GRAND DIVISION S.O.T.

The 68th annual session of the Sons of Temperance of P. E. I., held at Springfield on Wednesday 25th, instant, was largely attended and the business transacted points to the continued prosperity of this grand old order. The reports of officers and the Committee on the State of the Order, shows a small increase both in membership and finances, notwithstanding the fact that many of the best members and workers are at the battle front fighting for King and Country. At the morning session Mr. Edward S. Hennigar of St. John, Most Worthy Associate of the National Division of North America, and Mr. L. P. Tanton, Most Worthy Conductor were received with the usual official ceremonies. Mr. Hennigar, in the name and on behalf of Most Worthy Patriarch Hohenthal addressed the Grand Division, referring with special emphasis to the great need of persistent effort in the juvenile work. The Committee on Obituaries reported, recommended letters of sympathy to the families of Brothers who have passed away during the quarter. Brothers Claude Dunning of Pearly Stream Division, Thomas Geddes of Harmony Division, and John Carew of Wheatley River. Feeling reference was made to those noble members who have made the last great sacrifice for home and King and Country, on the blood stained fields of battle. Although a slightly better condition with regard to Prohibition convictions was recognized, yet "too

much of drunkenness" and "still too lax enforcement of the act" was condemned. The following officers were elected for the current year and installed by the National Division Officers, Bro's Hennigar, M. W. A.; and Tanton, M. W. C. G. W. P., Ira E. McKay, Springfield. G. W. GRECIAN TANGLE STRAIGHTENED OUT

As Result of Boulogne Conference King Constantine Has Yielded to the Demands of the Allies.

ATHENS, Wednesday, October 25, via London, October 27—(delayed)—The understanding reached yesterday between King Constantine and representatives of the Entente Powers generally, is believed to be the immediate result of the conference of the military and political leaders of France and Great Britain at Boulogne on Friday last. The terms of the understanding include on the part of Greece:— First—Sincere compliance with the demands on Admiral Fournet. Second—Effective maintenance of order in Athens and Piraeus.

Third—Guarantee of constitutional liberties of Greeks through the operation of the legal functions of their Government. Fourth—No opposition to recruiting for the Venizelist movement, which is now characterized as "anti-Bulgarian" instead of "national defence." The Forward, the Royalist organ, strikes the keynote of the situation asserting: "The Boulogne conference has opened the way to a larger understanding between the Powers and Greece."

Inspected Too Many Lighthouses

DIGBY Oct. 28—A suspicious character was captured by the French at Four Douaumont during the fighting in the region of Verdun on Tuesday. It carried the following message: "The rolling fire of the enemy, with guns of the heaviest calibre, is such that sectors S. C. and H. are to a great extent levelled. The garrison, including that of sector V. is disorganized completely. Some of it has been obliged to fall back on the 53rd and 98th Regiments, which also had to retire. "Sector V. (Von Raim's) was subjected to such fire that its observation post was put out of order. All sorties are being abandoned, and one is occupied constantly in replacing them. "The battalion demands its immediate relief this evening by fresh troops. I can fight no longer. " (Signed) First Lieut. Steinbrecht."

Painless and Bloodless Surgery

PHILADELPHIA, October 27—Painless and bloodless surgery by means of a system of nerve blocking and pressure of the arteries was one of the many delicate operations which held the attention today of members of the Clinical Congress of Surgeons of North America in session here. Dr. P. G. Sillern, Jr., of this city, operating on a subject for the removal of a tumor in the head, demonstrated a method by which the patient, though conscious, was insensible to pain. The system consisted of blocking or strangling the nerve leading from the brain to the seat of affliction with an injection of a drug, regarded by surgeons as superior to, and safer than cocaine, to arrest pain impulses to the brain. The stoppage of blood loss was accomplished by pressure on the arteries with a metallic clip, some times with a rubber bante, and frequently by the fingers of an assistant.

MISSION SERVICE AT ST. DUNSTAN'S

St. Dunstan's Cathedral was filled to capacity last evening when Rev. Father Patrick Casey, S. J., delivered a forceful and stirring sermon in opening the second week's services in connection with the special mission, which is being conducted at present in Charlottetown. The services this week are for men, the mission being held in the main hall of the church. Before the service in the main hall, Rev. Fr. Cox, S. J., instructed the church, as well as for non-Catholics who cared to be present. The mission was afterwards opened at 7.30 by Rev. Fr. Welsch, S. J., who gave an interesting and instructive preliminary discourse concerning its general purposes and the obligation of Catholics in promoting the success of the mission, to the greater glory of God. Father Casey, in eloquent language, set before his hearers the high standard of life which they as Catholics men, were bound to aim at, and he pointed out their duty in unmistakable terms. He prefaced his sermon by an appeal to the congregation to do their utmost to make the mission count, not merely by their attendance but by their fervent prayer. In addition to prayer, he urged on them the necessity of practical endeavour. What they could not do God would accomplish if they only gave Him the chance. He said he was perfectly aware he was addressing a congregation of intelligent men, for the men whom he had met from Prince Edward Island were always intelligent,—in fact, their work was very much appreciated from a business point of view. Whenever any Islander, went to Boston or anywhere else, the moment he mentioned the fact that he was from Prince Edward Island he was engaged. That being the case, he took it for granted that his audience were all clever and intellectual, and that they could think. There were many men who could think but who allowed others to do their thinking for them,—just like a splendid fire-extinguishing equipment that was never used. He urged the men not to be of that class; not to allow their "thinking apparatus" to grow flabby by disuse, but to think for themselves, being very careful, however, always to think aright. Fr. Casey proceeded to give a graphic word picture of various types of humanity one encounters in daily life—from the poor labouring man who in grim despair ekes out a bare existence, to the great banker whose absorbing ambition is the acquisition of wealth, and the sensuous man who lives for pleasure and self-satisfaction. These types, said the preacher, were not imaginary, but a sad reality. In splendid contrast to these he described the good Catholic youth, who sees in the priest the great benefactor

man richer by far than Rockefeller or Carnegie, rich not with the perishable and ephemeral wealth of mammon but the glorious satisfaction of bringing souls to God. If the poor labourer who despairingly called himself a "yellow dog" and regarded himself as hopeless would hear the true health devoted to work him,—as indeed he would tell the other men:—"You are God's child. God is thinking of you and has a class for Catholics seeking further knowledge in the doctrines of the Church, as well as for non-Catholics who cared to be present. The mission was afterwards opened at 7.30 by Rev. Fr. Welsch, S. J., who gave an interesting and instructive preliminary discourse concerning its general purposes and the obligation of Catholics in promoting the success of the mission, to the greater glory of God. Japs Want Peace With Americans.

ST. LOUIS, October 28—There is no truce and need not ever be any trouble between Japan and the United States worth going to war over. Judge Elbert H. Gary, chairman of the board of directors of the United States Steel Corporation, declared today at the semi-annual meeting of the American Iron and Steel Institutes. Judge Gary has just returned from a tour over the Orient. He decided to provide an additional warship, some one in the other country has been prompt in charging that this meant preparation for war between the two nations," he said. "I told the Japanese that the American people did not want and would stubbornly oppose war with Japan, except in self-defence. The controlling men of Japan judging from the statements made to me, are also anxious for continued peace with the United States. They realize that the geographical location of the two countries should make them practically allies, though acting independent.
