

DAILY SELECTIONS FOR GUARDIAN READERS

Published by W.S. Louson

THEY TWO.

They are left alone in the dear old home. After so many years. When the house was full of frolic and fun. Of childish laughter and tears. They are left alone, they two—once more. Beginning life over again. Just as they did in the days of yore. Before they were nine or ten. And the table is set for two these days. The children went out one by one. Away from home on their separate ways. When the childhood days were done. How healthily hungry they used to be! What romping they used to do! And mother—for weeping—can hardly see. To set the table for two. They used to gather around the fire. While someone would read aloud. But whether at study or work or play. 'Twas a loving and merry crowd. And now they are two that gather there. At evening to read or sew, And it seems almost too much to bear. When they think of the long ago. Ah, well—ah, well, 'tis the way of the world. Children stay but a little while. And then into other scenes are whirled. Where other homes beguile; But it matters not how far they roam. Their hearts are fond and true, And there's never a home like the dear old home. Where the table is set for two.

THE CANAL AND IMMIGRATION

SEATTLE, Wash., Nov. 7.—The Western Labor Immigration Conference assembled in this city today with an attendance of delegates from labor organizations in California, Oregon, Washington, Utah, Idaho and British Columbia. The chief purpose of the conference, which will continue in session over tomorrow, is to devise plans where by the great tide of European immigration that is expected to sweep over the Pacific coast country after the opening of the Panama canal may be absorbed without demoralizing the labor market.

FOUNDER'S DAY AT MOUNT HOLYOKE

SOUTH HADLEY, Mass., Nov. 7.—An interesting program was carried out today at the annual Founder's Day celebration at Mount Holyoke College. The Rev. Dr. Lyman Abbott of New York delivered the principal address of the day.

(From yesterday's Evening Guardian) CARRIAGE HORSE—Mr. James Daiton, Mt. Stewart, yesterday shipped to Mr. Ambrose Monaghan, Kinross, a beautiful two year old carriage filly, by Black Pilot, Jr.

OYSTERS SHIPPED—Yesterday twenty-one barrels of oysters were shipped from Scotchfort by the Eastern freight train. These oysters, which appear to be quite plentiful, were for the Montreal market.

INSTITUTE MEETING.—Mr. W. J. Reid, B.S.A. Instructor in Animal Husbandry will address a meeting of the Clyde River Institute in the Hall at Kensington, Saturday evening November 8th, at 7 p. m. Everyone interested is invited to be present. 2517.

CHANGE OF BUSINESS.—Mr. Frank Brennan, until recently of the firm of Messrs Wm. Lamont & Co., Montague, with his wife and family, left this morning for his old home in Halifax. The business of Messrs Lamont & Co., has been purchased by Mr. Alexander Macdonald, formerly of Messrs Poole & Thomson, Montague.

HEAVY PASSENGER TRAFFIC.—The steamer of the Black Diamond Line have passed the busiest season in their history and on many trips were unable to accommodate the crowd desirous of taking passage to maritime ports, says a Sydney exchange. The company will likely have two larger passengers and freight steamers on the service next summer.

SUNDAY SCHOOL WORK. The features of Tuesday afternoon's session of the Provincial Sunday School Association, held in Fredericton, N. B., was the manner in which Rev. Franklin McElfresh, Ph. D., of Chicago, treated the various topics assigned to him at the present Sunday School Convention. His address on "The debt of the Sunday School of the New Study of Child Nature," was one of the finest heard here in years. Mrs. Ross as elementary division superintendent, rendered a carefully prepared report of her department. It was full of matter intended to inspire and make more proficient the workers, says an exchange.

Rev. J. H. A. Anderson, vice-president of the Convention, then took charge again in the absence of the president, Rev. J. C. B. Appel. In his absence Rev. Mr. Anderson gave a short stimulating address and then introducing Rev. Neil McLaughlan, pastor of the Fredericton Methodist church, who gave an eloquent, humorous and sensible address of welcome. Mr. Andrew Malcolm, with his characteristic Scotch wit, returned the thanks of the delegates. Rev. Z. L. Fash, president of the P.E.I. Association, Charlottetown, then extended the greeting of the Island to New Brunswick re Sunday school matters. Rev. Mr. Fash's address was very witty, and his address to be fully appreciated should have been heard.

POTATO CROP BAD.—The Sydney Record says that it is learned that the New Brunswick and Prince Edward Island potato and general produce crop has been almost a total failure this season, owing chiefly to the wet, rainy weather and heavy frosts. The Record was speaking to a prominent wholesale dealer yesterday. The dealer stated that reports from New Brunswick indicate that about 75 per cent. of the potato crop in several sections of New Brunswick have been badly damaged by the rains and heavy frost. The farmers in Prince Edward Island report about the same conditions. Continuous rains, followed by frost, have created great havoc with the hay, oats, grain and potatoes, which in many sections are rotting in the ground. Some of the farmers could not get their crops in the vicinity of 2,000 stocks of grain, which is equal to as many bushels. This is particularly hard on the farmers of the Island this season, as they have but recently secured a large market for their potatoes in the West Indies and they anticipated making large shipments to their new market this fall. The American duty being now off gives an open market to Canada and the provinces. The advance in the freight rates recently will have some effect in the price of potatoes in Cape Breton and there is every reason to believe that they will not be as cheap this winter as formerly. However, the belief is expressed that they will not go much higher than sixty to seventy cents per bushel.

(From yesterday's Evening Guardian) ISLAND SCHOONERS ARRIVING.—There have been but few arrivals of produce vessels from the island so far this fall, says a Sydney paper. Among the latest are the schooner W. P. O'Hara with a general cargo of produce from Crapaud for Sydney and the schr. Cecil with general cargo from Souris now at H. C. Ballem's wharf. There are now due at Glace Bay the schr. Bonus with a general cargo of produce, and the schr. Lucania, from Summerside with produce cargo, both schooners for H. C. Ballem & Co.

HOUSEHOLD SCIENCE.—The Department of Agriculture is again arranging for a course in Household Science. The Household Science Kitchen in Prince of Wales College will accommodate only twenty-three students, and it will be necessary to repeat the course a number of times. The first course will begin January 5th. Already a sufficient number of applications have been received and accepted for this course. The second course will begin Monday, February 2nd, 1914. Already enough applications have been received to fill this. The third class will begin February 16th. There are enough applications to ensure the three courses being held but it is likely this is all that will be given this year. The Household Science Course last year proved very beneficial to those who had the opportunity of attending and the Department is making every effort to give every one who wishes a chance to attend this year.

CENTRAL INSTITUTE.—The Farmers Central Institute is called to meet at Charlottetown on the 3rd and 4th of December. This is a very important organization; being composed of delegates from all the Farmers' Institutes of the Province; from the Dairyman's Association; the Poultrymen's Association; the Fruit Growers' Association. It manages the Provincial Seed Fair and discusses matters of Provincial importance to farmers. The President is, Rev. Dr. Gauthier of Palmer Road and the Secretary, Walter Simpson, Bay View—both very energetic men. The Institutes have all been written to and have been asked to forward any resolutions they wish to go before the convention either to the Secretary at Bay View or to the Department of Agriculture. On the same days the Winter Fruit Show will be held, which will attract a further number of farmers to the city. Both of these meetings are very important and should be widely attended.

SILVER SERVICE.—A genuine surprise awaited Mrs. Mary Johnson of Trafford street on Halloween, says the Quincey Evening Telegram. A little girl ran to her door and told her that she was wanted immediately at the home of Mr. and Mrs. Lamont. Mrs. Johnson answered the call at once wondering what could be the matter. On entering she encountered the house full of her friends and neighbors, who greeted her most cordially. After the excitement had subsided somewhat, the Rev. J. A. Matheson, pastor of the church of which Mrs. Johnson has long been a faithful member, stepped forward and informed her that the friends assembled, hearing that she was to leave Quincey, desired to express their appreciation of her as a good friend and neighbor. As a reminder of Quincey and her friends here she was asked to accept a little gift which would meet her eye from day to day in her new home. The gift was a handsome four-piece silver service. Mrs. Johnson although taken completely unaware, made a suitable reply. Songs were sung by Miss Minnie Miller and Mrs. A. Phillips, accompanied by Miss Nettie Miller on the piano. Refreshments were served consisting of sandwiches, coffee, ice cream and cake. A very pleasant evening was spent by all present. Mrs. Johnson will make her home in Darlington, P.E.I.

An effort is made to teach young men in college a higher and more critical respect for the English language, as well as increased facility in its use. The attempt, it is said, will be inaugurated at Harvard, and Judge Robert Grant of Boston, jurist and novelist, is one of its sponsors. Here is a ripe field that sorely needs the pruning hook. The conversation of today, aside from the demands of commercial transactions is largely wasteful. The current small talk is a sorry mixture of threadbare commonplaces, of cheap slang, of trifling themes, of pinched vocabularies. The I-should-worry line of conversation monopolizes far too many dialogues. To avoid pedantry, the talk becomes piffing. To steer clear of the bogey of boredom it bumps into inanity. What is true of the talkative young men is quite as true of the talkative young women—and possibly a little more so. The art of chattering never was more highly developed, and, unhappily, the chatters all chatter alike. They are monotonous in subject, monotonous in delivery. Their vocabularies are alternated, their periods mangled.
