LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?
Peps is the discovery!
Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.
In a word, while no liquid or solid can act to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

FREE TRIAL Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All drugists and stores sell Peps, 50c. box.

Young Mrs. Green (to neighbor)— "I'm having such trouble keeping our food. I bought a real nice looking refrigerator, but it doesn't seem to work well at all."
Neighbor—Do you keep ice enough in it?
Mrs. Green—Ice? I hope you don't think, after spending all that money on a refrigerator we'd go to the additional expense of buying ice.

THE COMMON COLD.
The most dangerous of all, and perhaps the most commonly due to pure neglect, is the common cold. This, if not attended to, may prove the starting point for bronchitis, tuberculosis, pneumonia, and even diarrhoea and choleraic diseases. With this are classed the infectious diseases, whooping cough, diphtheria, erysipelas, mumps, measles and chicken-pox. The third leading cause of all these ills, produced by the careless or ignorant nurse or mother, who unknowingly inflicts tortures and terrors on the helpless babies left in their charge. The tight wrappings in which the child is first rolled, and swathed, preventing the proper development of its limbs and organs, the frequency with which it is deprived of its natural food and fed on various mixtures and preparations, the haste with which it is often given adult food, unfit for its digestion, even the administration to it of alcohol and narcotic cooling mixtures, all these things weaken and stunt the child. Almost equally harmful is the habit of taking young children out at night and into crowded and noisy streets and rooms that excite and stimulate the brain to an unhealthy activity. Proper rest is an essential to the child as proper food, and without either a child cannot be healthily reared.

ONE ON THE WATER WAGON.
The alfalfa delegate was paying his first visit to a city of any size. Standing along the sidewalk, he chanced to see a sprinkling cart coming down the street, and no sooner had he set eyes on the thing than he began to laugh like a boy at a minstrel show.
"Say, old pal," he remarked hilariously, punching a cop in the ribs "don't that just beat all?"
"Don't that beat all?" responded the wondering cop. "What's the joke?"
"Just look at that feller on that wagon!" replied the alfalfa party, pointing to a sprinkler. "That derned chump won't have a drop of water left by the time he gets home."
A POPULAR MAN.
(From the Detroit Free Press.)
"How did you like your new minister?" "Very much, indeed. He's the right sort. One of those man-among-men ministers, you know. Comes over to the house occasionally, and smokes a pipe; plays on our baseball team; good at tennis and golf and seems to believe in getting pleasure out of this life."
"I see."
"Yes, and he's interested in the things we laymen are interested in. He discusses the problems of the day. I tell you, he's a fine fellow."
"I know, but what sort of sermons does he preach?"
"Well, that I can't tell you. I haven't been to hear him preach yet."

ROD AND GUN.
Bonnycastle Dale contributes the leading article to the February issue of Rod and Gun in Canada, published by W. J. Taylor, Limited Woodstock, Ont., writing with his usual skill on observations which he has made of wild animals in British Columbia. "Roughing it de Luxe" by Judson Gaylord is an account of a visit to a Quebec club of millionaires as set down by one who was successful in invading the millionaires' stronghold. "With the Hawk: A Tragedy of the Prairies," by James S. Jones is the biography of a hawk whose dominant characteristics are analogous to those of human. "The Home Trail" is the tale of a heart-breaking trek to Oxford House and is related by R. J. Fraser. F. V. Williams contributes a story, "The Ranger's Friend," and a cover design illustrating the story, which portrays a fight to the death between a moose and a pack of wolves. The regular department are well maintained and the number as a whole an attractive one particularly to sportsmen and lovers of out-door life in its various phases.
