

WEATHERMAN'S APOLOGY — Nobody is more mortified than the weatherman when his forecasts go awry, said E. G. Bilham, director of the central forecasting office here. He said that the science of weather forecasting is still in its infancy, although the bureau claims 90 per cent accuracy.

CHEAP FUEL

LINCOLN, England, (CP)—A gas turbine burning pulverized peat was successfully demonstrated here. The engine is said to run equally well on brown coal, or lignite, and engineers working on the project believe it would also operate on sawdust, cotton-seed husks and other combustible vegetable products.

VAN JOHNSON IN "INVITATION," CAPITOL, SUMMERSIDE

—One of the most emotionally gripping stories ever to reach the screen is unfolded in M-G-M's "Invitation," story of a wealthy girl doomed to invalidism, for whom her father attempts to "buy" one perfect year of happiness. It opens today at the Capitol Theatre.

Four top film personalities were garnered for the leads, with Van Johnson, Dorothy McGuire, Ruth Roman and Louis Calhern in the starring roles. Both Johnson and Miss McGuire make an abrupt switch from comedy portrayals to fill straight dramatic assignments in "Invitation." Johnson, last seen in "Too Young to Kiss," plays one of his most demanding roles as a young architect who has to convince his doubting wife that he is not a fortune-hunter. Miss McGuire, who won laugh kudos for her sparkling characterization in "Callaway Went Thataway," now has the absorbingly dramatic part of the invalid girl who believes that her husband has married her for her money.
