DEAD COMMANDER BLAMED BY GERMAN

Former Zeppelin Pilot Says Shenandoah Disaster Was Easily Avoidable.

LAKEHURST, N. J., Oct. 2.—An opinion that the primary cause of the wrecking of the airship Shenandoah was a failure of the officers in charge to see danger signals that were shrieking out loud was expressed to the naval court of inquiry here today by Capt. Anton Heinen, former German Zeppelin pilot, who instructed the crew of the American dirigible.

Declaring that the disaster was "entirely and very easily avoidable Heinen under direct questioning by the court, placed the blame squarely on the shoulders of Commander Zachary Lansdowne, who went down to death with his ship.

Asked on what grounds he did this the witness said: "In my opinion the ship ran deliberately into the centre of the storm for at least half an hour after danger signals had been shrieking out loud. With the ship having sufficient power for steering she easily could have got out of danger. I stand ready to prove this from the evidence presented to this court."

"Are you prepared to say that had you been in charge of the Shenandoah you could have escaped the storm?" asked Rear Admiral Jones, president of the court.

"I am proud to say that I believe I could have," the witness responded.

FACTS, NOT THEORIES

By W. R. MORSON. It is a very small group of facts that takes the question of Protection vs. Free Trade out of the realm of theory, so far as Canada is concerned, and which absolutely dictates our course if we seek to enjoy prosperity. No. 1. Protection fosters high wages and plenty of jobs. No. 2. The U. S. has adopted very high protection. No. 3. Men must work to make a living. No. 4. Men prefer high wages to low wages. No. 5. There is a train service running between the U. S. and Canada.

These facts brought a conclusion into the minds of 300,000 Canadians last year, and decided them to transfer themselves and their potential wealth to the most highly protected country in the world. The blessing of a high standard of living is an irresistible magnet, and in order to enjoy the same blessing in Canada, it remains only to us to follow the economic example of our neighbors. Unfortunately this is our most enterprising men that we lose. Their education, the cost of which is borne by us, is made a present to Uncle Sam, while we burden our exchequer, and endanger our racial position by bringing in uneducated aliens.

OPPOSED TO ASSISTING MARITIMES

QUEBEC, Oct. 2.—Opposition to the plan propounded by Right Hon. Arthur Meighen during the latter's tour of the Maritime Provinces when the opposition leader announced that were he returned to power he would ensure an adjustment of freight rates that would enable the "feebler portions of Confederation" to market their goods in Canada's centres of population, and that this adjustment would be supported from the central provinces, was voted this evening at a public meeting in Quebec East, when Hon. Ernest Lapointe, Minister of Justice, opened his electoral campaign in his own constituency.

CONSERVATIVES WILL NOT HAVE LABOR LOOKS FOR EARLY ELECTION

(Special to the Guardian.) WINNIPEG, Man., Oct. 2.—With the election just a month distant, the contesting parties realize that there is no time to be lost. In nearly all of Manitoba's seventeen constituencies the lineup will most likely be complete before the lapse of many days owing to the fact that Manitobans during the present week will have heard important deliverances from all three, yes all four of the party leaders (for Mr. Woodsworth is being heard as well as the Premier, Mr. Meighen and Mr. Forke) this province may be regarded for the present as the storm centre of the Dominion.

(Canadian Press.) WINNIPEG, Oct. 2.—During his speech last night at a campaign rally for the four federal constituencies of Winnipeg, Right Hon. Arthur Meighen, Conservative leader replied to Premier King on the Hudson's Bay railway issue which had been injected forcibly into the campaign in the West by leaders of all three parties.

He repeated that Mr. King's promises in regard to the railway were an affront to the people of the West as he made their fulfillment contingent upon the return of Government supporters in the West.

"The government that built the line," he said, "will finish it. What we start we finish. I will take immediate steps to ascertain the cost of completion so as to give it a fair trial. As soon as the country is on its feet and can spend that money we will spend it and I will be greatly disappointed if I cannot come back to you at next election with this work done."

(Special to the Guardian.) WINNIPEG, Oct. 2.—Hon. Arthur Meighen last night addressed a mass meeting of the electors of the four Winnipeg constituencies. The leader of the opposition again denied that he favored an amalgamation of the government railways with the C. P. R. What he had said was that if the wild financing of the King government continued the alternative would be bankruptcy or amalgamation and he thought amalgamation preferable.

PREMIER PICTURE OF ALL TIME TO BE SEEN HERE SOON

"Ten Commandments" Costing Millions to Produce, and Most Successful in History of Motion Pictures. Mr. Spencer Mentions Some Details.

Mr. F. G. Spencer has been in Charlottetown several days on business in connection with his local theatres more particularly concerning the presentation of the "Ten Commandments" scheduled for four days, commencing October 12th. Mr. Spencer states that this has been generally accepted by both critics and public, as the most outstanding picture ever produced and that in his opinion its showing here will be the most important Prince Edward Event of the entire year. In referring to the very remarkable success achieved by the picture which cost more to create than any of its predecessors Mr. Spencer stated that its first New York run beginning over two years ago extended nearly eighteen months and at the same admission prices that applied for current New York Dramatic and Musical Successes. The producers, refused to sell the "Ten Commandments" for use in Motion Picture houses until the conclusion of the New York and other Metropolitan engagements of great length, such as Los Angeles, Dramatic Stock, two Mutual-Boston, San Francisco, Detroit and elsewhere which accounts for its just reaching this territory.
