IT IS HIGHLY IMPORTANT.

That amidst the profusion of nostrums and patent medicines of the present day, the parents should be cautious as to the remedies they purchase and use when their children are afflicted with any disease.

A helpless child has been laid in grave when the disease which induced its death has been entirely unobserved, and when worms have, respectively, been the cause.

See, say not, in view of this danger, parents, make use of a remedy which many years of experience have proved safe and certain remedy.

B. A. FAHNESTOCK'S

VERMIFUGE.

According to the directions which accompany each bottle, will not fail to destroy the worm.

It was first put before the public, and the most successful preparations have been made into sale, which have had their trial and are now commended as so much so, whereas B. A. Fahnestock's Vermifuge is daily increasing in popularity, owing to its intrinsic worth.

It is to be used according to the directions, and if worms exist, they will be expelled from the system.

It is only twenty-five cents a bottle, which brings it within the means of all. Be sure to get B. A. Fahnestock's Vermifuge, and avoid all other articles which are said to be so good, as none are so good as the virtues of the genuine article.
