

THE PATON PAVILION SCENE OF JUDGING

Cordial Greetings From His Majesty's Representative

IMPORTANCE OF LINE BREEDING

In this issue will be found an ad. of the Canadian National Silver Fox Breeders' Association. Please read it carefully.

This Organization has to do with both ends of Silver Fox ranching, the "Breeding of Foxes" and the "Marketing of Skins."

The importance of line-breeding in which Canadian National Registration furnishes the best known guide is a recognized fact. It is being widely made use of by breeders who are intelligently producing valuable silver foxes; while the Co-operative Fur Marketing Department looks after an admittedly very important part in getting for each breeder or rancher the best available returns for pelts thereto consigned.

It affords me much pleasure to extend a cordial welcome to the members and visitors attending the Ninth Annual Silver Fox Show, sponsored by the Silver Fox Exhibitors' Association.

Aside from its educational and advertising value, I believe that the Annual Fox Show brings with it a spirit of pleasure, enthusiasm, and of satisfaction which is of inestimable value to the rancher and to the dealer in furs, as well as a rich reward to the Fox Industry as a whole.

The superiority of Prince Edward Island fox pelts has never been questioned and I understand that the Exhibition of this year will contain some of the finest exhibits ever seen.

I trust that the Fox Show of 1938 will achieve the success it deserves.

GEORGE D. DEBLOIS,
Lieutenant Governor.

Fox Breeders and Fur Buyers

Visiting the Silver Fox Show are invited to call at our offices, when it will be a pleasure to us to be of assistance in dealing with insurance problems of any kind, or to be of any possible service while visiting our City and Province.

All information cheerfully furnished without obligation.

HYNDMAN and CO., LIMITED

MAGNIFICENT TROPHIES FOR SHOW WINNERS

The Trophies offered at The Silver Fox Show provide a great measure of attraction, interest and stimulation. The array of silverware, which will be on display during the period of the Show is a magnificent one, and merits more than passing notice. The sincere thanks of the Fox Exhibitors' Association is extended to those whose generosity and interest in this fine encouragement and support is due.

The following is a list of Trophies to be offered this year.

The Fox Exhibitors' Association have received a letter from Lampson, Fraser & Hutch, Inc. that C. M. Lampson Co., Ltd. London will award a trophy to be competed for annually and to be won three times by any exhibition before becoming permanent possession of that exhibitor, but each exhibitor is to receive a miniature of the perpetual trophy.

Message To Fox Breeders

The Premier and Government of this Province wish to express their appreciation and thanks through our Department to the judges and exhibitors of the Fox Show, realizing, as we all do, that the results of their labours is to bring to the public attention the high standard of quality of our silver foxes and silver fox furs.

The Government, during the past year, has undertaken to build on the firm foundation established a year ago when we engaged the services of Mr. W. F. Burke as Field Man, who has been in charge of a large number of Fox Study Clubs which were then organized. We have found this organization of substantial benefit in drawing the ranchers together in a cooperative association, thereby stimulating the industry to a very great extent. The Government this year secured the services of Mr. George C. Bishop, an expert pathologist, who made an investigation for internal parasites in the ranches of members of our Association. The rancher will thereby be given an opportunity to irradiate these parasites from his ranch, and thus he will be saved considerable quantities of feed and be given an opportunity to place on the judging table at the different exhibitions and field days a very much higher standard of silver fox than he otherwise would have had.

We were instrumental in bringing a number of carloads of fox feed and having it distributed to the ranchers at a lower price than they could have obtained elsewhere. We have now engaged a number of field men who will, during the next month, visit ranches owned by members of our Association, grading their foxes for breeding purposes and tattooing same according to quality, so that anyone wishing to buy breeding stock may profit by the expert opinion of our field man, Mr. Burke, and his associates in this work. We would earnestly ask the cooperation of all ranchers in hastening this work of grading foxes for breeding purposes, as the expense is considerable to the Government, and we wish the work done as expeditiously as possible.

In closing, I wish to express our gratitude to the representatives of different Fur Pools, to the staff of the Experimental Fox Station at Summerside, and to outstanding ranchers throughout the Province who have so materially assisted in making this undertaking of ours the phenomenal success that I believe it to be.

W. H. DENNIS
Minister of Agriculture

FOREMOST EXPERTS WILL JUDGE SHOW

Judge of the Silver Fox Show next week will be George Callbeck, Summerside, P. E. I., well-known foxman who officiated at the Sussex, N.B., exhibition this week. Four of the foremost authorities on fox farming in North America will attend the exhibition for the purpose of making observations on the trend of the industry here as compared with the United States. They are Frank G. Ashbrook, in charge of fur resources for the United States government, Charles E. Kellogg of the U.S. Bureau of Biological Survey, Dr. John I. Hardy of the U.S. Bureau of Animal Industry, and Dr. Walter Wisniewski of the University of Wisconsin.

New Indian Schools Built

To meet the educational requirements of Canada's increasing Indian population, five day schools were constructed last year on reserves at Resigisicome, Quebec, Christian Island, Ontario; Bloodvein, Manitoba; Kunstino, Saskatchewan; and Port Simpson, British Columbia. With the exception of Kunstino, where a school was established for the first time, these schools were built to replace buildings which had become unsuitable for educational purposes. The new schools are modern in every respect, and are equipped to provide an educational program designed to meet the needs of the reserves on which they are established.

Progressive attempts have been made to bring the educational policy in closer conformity with the actual needs of the Indian children with special emphasis on manual training and vocational instruction. Residential schools are now equipped to provide worth-while instruction in agriculture, carpentry work, boat-building, tailoring, dressmaking, cooking, hand-loom weaving and physical culture. A program of vocational training is also being put into effect in rural one-room day

schools where accommodation is available. In areas where the livelihood of the Indians depends largely upon the game resources boys of teen age are afforded opportunities for practical training in hunting and trapping. The revival and advancement of Indian handicraft has been given particular attention, and the tendency and willingness of the Indians to recognize the value and distinctiveness of their arts and crafts has been most encouraging. The response of the Indians to the efforts to advance them to a position of independence and self-support has been a major factor in the success of the work.

The provision of day and residential schools has done much to advance Indian education in Canada. At present there are 277 day schools, 80 residential schools and 10 combined Indian and white schools in operation throughout the Dominion under the supervision of the Department of Mines and Resources. During the past ten years enrolments have increased from 15,347 in 1928-29 to 17,743 in 1937-38, while the percentage of attendance has advanced from 73.35 to 75.22. Enrolments at day schools in 1937-38 totalled 9,510, while 9,233 Indian children attended the residential schools.

FAMILY DIVISION

CAPE TOWN — (CP) — A restitution suit here revealed that husband and wife had an arrangement whereby the husband took the two children of the marriage and the wife the family motor car and £200 (\$966).
