finish was applauded by all.

Yesterday at the Range was quite a change from the first day. The weather was cool with enough wind to enforce the use of good judgment in setting the wind gauge. The day's scoring resulted as follows:—

The opening matches of the Provincial Rifle Association were fired Wednesday under unfavorable conditions. In spite of the strong wind and hazy atmosphere some very good scores were put on. The riflemen, however, are by no means unaccustomed to reverse winds and bad weather and some of them are known to believe that the weather man

The Prowse match is to be fired tomorrow. The following is the scoring done at yesterday's shooting:—

Important Telegraphic News of the week for Saturday Subscribers.

CAMBRIDGE, Mass., Aug. 7.—Mrs. Elizabeth Richmond was held without bail by Judge Almy in the Cambridge district court this week for the murder of Stewart McTavish in the Hotel Florence, East Cambridge on Friday, July 23. She was at once taken to East Cambridge jail, where she will await the sitting of the September grand jury at Lowell.

McTavish had tarried for a few days at the hotel previous to starting on his vacation from his duties at the state colony for the insane in Gardner, where he was employed. It was his intention to go to his home.

Mrs R chmond, who appeared in court stylishly attired in a silk shirt-waist and a black silk skirt, was represented by Ralph W. Glogue. She followed the proceedings with the utmost care, and seven times summoned Atty Glogue to her side. They conferred earnestly on each occasion, and at the end of each conference the lawyer began a new line of cross-examination on the witness of whom 20 had been summoned, but of whom only four were called.

Medical Examiner William D. Swan first testified to the condition of the body and the nature of the wounds from which death resulted. He said there were several of them about the head, one a gunshot wound on the right side.

John Drohan, the cook at the Hotel Florence, described the finding of McTavish's body and the position of the body on the bed when he and Timothy J. Clifford, a border discovered it.

"Mrs Richmond was lying on the kitchen floor," he said. "I had previously seen her in her sitting room," he continued, "and the last time I saw McTavish alive was on Thursday. I did not see Mrs Richmond on that day."

He was asked as to whether or not he knew there was an ax in the cellar. "I did," he replied. "I have used it many times."

He said that he had seen McTavish coming from a room on the top floor, and that Mrs Richmond was lying in the bed in the room in a drunken condition. He said that the arrival of McTavish in the house had been the cause of comment among the boarders. One of them, Clifford, who was with him when the body was discovered, had remarked that the "herring choker" was back again, and that there was sure to be trouble at the house.

"You didn't kill McTavish, did you?" asked District Attorney Higgins. "I did not," replied Drohan. Timothy J. Clifford declared he came home to dinner on Friday and found Mrs Richmond on the kitchen floor, "dead to the world."

"I asked Drohan if he was there and he said he didn't know," remarked that we'd better find out. We then went upstairs and found the door of his room locked. We got in and found the body on the bed.

"My God, she's killed him," shouted Drohan. "I heard an ax hit but thought it was in the street."

"I never saw the ax before," and hope I never will again," he finished impressively as he described the scene in the room.

"Did you kill McTavish?" asked the district attorney. "No. Do you think I'm crazy?" No," answered Clifford. John A. O'Hern testified to paying a fifteen dollar value tax for Mrs Richmond at Cambridge City Hall on the day of the murder. He said that she was sober when she gave him the money and asked him to pay the bill.

Atty. Glogue declared no evidence had been introduced to support the charge of murder against Mrs Richmond, but Judge Almy found probable cause and ordered the woman held.

OLD ORCHARD, Me., Aug. 9.—Nearly \$50,000 for missionary work was raised by Rev. A. B. Simpson, of New York, within three-quarters of an hour at the annual offering of the Christian Missionary Alliance here yesterday. A few hours later this sum was augmented so that the total for the day reached \$53,428, the largest offering in recent years. Some years ago the sum attained the \$100,000 mark but at that time Old Orchard was the only place of collection. Now there are fifteen such offering services held throughout the country. The sum, except for \$200, is composed of pledges, ranging from fifty cents to \$6,000. (Rev. Mr. Simpson is a native of P. E. Island.)

ST. CHARLES, August 12.—There passed peacefully away at St. Charles, on August 11th, John McDonald, of the fifty second year. His illness had been ailing for some time with stomach trouble, and despite the close attention of medical skill, and the constant ministrations of loving friends death finally triumphed. Deceased was a man whose passing is a distinct loss to the community in which he lived. He was one of those strong pillars of society which seem to be divinely placed in every community of men as a guide to those who are less gifted. Besides the more sterling qualities of justice, honesty and integrity, he possessed also an eminent degree the finest characteristics and graces which make men useful and potent members of society. He was intelligent, broad-minded, and public spirited, and in every movement which was calculated to make for the betterment of his fellow-men, he was ever found ably supporting the right. It matters pertaining to the Catholic Church of which he was a faithful follower, he willingly and enthusiastically took a prominent part, while his zeal for the cause of education and for the general uplift of mankind, was vigorous and lasting. He held himself always ready and prepared to console the afflicted, to comfort the distressed, and to encourage and cheer the struggler and the downtrodden. At home he was kind, entertaining and hospitable, a man whose heart and health glowed warmly and brightly to cheer all both friend and stranger. Greatly the loss of his passing is to society, infinitely greater in it to his wife and four helpless children. Politely and modestly they feel the loss of such a faithful and loving husband of such an affectionate and devoted father. But confidence in an All wise God never fails to sustain the afflicted in their bereavement, for though the gloom of sorrow may at first seem impetuous to mortal eyes, hope still sees a star, and faith and love are able to penetrate the darkest cloud. The esteem in which the deceased was held by the community was openly manifested by the large concourse of people which, on Sunday, Aug. 8th, followed his remains to St. Charles Church, where, after the obsequies were performed by his pastor Rev. E. Walker, he was tenderly laid to rest in the adjoining churchyard beside loved ones who had gone before. To his grief-stricken widow and children, likewise to his brother and sisters are extended heartfelt sympathy.—Omn.

Rheumatism is just another name for Uric Acid in the blood. Logically, the way to cure Rheumatism is to prevent Uric Acid from getting in the blood. Abbey's Effervescent Salt is regularly prescribed by physicians for their Rheumatic patients. It certainly does give relief. 25c. and 60c. At druggists.

The Mission Of those corpuscles in your blood that have been called "Little Soldiers," is to fight for you against the disease germs that constantly endanger your health. These corpuscles are made healthy and strong by the use of Hood's Sarsaparilla. This medicine is a combination of more than 20 different remedial agents in proportions and by a process known only to ourselves and it has for thirty years been constantly proving its worth. No substitute, none "just-as-good."
