A BOSTON despatch says:—Eugene Foss, the Jamaica Plain iron-master, who poses as the champion of Canadian reciprocity, has defeated Stephen O'Meara, a native of Charlottetown, for the republican nomination for congress in the eleventh Massachusetts district. Several officers of the Canadian Club signed a manifesto on reciprocity endorsing Foss. Foss is regarded with disfavor by many republicans who will again vote for his opponents.

On Monday evening Rev. H. G. Gratz gave an address on "Elisha", and on Tuesday evening, Rev. F. A. Wightman gave an address on "The causes of the captivity." Travel to and from P. E. Island has been unusually heavy the past week. The Island exhibition has evidently had good patronage from the mainland. Complaints were frequent yesterday from passengers who failed to catch the afternoon train on the Short Line, and would seem as though they had good reason therefor. "The Princess" should be regarded as a part of the government railway system, and when but slight detention of a train will give passengers urgently desired rail connection, someone on the spot should have the authority to order such detention. If we mistake not the running time of the afternoon train on the Short Line would have permitted such detention yesterday, without serious inconvenience to anyone, and would be passengers along the route might have been saved loss of time and money by having to remain here over night. These complaints which are frequently heard when unfavorable weather conditions prevent prompt arrival of the Island steamers especially in winter—should at once engage the attention of the railway authorities.—Picton Advocate Sept. 30.

Some Dealers Think They Have a Monopoly of Buying Furniture

Let them think so, it does nobody any harm, and it pleases them. But for fear the public might be led away by their extravagant utterances, we humbly rise to remark, that we have been and are still buying from almost every manufacturer in this broad Dominion—and further we are content to sell at a much smaller profit than most people ask. We would like the opportunity of showing you our furniture, and would like you to compare, and we think we can convince you that what we say is true.
