**The Yellow Stub**

She wondered vaguely what love was after all—even felt a slight twinge of pity for Sam Church. Was one to recognize a thing as love only when one felt sure it was unrequited? Were people doomed to wander through the world loving those they could never hope to have?

"Love," she soliloquized in her mirror, "must be like opportunity—it comes but once, and if it isn't recognized it is gone forever."

"Only," she continued, tearing herself away, "I won't give him up. I won't. Not if I have to crawl to him and beg. Oh Jim have pity!"

She flung herself on the couch and gave way to bitter tears. "I love him so," she sobbed.

Olga was conscious once more, though faint and in a state of semi-hysteria, when Jimmy Rand delivered her over to kindly nurses with instruction for constant attendance and in a private room.

"Shook," he said briefly in answer to their questioning looks.

"I think he would be the first doctor he saw. 'Pain in my side,' he explained. 'Think it's a smashed rib. Want you to do something to sort of patch it up and hold it together and let me get out of here.'"

The doctor, after a brief examination, confirmed his own diagnosis.

"Broken rib, all right. Nothing very serious, but you out to be quiet for a while."

"Later on, yes, I've got to get out now. Come back, you understand."

And that's the way it was. Jimmy Rand left the hospital tightly bound beneath his shirt with the doctor's voice ringing in his ear "be careful."

He stopped long enough to telephone Lieutenant O'Day. "Be right down. Something important to tell you."

And I've something important for you, too," said O'Day.

His nerves were so a-tingle with excitement that he ignored the chair O'Day proffered him and figured and gestured as he related the happenings of the last drama-filled hours, to the occasional accompaniment of a sharp stab of pain that was the warning of the protesting maltreated rib.

"And Jensen's dead," he said. "Divis is in the hands of the police."

"Yes, I know, Rand. I heard about it. A squad's gone out there. They'll make him talk."

"They don't have to. I know who—well, I don't know much, but—"

"Here," interrupted O'Day, showing a sheaf of yellow paper at him. "From Mooney. Just got it. He's learned what he was after from Mexico City. Thaddeus Rand was mixed up in this thing, after all. Read it—then I'll listen to you."

And Jimmy read, with eyes that dilated with astonished wonder and dawning realization. Sharp cries of surprise came to him.

Long minutes he was silent, after he had read it all. Then he turned to O'Day.

"I think I understand now," he said softly. "I think I understand."

He turned to face O'Day squarely. "Lieutenant, and his hand was on the other's shoulder, 'you've been kind to me. You're one of the few who understand me. Now I want to ask you a favor, before I tell you the rest.'"

"Shoot, lad," O'Day was smiling, his voice gruff as a bulldog's.

"I want you to let me handle this thing my way, Lieutenant."

"What do you mean?"

"First, do you promise?"

"All right, I promise. Now then."

CHAPTER LII

Aside from being one of its wealthiest men, Samuel Church was one of Montreal's unexplained mysteries.

For instance, it was hard for the average man in the street to understand why a bachelor should own an 18-room house, when practically smaller houses were being answered as well, without sacrifice of comfort or beautiful surroundings.

"Think of the money he squanders in upkeep," they often remarked. "A butler, a gardener, a cook, and Lord knows how many other servants. Personally, I think Sam Church just likes to show off."

(Which may or may not have been true. It was certainly to be conceded that Sam Church loved his ease and comfort and elegance, and it was not surprising that he should be fond of a certain amount of ostentation.)

Another mystery was his sudden leap from the position of an obscure lawyer to that of one of the best known in the city and, indeed, in that part of the state. As is so often the case, his prominence came hard on the heels of his newly acquired wealth.

One day he had been a fairly successful practitioner, and the next thing you heard he had bought this mansion and was suddenly looked up to as one of the brightest of legal lights.

However grudgingly they may have looked on Sam Church's affluence, people were free to admit that he was a hard worker. Rare indeed was the night when someone did not observe a light in his library and remark, "Sam Church burning the midnight oil again. Think he'd take it easy, now he's got such a pile."

And this evening was no exception.

Of all the rooms in his house, Sam Church loved the library best. Here there was a broad fireplace, and a rare Italian walnut table, and easy leather-covered chairs, and cases of books, braved in their many colored bindings.

He sat in his favorite chair before the table, the heavy bowl of his pipe almost caressing his chin, its curved stem gripped loosely in his teeth.

But Sam Church was not working he was reading a newspaper. From time to time he looked up,

**Women Tell**

Others how this new hygienic pad discards easily as tissue—no laundry

**BECAUSE** one woman so advises others, and because doctors so urge, most women are deserting the old-time "sanitary pad" for a new and better way.

Eight in 10 better-class women now use "KOTEX."

Discards as easily as a piece of tissue. No laundry. No embarrassment.

Five times as absorbent as ordinary cotton pads.

Deodorizes, thus ending ALL danger of offending.

Obtainable at all drug and department stores simply by saying "KOTEX." You ask for it without hesitancy.

Package of 12 costs only a few cents. Proves old ways a needless risk. In fairness to yourself, try it.

glanced irresolutely towards the telephone nearby, and turned back again to the print in the face of O'Day.

After a time he threw the paper down, puffed savagely on his pipe and turned a loose-leaf notebook on the table in front of him.

A quiet step in the wide doorway that opened living room into library failed to disturb him.

The butler was very light on his feet.

Without looking up, Sam Church said, "Yes, Thorne."

But Thorne's low, unctuous voice did not answer him. The silence was disturbing. Church slowly raised his eyes and then gave a sudden start.

"Good evening," said Jimmy Rand.

With admirable control Church removed the pipe from his mouth and with both hands pushed himself back from the table.

"How did you get in here?" he asked coolly.

"The same way I suppose that most people get in—through the front door. How did you suppose?"

"But the butler, where—how?"

"Oh your butler. Very fine butler you have, Church. Didn't want to let me in at all. I had to persuade him."

"Damn you!" cried Church hotly, his calm vanished in the face of the other's maddening coolness.

"What do you want here?" His face was red, his voice was no longer under control.

"His fingers twitched. 'I'll ring for a servant and have you thrown out. Damn your impudence.'"

"Go ahead and ring, Church," don't think anyone will answer."

Rand's tone was still level, unconcerned. Then he said sharply, "Sit down, Church," and there was a rising, ominous note in his voice.

that caused the other man to stop dead still and stare.

"Go on, sit down," he reiterated.

"If you don't, I may have to use this." From his hip pocket he drew a revolver, which he laid on the end of the table nearest him. Then, as Church slowly settled into his chair Jimmy drew one for himself, sidestepping forward and fixing the other with an unblinking stare. "Church, I've got a long story to tell you tonight—and I've got something to settle with you."

He continued, noting the swift blanching of Church's face, "First, there's the matter of Olga Maynard."

He paused—and at his next words sudden relief was stamped on Church's countenance.

"Church," he said, "you hounded that girl to death, didn't you? Because she defied you, you had her fired from every job she could find. Only a low dog would play a trick like that."

"Even if it were true," replied Church, who had regained much of his lost composure, "I can't see where it becomes your business."

"If that were all that I had to say I wouldn't be here, never fear. It became my business when you had me fired, didn't it? You're crazy!"

"Listen, Church, save your breath for what you are going to tell me presently. (Mr. Hilton, at the Q. & R. Railroad, admitted he fired me at your suggestion. Furthermore, that man Porter at the office admits that he was paid a hundred dollars to let me go. His stenographer told on him."

"But even that, Mr. Church, isn't all, and you know it."

"Well, hurry up. I've no time to waste sitting here listening to you."

"There's no hurry." Jimmy's voice was tantalizingly cool. "You're not going anywhere—not just yet anyway," he added significantly.

"You young cub," Church sputtered, "I'll have you thrown out on your neck."

"You'll listen to me first. . . ."

Jimmy looked straight into the other's eyes. "Why don't you call Jensen or Kid Divis and see if you can get help from them?" He saw every vestige of color recede from Church's face.

"I see you know the gentlemen," pursued Jimmy.

Church looked as if he had been struck a sudden blow. "I don't know what you're talking about," he snarled. "You're crazy."

"Perhaps I am—but let me go on with my story. You had me fired, but I didn't leave town. And then you conceived the brilliant idea of writing me anonymous notes of warning. Usually they were delivered by your good friend Divis. Once he paid a little boy to deliver one at my door."

"Never mind. Sit still," and Jimmy raised a hand to ward off the other's interruption. "Why would you believe it, Mr. Church? One night Mr. Divis, a little nettled that I wasn't paying any attention to his love letters, actually shot at me."

Church struggled angrily to his feet the color once more flooding his cheeks. "This has gone far enough. I won't sit here and listen to you make mysterious allusions to things that don't concern me. I don't care if you were shot at. It's too bad he missed you."

Indeed it was from your standpoint. But the time for allusions is nearly over with now. I'm going to surprise you in a moment or two by coming right out with what the newspapers would call a strutting disclosure. You read the newspapers, don't you? Of course. I see you have just laid one aside. Well, you will have read then of the mysterious disappearance of Olga Maynard."

Jimmy had picked up the revolver and pointed it carelessly at Church, who sank back again in his chair. And Rand's voice, continuing, was cold, without emotion.

"Funny thing about her disappearance, Church. In her apartment we found a picture of my father taken when he was a boy of fifteen or so. Wouldn't he have recognized it myself, I suppose, if it hadn't been for Lieutenant O'Day. Ever met O'Day, Church? Charming fellow. It seems he knew my father when both of them were mere kids. Oh, that surprises you, eh?"

"Now, the peculiar thing about the finding of that picture was just this. It positively incriminated Olga Maynard in a murder. . . . My father's murder. He was killed some time ago in Grafton. You probably read that in the papers, too? Yes, incriminated her. She was known to be in Grafton the day of the murder. Furthermore, her handkerchief was found in the room, and the stub of a theater ticket that she had used. When we found the picture there was nothing to it, of course. You'd say she was guilty yourself, wouldn't you—from all that evidence?"

"Yes, of course, God, yes!" Church flashed a handkerchief from a pocket, mopped his forehead; and his eyes were like black beads.

"Of course. Any fool could see that. But the funny thing, Church, is that Olga Maynard never saw that picture. It seems she had a couple of visitors the night she disappeared, and one of them left the picture on the mantel piece. Now, you see what a difference that makes! From implicating her in the murder, it begins to look as if

**Not a Laxative**

"The continued use of laxatives and cathartics only aggravates constipation," says a prominent medical authority.

Nujol is an internal lubricant, not a laxative, so cannot gripe. Take Nujol regularly and you will prevent the absorption into the blood of poisons from the constipated bowel.

Constipation is dangerous for anybody. Nujol is safer for everybody. It does not affect the stomach, and is not absorbed by the body. Medical authorities approve Nujol because it is so safe, so gentle and so natural in its action.

Nujol makes up for a deficiency of natural lubricant in the intestines. It softens the waste matter and thus permits thorough and regular bowel movements without gripping.

Nujol can be taken for any length of time without ill effects. Unlike laxatives, it does not form a habit, and can be discontinued at any time.

Ask your druggist for Nujol.

**Nujol FOR CONSTIPATION**

someone, who knew she was under suspicion, deliberately planted it there to tighten the net around her."

Jimmy took his eyes from the other man's. Deliberately he began to turn the revolver over in his hands. His silence was positively maddening and Church looked as if he was ready to scream.

Still holding the weapon, still looking at it, Rand went on: "You can imagine how surprised I was, Church, to learn that the picture came from you."

Again that flat silence. Once Church's mouth writhed as if he were about to utter hot denial. Then he sank back, his head eyes fixed on Jimmy as a fascinated bird eyes a snake.

Then Jimmy closed his hand on the handle of the revolver and pointed it. "That bookcase over there, Church. Right through the middle of the glass, now. Watch."

He pulled the trigger, and Church jumped as the room was filled with explosive sound. There was a tinkle of glass on the floor. . . .

"Not so bad, eh, Church? Jimmy patted the revolver. "The next bullet's for you"—he pulled out his watch and laid it on the table—"unless you tell me why you murdered Henry Rand."
