The first regular meeting will be held at the home of Miss Marion Campbell on July 18.

For Rheumatic Pains.—The pains and aches of Sciatic and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

PERSONALS  
Miss M. E. Keith of Campbellton, N. B., is the guest of Mrs. J. E. Purdie, 6 Water St.

"Keep in mind you're Riding on Air!"

Plenty of rubber, and the right kind of rubber in the right place—in Dominion Royal Cord Balloons. For example all the cotton cord used is soaked with pure rubber latex. You cannot see all the rubber in a Dominion Royal Cord Balloon, but it is there, adding to the mileage of the tires.

AIR is about the only thing you can get free these days. And yet half the men who drive cars seem afraid to use it.

Air lifts the load off the road. The heavier the load the more air it takes. That's why tire makers have worked out the correct inflation pressure for every size of tire for different loads.

You wouldn't think of running on a flat, yet how often do you let the pressure run so low that every severe bump pinches the tire between the road and the rim. An under-inflated tire is subjected to continuous and excessive flexing of the tire walls. And then you wonder why you don't get greater tire mileage.

Know the correct pressure for your tires, and stick to it. Don't guess it—gauge it. Two or three pounds under pressure cuts miles off the life of a tire.

Keep in mind you're riding on air, and if there isn't sufficient air, you're riding straight into trouble.

Pay a weekly visit to a tire service station and have the inflation checked and the tires examined for minor injuries. It's the only way to get the maximum mileage from tires.
