
EQUIPMENT DONATED AT MONTAGUE

Kings County Memorial Hospital has once again been favored with a presentation and this time in the form of the above bed and stretcher. This donation was made jointly by Hillside Lodge IOOF and the Acme Rebekas of Montague. The combined amount of the donation is in excess of $300. The matron, Mrs. Vera MacDonald, shown above with the new bed said the hospital is very pleased with this donation and pointed out that perhaps many people do not realize that such equipment does have to be replaced from time to time and any such gifts are very welcome and appreciated by the hospital management.

Japanese School Children Seek Pen Pals In Province

Lucy Maude Montgomery's "Anne of Green Gables" continues to make friends for P.E.I. all over the globe.

Four Japanese children recently sent a letter to Mayor A. Walthen Gaudet seeking correspondence with children of their own age on P.E.I.

Ranging in age from 12 to 14, the writers addressed the letter to "Mr. Charlottetown's Mayor" and proceeded as follows:

"Dear sir, Thenceforth we read "Anne of red hair," we like Princeedward I. very much. And we want to have pen pal to Princeedward I. Therein we sent a letter to you. Please look for four pen pals."

After listing their names and addresses, they continue: "Was you surprised by this letter?", adding an apologetic, "we know that you are busy."

"But we wait from Princeedward I. We are very happy to know you. Goodby. From Japanese children," it concludes.

Names and addresses of the four are as follows:

Yosbie Yoshinaka, 14 years old; No. 38, 1 tokaichicho; Hiroshima city; Hiroshima; Japan.

Nagako Miura, 12 years old; Aosakinaka, Fuchumachi; Akiun Hiroshima; Japan.

Michiko Miura, 14 years old; Aosakinako Fuchumachi; Akigun Hiroshima; Japan.

Yuzi Kawasaki, 12 years old; No. 601 Aoshakihigashi Fuchumacin; Akigun Hiroshima; Japan.

Curling Rink Progressing

SOURIS — Workers completed the sills of the new curling rink yesterday and the next step will be the framing which will be done in Elmira and brought to Souris prefabricated.

George Cheverie of Elmira, the contractor, will do much of the framing in his workshop and then the nearly finished pieces will be placed directly on the sills of the new building.

The ice-making equipment is expected to arrive Feb. 20 from Halifax where it was supplied by Canadian Ice Machine Limited which will also do the installation.

The completion date for the structure remains at March 1.

LONGEST CITY

Geographers regard the 500-mile continuously urban, industrialized seaboard strip from southern New Hampshire to Virginia as a single city—the longest in the world.

SKATING ON SEA ICE AT SOURIS

SOURIS — Skating on the sea ice has been a rare sight here, but following the last rain the ice became so smooth that local youngsters have found the skating very enjoyable.

This is only about the second time in 15 years that there has been skating on the sea ice.

Chesterfield Blaze Fought

Smoke and water damage was sustained at the Van Omme home in St. Andrews last evening.

The Mt. Stewart fire department answered the call and found the fire in the chesterfield. The blaze was extinguished before it spread to the rest of the house.

Post Office Site Selected In Cardigan

CARDIGAN — The site for the Cardigan post office to be erected in the near future has been selected. This site is on the south side of the bridge just below the CNR station, on property formerly owned by Mrs. Gertrude MacInnis of Cardigan.

A meeting was held Monday evening to determine the location. This meeting caused considerable discussion because of delay on the part of the local committee who apparently did not keep the village commissioners informed of the sites surveyed.

As a consequence of this an immediate decision was forced on the village commissioners, not giving them time to discuss it with the ratepayers, thus the calling of Monday's meeting which now leaves the way clear to proceed.

The new federal building will be approximately 24 by 24 feet with additional space for various federal government offices.

CNR Completes Traffic Study

Douglas Lacombe, public relations officer for the CNR yesterday announced that a traffic study at the Charlottetown station has been completed.

The study, the results of which will be released shortly, involved a check of the traffic pattern before Christmas, during the Christmas rush and for a period following the holiday.

Mr. Lacombe said the results of the study are being analyzed to determine what changes, if any, will be needed.

Election Battles Loom In Wards One And Six

Two brand new, unblemished hats were yesterday tossed into the civic election ring, one in Ward One and the other in Ward Six.

Following several days of speculation, Arthur MacInnis, announced his intention of contesting the Ward One seat and at the same time Dr. Douglas MacDonald revealed that he intends to do battle in Ward Six.

Mr. McInnis, a 35-year-old insurance agent, will seek the Ward One seat, held for 14 years by the council's dean Arthur Gormley, while Dr. MacDonald will bid for one of the two seats in Ward Six.

Mr. McInnis' entry will make it a three-way fight in Ward One where Edward Doyle will also run as well as Mr. Gormley.

Mr. MacInnis, unmarried, has been active in community affairs since his graduation from St. Dunstan's University in 1950. He received his earlier education at Queen Square School and until 1949 was a resident of the Ward One area.

At present he is president of the Basilica Laymen's Association; secretary of the board of directors of the Basilica Recreation Centre; and secretary treasurer of the Insurance Agents Association.

ACTIVE IN POLITICS

Active in politics, he is president of the Young Progressive Conservatives of P. E. I.; treasurer of the Progressive Conservative Association of P.E.I. and has held many executive positions in district and county organizations.

Mr. McInnis said his entry into civic politics has been prompted by several factors. He feels Ward One will be greatly affected by the city's housing renewal program. He feels he understands the problems of the people who live in the ward and expressed concern over the fact that there has been no contest for the councillor's seat in Ward One since 1958. He said this was "an unhealthy situation."

Long-standing rumors of an election battle in Ward 6 were confirmed yesterday when Dr. Douglas MacDonald, Nassau Street, announced he would run for councillor in that ward.

The ward, the former Spring Park school district, has been represented in City Council by Elmer MacRae and Edmond Arsenault ever since amalgamation with the city.

Dr. MacDonald, 35, a native of this city, is a son of Lieutenant - Governor W.J. MacDonald and Mrs. MacDonald. He received his education at Model School, Queen Square School, Prince of Wales College and Dalhousie University, from which he graduated in medicine when he was only 22.

In addition to his MD, CM, he holds two specialist degrees, the American Fellowship, and Canadian Certification in Anaesthesia. Following graduation from Dalhousie, he spent four years in post-graduate training, one year teaching at the University of Michigan and practiced for a time at Goose Bay, Labrador. He has been in practice here since 1958.

In 1960, he was named by Ottawa to a six-man team touring NATO countries. Politically, he has been provincial president of the Young Liberals Association and is vice- president of the Queens County Liberal Association. In the last federal election, he was Island chairman for the Pearson campaign. He was Liberal candidate in the last provincial election, running in 3rd Kings.

T. D. DeBlois Is President Of St. Paul's Laymen's Ass'n

T. D. DeBLOIS

Hon. L.G. Dewar, MD, minister of education, was guest speaker at the annual supper meeting and election of officers of the Anglican Laymen's Association of St. Paul's Church in the parish hall last night.

Dr. Dewar described his trip of 24,000 miles around the world in representing the province at the conference of the Commonwealth Parliamentary Association held in Malysia last summer.

The address was mainly a commentary on more than 100 colored slides taken by the speaker on his trip. The pictures showed vividly the different types of citizens of the places visited, their occupations, housing, living conditions and religious affiliations.

The speaker was introduced by R.G. Bovne and thanked by the president, T.D. DeBlois

The meeting opened with grace by the Ven. Archdeacon J.T. Ibbott and closed with benediction by the rector, Rev. F. Louis Elias.

The supper was tastefully prepared and nicely served by the ladies of the Belvedere Branch of the Parish Guild under their president Mrs. Ronald Keen who was thanked on behalf of the association by James M. Murley.

T.D. DeBlois was elected president and others completing the executive are Ven. Archdeacon J.T. Ibbott, honorary president; Robert W. Parke, vice-president; James M. Murley, secretary; Edward Miller, treasurer; Rev. F. Louis Elias, chaplain and A.J. Haslam, QC, E.L. Tedford and Fred M. Nash, directors

Engine, Cars Recovered

CNR superintendent Edgar Taylor said yesterday, the work of rerailing a diesel engine and three 'reefer' cars one mile east of Baltic was completed Saturday.

The four pieces of equipment were derailed on the Elmira line on Dec. 12 by a broken rail. The lead engine remained on the tracks, and the caboose which was pulled off by the 'reefers' was rerailed shortly after the incident.

A road bed and tracks from the west on a gradual embankment for 600 feet down to the derailed cars was constructed when it was realized that the usual wrecking crane method would be impossible due to swampy ground and a high embankment.

The recently recovered cars will be sent into shops for repairs, Mr. Taylor reported. One of the CNR cars, however, is so badly smashed that it will be taken away and scrapped.

EASTERN BRIEFS

IN P.E.I. HOSPITAL

Richard Campbell, Commercial Cross is a patient in the Prince Edward Island Hospital where he is undergoing treatment.

LOCAL BRIEFS

PORCH FIRE

Called to 15 Young Street, at about 11.10 yesterday morning, city firemen quickly extinguished a fire in the rear porch area, leaving only minor damage.

WALTERS FUNERAL

— The funeral for Mrs. George Walters was held privately on Monday, Jan. 27 from the MacLean Funeral Home where service was conducted by Rev. John Ball and Rev. Malcolm Harlow. During the service a solo 'Unto the Hills' was sung by Frank Wood. Pallbearers were: Brig. W.W. Reid, Robert Large, Charles Earl Taylor and B.B. Jones. Interment was in Argyle cemetery.

City Council Annual Meet Set For Feb. 4

City Comptroller John Butler announced yesterday the annual meeting of the City Council will be held Tuesday, Feb. 4.

Traditionally, the annual meeting is solely for the hearing of reports of the past year's work by all committee chairmen and the various departments. Any regular city business is transacted at the February monthly meeting.

Because there are a few items unfinished it is possible Council may hold a special session later this week to 'clear the decks' for the annual gathering.

It is likely the greatest amount of public interest will centre around presentation of the report of the finance committee as it details the financial position of the city in relation to surpluses or deficits and their bearing on future tax rates and future expenditures.

Winter Works Jobs Okayed

According to the department of welfare and labor, 56 applications, involving some $730,000 have been received and approved for projects under the winter works program in the province.

The estimated direct payroll cost of the program is $298,000. Of this amount, the federal government pays $179,000 with the balance shared by the province and the participating communities.

The number of men to be hired during the program is 1,015 and the projects are expected to provide 23,995 mandays of work.
