A very large number of citizens paid their last tribute of respect and showed their sympathy with the bereaved by attending the funeral of Mrs. Isaac Lane, Charlottetown, on Sunday afternoon. Reverends Messrs. Harrison, Heaney and Fullerton all assisted at the service at the house. A special train conveyed the remains to Hazelbrook, interment being at Pownal.

Dr. A. H. MacKay, superintendent of education, and Mrs. MacKay left last night on a trip to various parts of the United States. They will visit Boston, New York, Washington, D. C., and other cities. Dr. MacKay will return in two weeks time, but Mrs. MacKay expects to be away for over two months.—Halifax Exe. (Dr. MacKay is well known in Charlottetown.)

Dr. Grenfell, Labrador, who, on his return from a tour of the west in the interest of his Labrador mission expressed disappointment of Ungava to Quebec. "Some of that territory should have been given to Prince Edward Island and Nova Scotia," said he. "Quebec was large enough already. Newfoundlanders would be the best people to open up Ungava as a matter of fact."

Last evening the Lewisville Baptist Choir and friends were entertained by Miss Ethel Frites at the home of J. W. and Mrs. Kaye, of Lewisville, in honor of Miss Evelyn Cornwall who leaves shortly with her parents, Rev. S. H. and Mrs. Cornwall, for Grand Manan. Miss Cornwall has been a valued member of the choir and Sunday School, and will be greatly missed. During the evening Miss Cornwall was presented on behalf of the choir and friends, with an address and a beautiful gold bracelet, as a token of appreciation of her services. The evening was spent in music and games, and a tempting luncheon was served by Miss Kaye.—Exe. (Miss Cornwall is well known in this province.)

At a recent meeting of the Dartmouth, N. S., Civic board—Aldermen Martin and Hawkins referred to a case of smallpox that had broken out on board H. M. C. S. Niobe last week. Dr. Trenaman was questioned regarding it, and said that a sailor was removed from the ship last week to the infectious disease hospital with what looked like chickenpox. In a few days it was learned that the patient had a very bad case of smallpox. Asked what steps he had taken to prevent the spreading of the disease, Dr. Trenaman replied that the sailor was removed to the smallpox hospital. The ship was not quarantined, but the hospital was fumigated. Dr. MacAulay said the Niobe's hospital was so constructed and equipped that it could not be thoroughly fumigated. Alderman Martin understood there was a ball scheduled to take place on board the ship last night. He said it was decidedly wrong to allow Halifax citizens to thus expose themselves to the disease. Dr. Hawkins telephoned the Niobe authorities and learned that there was to be no ball. Dr. Trenaman was requested by the board yesterday to visit the Niobe and make a thorough investigation, and if necessary quarantine the ship. The board decided to charge \$15 a week for the sailor's sojourn at the smallpox hospital.—(The Niobe has a number of Charlottetown boys on board.)

DR. ROBT. MAGILL WILL LEAVE DALHOUSIE.

OTTAWA, April 5.—Professor Robert Magill, of Dalhousie university, has been appointed chairman of the

grain commission, which was created at the recent session of parliament as a measure of the Borden government.

The commission consists of three men, of whom one will be a railway man, the second a grain expert and Dr. Magill will be the chairman. It is generally admitted that Hon. Mr. Foster, who recommended the appointment, has made an admirable selection, one that will commend itself to the whole west. Dr. Magill became acquainted with grain conditions there while acting as chairman of the Elevator commission a couple of years ago. It is understood that Dr. Magill has accepted. The salary is a lucrative one.

The news in the above dispatch will be read with great interest in Nova Scotia, as well as in the west. Dr. Magill has been a power in this community, and his removal to the west will be a loss to this part of the Dominion and particularly to Dalhousie university, where he has won distinction in the chair of economics. He is an Irishman, and a brilliant Irishman, who, on coming to this country, quickly adapted himself to Canadian conditions. His versatility, practical common sense and great ability made this an easy matter, and long ago he was a thorough Canadian.

Dr. Magill came to Nova Scotia as principal of the Halifax Presbyterian college. After brilliant service there he was called to Dalhousie university, where his talents had a peculiar opportunity for development, and where his presence enriched the university life. In the meantime he took time also to do good work as chairman of the Nova Scotia government's labor commission and afterwards chairman of the Elevator commission of the Laurier government. His report on the investigations of the elevator question in the west was considered admirable in all respects.

The present appointment by the minister of trade commerce in the Borden government will commend itself universally. It is non-partizan

and shows how Hon. Mr. Foster sought the best man and when found appointed him on his merits.

SAY, George, these cigarettes are a pretty fine line; what do you call them? "Club Virginias—Tuckett's, you know. Do you like them?" "Rather.
