

2. The Guardian, Charlottetown, Wed. Jan. 17, 1962.

Island Is Swept By Strong Gales

As the result of high temperatures combined with high winds and rain, early Tuesday morning, streets in Charlottetown and many other sections of the province took on a summer-like appearance yesterday. However, driving conditions during the early morning hours were rather treacherous but no accidents were reported.

Winds in the Charlottetown area reached their peak at 5.30 o'clock this morning when gusts reached 55 m.p.h. At 6 a.m. winds were recorded at 35 m.p.h. gusting to 50 m.p.h. According to the meteorological station at the Charlottetown radio range winds remained at 35 m.p.h. gusting to 45 m.p.h. for the greater part of the day. They gradually diminished during the evening until at 11 o'clock they were recorded at 15 m.p.h. gusting to 20 m.p.h.

Temperatures remained at the 45 degree mark during the early morning hours but began dropping during the evening. At 11 o'clock temperatures of 20 degrees were recorded.

No reports of damage caused by the high wind were received in Charlottetown. However in Summerside the story was a little different.

Gale force winds caused two power interruptions in Summerside yesterday. The first occurred around 4.30 when a primary line near the Summerside electric light plant was broken by the high winds, resulting in a power failure in a part of the town for nearly two hours.

Around 8 a.m. two broken lines near Muttart's service station on Water street resulted in a power interruption for the west end of town for approximately one-half hour.

The neoprene, enclosing the new fire hall under construction was torn badly by the winds and took a battering all night. The neoprene was used to retain heat from two to four per cent higher.

The unemployment rate was higher than the national average of 6.4 per cent in the Atlantic provinces, Quebec and on the Pacific coast.

Temperature Rises To 42

The warm weather of yesterday was unusual but it did not establish a record, it was learned from the weather office at the Experimental Farm.

The thermometer stood at 42 degrees Monday night, but there was a reading of 51 degrees on Jan. 16, 1959, for example, and 48 degrees on Jan. 3 the same year. There was a reading of 39 degrees on January 14 last year.

There were 14.1 inches of snowfall in December this year, compared to 23.5 last year but recurring thaws have left the ground practically bare in contrast with the situation a year ago.

100 MPH

(Continued from page 1)

parently escaping the brunt of the storm which hopped around the district for about 12 hours.

Wind-recording instruments at Saint John, N.B., geared to record winds up to 100 miles an hour, hit their maximum reading and weathermen estimated gusts as high as 102 miles an hour.

The weather settled down later in the day and balmy temperatures went skidding toward more seasonal levels. Light snow is expected in the area today.

VALLEY HIT

Winds reached 85 miles an hour at the Saint John Airport, 66 at the Greenwood RCAF base in Nova Scotia's Annapolis Valley and 64 at the Shearwater Naval Air Base at nearby Dartmouth.

Trees and communication poles were toppled along Nova Scotia's Eastern Shore, cutting

Production Of Butter Shows Sharp Increase

Agriculture Minister Andrew B. MacRae expressed satisfaction yesterday that butter production had increased 10 per cent in 1961 to a total of 5,806,200 pounds.

"It's what we expected", said the minister, who had to express keen disappointment a year ago when butter production fell off sharply, due partly to lack of moisture and poor pastures, but partly, he said at the time, due to a letdown in animal husbandry and breeding practices.

QUICKLY SOLD

"It must be remembered that our high quality butter is quickly and easily sold on the Maritime market, and there is no problem of storage," he said.

"We are a little disappointed though," he added "that there has been a fairly sharp decline in cheese production, and we are hoping for an increase next year, particularly in high scoring cheese for which there is a ready demand."

Cheese production of \$75,748 pounds in 1961 compares with 1,077,555 pounds in 1960.

Total milk production was up last year. Figures for the complete year are not available, but the 189,748,000 pounds to the end of October last compared with 177,385,000 pounds for the same period in 1960. This is an increase of more than 12 million pounds for the 10-month period.

Britain Has 4 More Cases Of Smallpox

LONDON (CP) — Fear, indignation and anger swept much of Britain Tuesday as four new cases of suspected smallpox were reported in previously unaffected areas — Manchester, Birmingham and Cardiff, Wales.

Thousands continued to line up for vaccinations and again medical centres ran out of vaccine.

In Bradford, centre of the outbreak caused by infected Pakistanis who arrived here recently, more than 10,000 people already have been vaccinated — about one-third of the population.

But the clinics in the Yorkshire City were among those forced to close again Tuesday because of the shortage of vaccine supplies there. More was expected to arrive by today from London.

So far, five people have died in England of smallpox since Christmas and another death is believed to have been caused by the disease. There are three other confirmed cases and nine suspected cases.

FLURRY OF CRITICISM

Amidst the rush for vaccinations there was a flurry of criticism against government regulations covering checks on people entering the country, particularly from places such as Pakistan where the disease is known to be widespread.

18 RC Priests Reported Shot

LEOPOLDVILLE (AP) — The massacre of 18 Roman Catholic missionaries by Congolese soldiers who first forced them to submit to indignities was reported by church authorities Tuesday. Another priest was reported missing.

The killings were reported in an eastern area of The Congo where unruly soldiers in the past have been reported under the influence of leftist Vice-Premier Antoine Gizenga, whose rebellion against the central government now is crumbling.

As the reports circulated, Congo Premier Cyrille Adoula announced that Gizenga had been stripped of his post as deputy premier in the central government for leading the insurrection.

A virtual prisoner of government troops in his old stronghold of Stanleyville, Oriental province, Gizenga may be replaced by a friend of his arch foe, President Moïse Tshombe of secessionist Katanga province, Adoula said.

The report of the slaughter of the missionaries came indirectly from a missionary student who said he escaped. He reported Belgian and Dutch priests of the Congregation of the Holy Ghost Fathers were among the victims.

Arrests Made As Insurance Swindle Probed

TORONTO (CP)—Police arrested Mrs. Annie Vaughan, 32, of Toronto Tuesday as they continued their investigation into an insurance swindle—they said involves at least \$250,000 and perhaps as much as \$500,000.

Earlier, police said they arrested five men within the last 11 days, after the American Insurance Company called them in when an audit showed discrepancies in claims settlements.

Arrests Made As Insurance Swindle Probed

So far, five people have died in England of smallpox since Christmas and another death is believed to have been caused by the disease. There are three other confirmed cases and nine suspected cases.

U2 PILOT HANGS OVER SWAMP

Here's the desolate swamp into which U.S. Air Force Capt. Charles P. Stratton and his high-flying U2 plane crashed during the night of Jan. 20. Stratton hung in a tree over the snake-infested swamp for 10 hours. At the extreme upper left the arrow points to the remnants of Stratton's parachute and the tree from which he hung. The picture was taken from a rescue helicopter. (AP Wirephoto).

ALBERTON — The funeral for James Rooney was held Tuesday morning from the home of his parents, Mr. and Mrs. Gerald Rooney, Alberton, to the Sacred Heart Church.

Solemn Requiem High Mass was celebrated by Rev. Phelan McKenna with Rev. J. N. Gallant as deacon and Rev. Thomas McKenna as sub-deacon. Rev. Arthur Pendergast was master of ceremonies.

Seated in the sanctuary were Rev. M. J. Rooney, Rev. Patrick Walsh, Rev. Clarence Flies, Rev. Emmanuel Richard, Rev. Claude Shea, Rev. David McTague and Rev. Floyd McLaughlin.

The mass was sung by Tiplin children's choir with Miss Jean Perry as organist.

Honorary pallbearers were Robert Bradley, Sinclair Cullette, Vernon McIntyre, William Brown and James Allen, members of the P.E.I. Funk

'Youth' Is Theme Of Address To Alberton UC Men's Ass'n

ALBERTON — An inspiring and challenging address on "Youth" was given by Brown Jardine of Elmdale at the monthly meeting of Alberton United Church Men's Association Monday evening.

He drew an interesting contrast between Lord Baden-Powell, founder of the Boy Scout movement, and Adolf Hitler. Whereas Baden-Powell saw great potential for good in youth and worked to make that potential become a reality, Hitler took youth and used them to carry out his evil designs.

Youth are hungry for the right kind of training; they are confused and perplexed in our rapidly changing world order, he said, and it must be the concern of adult Christians to give them the kind of leadership they require.

"Never before in the history of man has youth been faced with so much temptation, he continued, and it is our responsibility and our privilege to give them guidance and to help them develop along the proper avenues of life.

"It is important to lead youth in their formative years," he concluded, "our future church is in the hands of our youth."

The meeting was held in the church hall with scripture reading by the president, J. R. Boyman, and prayer by G. R. Leard.

During the business period the following committees were appointed: Prayer and entertainment, Henry Wallace, Arthur Hudson and Gordon Warren; sick and visitation, G. R. Leard and Norman Hardy; membership, Horace Gamble and Kenneth Quigley; press, Rev. James H. MacIntosh; lunch, Perley Hardy; and reception, Elmer Wallace.

U.S. AND RAS AUTHORITY

(Continued from page 1)

Approval by the U.S. Congress is unnecessary, Kennedy has the authority under existing law to make the cuts covered in the agreement.

Negotiations between the two huge trading powers started Sept. 4, 1960.

A Common Market delegate to GATT, T. C. Hizen, said the talks were prolonged because the Common Market offered a general 20-per-cent mutual cut in industrial tariffs while the U.S. insisted on negotiating item by item.

Informed sources reported the French were reluctant to grant tariff reductions on certain American chemicals and that this was about the only restriction in the agreement.

Asked when the 20-per-cent cut would be applied, Hizen said "they are already being applied since the decision was reached on May 12, 1961. These negotiations aimed only at strengthening the initial agreement. We cannot go back on our word to the United States."

He said similar talks are being held with Britain, Switzerland, Sweden, Finland, and Austria and they will later include Canada, Portugal and New Zealand.

Week Of Prayer Ends At O'Leary

O'LEARY — Week of prayer services concluded Sunday evening with service in the Baptist Church with some 500 in attendance.

The service was conducted by Rev. Ross Howard with Rev. Dewis Rector leading the hymn singing. A. R. Leyvis led the congregation in prayer.

Special music was rendered by Mrs. James Harris, Mrs. Lawrence Harris, Mrs. Wilbert Dennis and Mrs. Blair Bernard. Mrs. Elizabeth Ellis was organist.

Rev. David Hamilton read the scripture lesson and also delivered the message taking for his theme Christian conviction and God's love.

Young Adult Group Elects

KENSINGTON — The Kensington United Church Young Adult Group held its regular meeting at the home of Verdun Paynter on Thursday evening, when a new executive was appointed, and the following members were elected to office, honorary president, Rev. L. M. Murray; president, Nelson Caseley; vice-president, Verdun Paynter; secretary-treasurer, Mrs. Harry Caseley.

There was an attendance of 24, and the retiring president, Harold MacDonald, presided.

Mr. Murray gave an interesting and instructive report on a workshop for young adults and Christian family life, held at the Atlantic Christian Training Centre, Tatamagouche, N.S. Rev. Frank Fidler, secretary of Christian family life, board of Christian education of the United Church of Canada, Toronto, was in charge.

Refreshments were served at the close of the meeting.

Fleming reserved detailed comment until he studies the agreement in detail, but he said Canada may benefit indirectly.

Canada was not directly involved in the U.S. - Common Market negotiations, but has been bargaining for other tariff concessions with the six nation community since last September.

Mr. Fleming said that if a new tariff agreement concerned commodities of which Canada is not a principal or major supplier the lower tariffs the U.S. has secured would be applicable to Canada under the General Agreement on Tariffs and Trade covering most favored nations.

Perfectly delicious ending

Perfection Evaporated Milk makes good cooking sense every step of the recipe. Easy to keep right at hand, unrefrigerated until opened. Even then, its golden-lined tin keeps it better, longer! Simply add equal parts of water to use as regular milk and you just naturally add extra flavor. Finally—Whip it!... undiluted for fancy topping. Stands, looks, and tastes like cream—but, costs so much less! Try it and see what delicious sense it makes!...

starting with Perfection

Perfection PEACH-RICE PUDDING

3 eggs
1/4 cup sugar
1/4 tsp salt
1 1/2 cups PERFECTION EVAPORATED MILK
2 1/2 cups canned sliced peaches

1/2 tsp nutmeg
1/4 tsp cinchamon
few drops almond flavoring
1 1/2 cups cooked rice

Beat eggs. Add sugar, salt and heat well. Add PERFECTION EVAPORATED MILK and syrup drained from peaches. Cook in double boiler until mixture coats a spoon, stirring frequently. Remove from heat and add spices and flavoring. Combine with peaches and rice. Chill. Serves 12.

Peanut, pineapple or apricots may be used instead of peaches.

Perfection TOPPING

Chill Perfection Evaporated Milk thoroughly. Whip with rotary beater till slightly thickened, add sugar, your favorite flavoring, and whip to smooth creaminess.
