IN MEMORIAM

RAPSON — In loving memory of a dear wife and mother, Mrs. Harry Rapson, who departed this life October 26th, 1960.

The depths of sorrow we cannot tell
Of the loss of one we loved so well
While she sleeps a peaceful sleep
Her memory we shall always keep.

Lovingly remembered by husband and family.

MARSHALL — In loving memory of our dear little son who passed away at the early age of six years, Oct. 28th., 1946.

A face that is ever before us
A voice we can never forget
A smile we'll remember forever
In our hearts he is still with us yet.
Beautiful memories of his smiling face
A broken link we can never replace
God took our son, it was His will
But why so young we wonder still.
Sometime, somewhere He'll tell us why
He broke our hearts to let him die.

Sadly missed and ever remembered by his mother and father Edith and Horace Marshall.

CLOW — In loving memory of Mr. and Mrs. Benjamin Clow, Murray Harbor North. Father died October 28, 1951. Mother died December 9, 1948.

One by one they go before us,
They are fading like the dew,
But we know they're watching o'er us,
They the good, the fair, the true.
They are waiting for us only,
Where no pain can ever mar,
Dear ones who left us lonely
Watch us through the gates ajar;
There a father, there a mother,
Gone within those gates ajar.

Ever remembered by the family.

Village Plans Vote On Move To New Site

MOISIE, Que. (CP) — The people of this tiny community at the mouth of the St. Lawrence River vote Friday on whether they should abandon their village to the growing encroachments of the river.

The 100-year-old village, 345 miles northeast of Quebec City, is located on the edge of a point jutting into the water where the river widens into the Gulf of St. Lawrence.

Federal and provincial engineers have discovered the water has been steadily widening at the expense of the village and its 627 inhabitants.

Authoritis have suggested abandoning the present site as one solution to the crisis.

Mayor Lorenzo Fournier says most of the residents seem to favor a collective move to some other living site.

One other solution, the construction of a breakwater, would cost $1,000,000 and would face a stiff test against the waves 25 or 30 feet high that break on the shore near Moisie.

The majority of the villagers work at a radar station forming part of the mid-Canada line. The station is located north of the community at a point 25 feet above sea level.

Separatism Said 'Valid Issue'

MONTREAL (CP) — Eric Kierans, Quebec's revenue minister, said Monday separatism is a valid issue for Quebecers to discuss and consider but a true political philosophy must have something to offer beyond "placard - waving and demonstration."

"Any political aim is valid, whether it is the union of Canada with the United States or the creation of Quebec as a separate state," he said in an address to the commerce faculty of Sir George Williams University.

"What is not valid is when the prospects of separatism fail to outline what each action would mean to each and every one of us, and fail to present an economic alternative.

"You cannot go on promoting a political philosophy by placard - waving and demonstration. Unless an alternative program is presented, the separatist movement is likely to die out either through the outright hostility of the people or worse, through outright boredom."

Modernization Of Constitution Seen Necessary

SEIGNIORITY CLUB, Que. (CP) — Maurice Allard, executive assistant to Leon Balcer, Quebec Progressive Conservative party leader, said Monday night the Canadian constitution must be modernized or renewed as a solution to Canada remaining an entity.

Mr. Allard, a former Member of Parliament, was speaking at the annual convention of the Quebec Corporation of Real Estate Brokers.

He said the federal and provincial governments must be made equal and autonomous. A constitutional tribunal should be established to settle problems.

"As a result of recent legislation we now are tied down to the Supreme Court exclusively and this court is appointed solely by the federal government," he said.

"We must remake, rebase or modernize or establish a new constitution. We can keep some of the past good things but we must face 1964 problems and the present Canadian dynanism."

Quebec Studies Doctor Shortage

MONTREAL (CP)—The Quebec College of Physicians and Surgeons has reported plans to propose adoption of as-yet-unspecified measures by the provincial government to prevent "a serious shortage of doctors."

To establish the exact nature of these measures, the college is preparing a detailed study of the supply and geographic distribution of doctors in the province.

This study is a follow-up of a brief advocating a medical care program for Quebec which was presented to the government recently.

The study also will include an inquiry into the problems of applicants for medical studies.

The new investigation was announced at a press conference held by the executive committee of the college.

"There is an evident shortage of doctors," Dr. Goldbloom, vice - president of the college said. "It is harder today for the average family to find a doctor, and this is basically what has prompted our study."

7 Americans With Papers Ordered Out

TORONTO (CP)—The Toronto Typographical Union said in a statement Tuesday that it welcomes an announcement by Immigration Minister Tremblay that seven Americans now working for the three Toronto daily newspapers must leave Canada or be deported.

The minister said in the Commons Monday that his department is asking the seven men to leave Canada immediately.

Local 91 of the International Typographical Union (CLC) went on strike at the Star, Telegram and Globe and Mail July 9 after a contract dispute regarding working conditions. The newspapers have continued to publish.

Mr. Tremblay, replying to a question asked last week by New Democratic Party leader Douglas, said the seven men will be deported to the United States if they refused to leave Canada voluntarily. He did not identify the men.

Mr. Tremblay said Monday that his department decided against granting the men landed immigrant status in light of the continuing printer's strike against the three newspapers.

CASTRO BUSES HUNG UP

Some of the 23 British buses bound for Castro's Cuba from London still are lashed to the deck of East German freighter Magdeburg as its rests on its side off Tilbury, Essex, England, Tuesday. The Magdeburg and a Japanese freighter collided in heavy fog earlier in the day in the Thames estuary. After being beached, the Magdeburg turned on its side and dumped half its bus cargo into the water. The Japanese vessel, a hole in its bow, docked safely. (AP Wirephoto via cable from London).
