JOHN REDMOND'S WILD LANGUAGE

A Defiant Warning To Imperial Statesmen To Grant Home Rule. Expressing Hatred Of British Domination Coupled With A Threat

[SPECIAL BY CABLE] DUBLIN, June 24.—John E. Redmond delivered an address at Wexford yesterday at the ceremony attending the unveiling of a memorial to the Wexfordians who fell at the battle of New Ross in 1802. He gave a defiant warning to British statesmen saying: We tell England that we hate her rule as bitterly as did our forefathers when they shed their blood on this spot. We tell her that we are as much rebels to her rule to lay as our forefathers were in 1802. We tell her that she can change that hatred only by granting freedom, and so long as she with-holds freedom it will remain merely a question of expedience how and by what means we will strike at the power that holds our country in bondage.

EMMERSON CROCKET DEFAMATORY LIBEL

Judge Landry Refuses To Refer Demurrer To Full Bench But Will Allow Reserve Case—Motion For Crocket's Discharge

[SPECIAL BY CABLE] FREDERICTON, June 24.—In the Emerson-Crocket defamatory libel case before the Circuit Court here Judge Landry declined to refer the question of the demurrer raised by the Crown counsel to the full bench for decision. He afterwards consented, however, on the application of the prosecution to reserve a case for the higher Court. The Crown counsel applied for a postponement of the trial but the defendant's counsel raised an objection and made application for his discharge from arrest. Judge Landry after remarking that the case was in somewhat an embarrassing position, stated that he would give his decision tomorrow morning. If he should refuse the postponement it will probably mean an end of the case and the discharge of Crocket, as the Crown has declared it will not go on under the present conditions.

ROME, June 23.—Word has been received here that an automobile containing Marquis Ferrara, the Duke de Laregina, two guests, one of whom is believed to have been an American woman, and the chauffeur, plunged into a ravine on the Naples road. All of the occupants of the car were killed.

The motor car, which was going at a high speed, ran into a rock and was demolished. Among the killed was Prince Pescara, a member of the Italian Royal house, on account of whose death the attorney of the whole Lower Italy will be in mourning.

PLAGUE AMONG MEXICAN PERSONS

MEXICO CITY, June 22.—According to a report 1,000 Japanese who reached Salina Cruz June 18th, have been forbidden to land owing to bubonic plague, which is said to exist among them. The men are laborers sent here to work in the coal mines in Coahuila.

SHE ELOPED WITH A PLUMBER'S SON

PARIS, June 22.—The only daughter of a millionaire manufacturer at L'Isle Adam, in the department of Seine-et-Oise, who is believed to be worth \$5,000,000, eloped yesterday with the son of a local plumber. The young plumber was superintending extensive alterations at the splendid chateau of the millionaire. He attracted the notice of the millionaire's daughter by his good looks and nice manners, and the two fell in love. When the millionaire accidentally discovered the attachment, he forbade his daughter to see or communicate with her lover and in a towering rage ordered the young man off the premises. The couple soon found means to correspond, and the girl, despairing of securing her father's consent to the marriage, she agreed to an elopement. She, therefore, arranged a visit to her dressmaker, in Paris, yesterday and was allowed to go in charge of her governess. The governess returned to the chateau in tears late in the evening, and said that while she and her charge were looking in a Paris shop window the girl suddenly disappeared.

GROUP OF SPOTS OBSERVED ON SUN

WASHINGTON, June 15.—An enormous group of solar spots was observed for the first time to-day by Professor G. C. H. Peters, of the United States Naval Observatory, with the photo heliograph. "They probably appeared on the sun's eastern edge over two or three days ago," said Professor Peters in speaking of his observations, "but owing to the clouds the observations were unobtainable here until to-day. The group at present consists of two large spots connected by a somewhat smaller one. There are a few outlying spots. The total length of the group is 82,000 miles, while its breadth is about 33,000 miles. It is nearly one-tenth the apparent diameter of the sun, and can be easily seen through smoked or colored glass. This group is in the sun's southern hemisphere, in the part known as the sunspot zone, it was the most conspicuous group announced last February."

Beware of Ointments for Catarrh that Contain Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. Such a precaution should be taken by physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, O., contains no mercury, and cures in reality, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by E. J. Cheney & Co., Testing via free trial by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

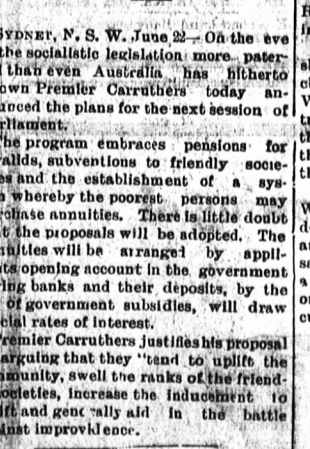

GRADUATES WHO HAVE LICENSES

A List Of Those Who Have Been Quite Successful In Passing

The following is a list of those who have passed the examinations to secure teachers' licenses. The list is not of such a length as it used to be in former years—the reason being that all the students of the Prince of Wales College who now secure diplomas are qualified for teachers' licenses without any further examinations. It is certainly a very flattering commentary on the Prince of Wales College, and its Faculty, that such a showing can be made; that the majority of the teachers are passed out of the College, and that instead of the four hundred formerly indicated those who had taken the license examinations there are now left but the small numbers which of late years have appeared.

Sydney, N. S. W., June 22.—On the eve of the socialistic legislation more potent than that even Australia has hitherto known Premier Carruthers today announced the plans for the next session of parliament. The program embraces pensions for invalids, subventions to friendly societies and the establishment of a system whereby the poorest persons may purchase annuities. There is little doubt that the proposals will be adopted. The annuities will be arranged by applicants opening account in the government saving banks and their deposits, by the aid of government subsidies, will draw special rates of interest. Premier Carruthers justifies his proposal by arguing that they "tend to uplift the community, swell the ranks of the friendly societies, increase the inducement to thrift and generally aid in the battle against improvidence."

HURRAH FOR A SOLDIER'S LIFE

Victoria Park Transformed And Occupied In Strength By The Militia Of Prince Edward Island—Details Of The Routine, Etc

Yesterday afternoon Victoria Park began to undergo a transformation and ere long its unbroken green vistas were sharply marked by the pitched tents awaiting the occupants who would appear to-day when the militia under orders "march into camp." This preliminary work is always done the day in advance by advance parties, three men from each company. Today the troops go into camp. The troops to be assembled to-day are: P. E. Island Light Horse. No. 3 Company 4th Regiment, C. A. 22nd Regiment. No. 9 Field Ambulance Unit. No. 12 Signalling Section. The Camp Staff will be as follows: Camp Commandant, Lt. Col. F. S. Moore D. O. C. Brigade Major, Capt. W. Harry Waltham, R. O. Principal Medical Officer, Lt. Col. H. D. Johnson, P. M. O. Musketry Instructor, Major Battle. Intelligence Officer, Major W. A. Weeks. Signalling Officer, Lieut. W. K. Rogers. The undisciplined drill instructors having reported as detailed as follows: Sgt. Maj. Instr. Brewer, Instructor Musketry. Q. M. S. Instr. Madhurst, Light Horse. Q. M. S. Instr. Smith, Instructor of 4th Regt. C. A. Sgt. Campbell, Instructor 82nd Regiment. Sgt. Hunt, Instructor No. 9 Field Ambulance Unit. Sgt. Denning, Assistant Instructor Signalling. Lance Corporal Reinhart, R. Assistant Instructor Signalling. Today will be a more or less easy day in camp, but tomorrow the regular routine will be inaugurated. A gun will be fired daily hereafter from Fort Edward at Reveille—5.30 a. m., and at First post—9.30 p. m. while the troops are in Camp. Guards will be mounted, pickets put on duty, an alarm post established, the staff and regimental offices opened, and the regular and exact routine of the most complete camp followed. A muster parade of all the troops in camp will be held tomorrow at ten o'clock, a. m., and of the Light Horse at 11.30 a. m. The troops will all come into the City to-day and go at once to camp. They will meet at the railway station by the hands of their regiments. And so for the remaining days of camp the Park will no doubt receive many visitors. Here success to the soldiers and big marks when inspection day comes round. By-the-way, inspection day this year will be somewhat of a surprise. The inspecting officer, Lt. Col. Vidal, is scheduled to be here on Friday and Saturday of this week; consequently the men will have to undergo the ordeal before they have benefited by their full term in camp. Usually the inspecting officer does not come till nearly closing day. But such is the fortune of war.

FIRE TORPEDO AT ADMIRAL

SEBASTOPOLE, June 22.—Rear-Admiral Wron, in command of the Black Sea fleet, was cruising in a steam cutter yesterday, when a torpedo boat in command of Lieut. Ruzhek was practising firing Whiteheads in the spacious inner bay. When the admiral's cutter was at short range the torpedo boat suddenly changed her position, and fired a blank Whitehead directly at the cutter, penetrating the latter's water tank. Only the promptitude of the crew in beaching the cutter in a sinking condition saved the admiral. Lieut. Ruzhek explained that the Whitehead was fired through an accident, but he and three junior lieutenants, who were sullen and refused to salute the admiral, were degraded and as a result of later evidence, were arrested on the charge of attempting to sink the cutter. Premier Carruthers justifies his proposal by arguing that they "tend to uplift the community, swell the ranks of the friendly societies, increase the inducement to thrift and generally aid in the battle against improvidence."
