Suitable Eyewear Improves Appearance

You will occasionally hear a person complain that she objects to wearing a correction of her errors of vision because of the effect on her "looks." That argument no longer applies. The modern eye service considers appearance, which can now by correctly chosen eyewear be enhanced.

Morning Stock Letter

(Received over Pitfield and Co's Private Wire)

NEW YORK, May 4—The French elections are the most important news today. As expected there was a Leftist victory. However, Phillip French, correspondent of N. Y. Times says that although the elections may seem "pink" and is going to be proclaimed "red" it should not perhaps be interpreted as more than a protestation. Nevertheless, foreign exchanges very nervous this morning and $15,000,000 in gold was engaged in Paris to be shipped on the steamship Normandie. The Supreme Court meets at 1 p. m. today and General Motors at 4 p. m. Other dividends meetings today Coco Cola, Collings and Aikman, Int. Nickel and S. O. of Indiana. The London market was irregular today. We would look on the first thing this morning but if volume does not increase on the downside, there may be a small turn in the market leaders on the basis of General Motors directors taking favorable action on the dividend this afternoon. Would also give consideration to Commercial Inv. Trust.

TORONTO, May 4—McLeod Cockshutt—Was one of the features on the unlisted market last week, and is said to have encountered mineralized ore in the last two holes numbers 7 and 8 drilled, one of which showed a width of 20 feet and the other a width of 30 feet. One hole was drilled to a depth of 350 feet. No assay results are available from the holes as yet. Reports from the field state that drilling under way in Holes No. 9 and 10.

Paymaster—Production April 74,-480 against $69,374 March. Homestead Oil and Gas reported to have struck oil No. 1 well at depth of 3,150 feet. Magnus well in which Homestead has large interest expected to strike oil at any time.

International Nickel declared a dividend of 30 cents today.

MINING

(Canadian Press)

TORONTO, May 4—The afternoon tendency of prices on the Toronto mining market was towards strength, following an uncertain morning performance and there was also a sharp expansion of volume in the last hour. The net gain in the golds however was small and the miscellaneous mines index had a minor set-back, leaving the average over the board about where it closed on Saturday. Several of the cheaper gold issues provided the day's high lights. Hard Rock stood out with a gain of 37 to 1.55 on a turnover of 100,-000 shares.

Several other cheap golds stepped along briskly. O'Brien gained 23 cents to 83 on a trade of 81,-000 shares and Red Lake in active trading was up 8 cents. Gains of 5 to 10 cents were chalked up for Premier McWatters, Little Long Lac, Airways and Central Patricia. Gunnar gold was run up to a new high at 1.13, an advance of 13 cents for the day.

On the down side were Bralorne off 25 cents, and Mining Corporation, Chibougamau, McKenzie, Quebec Mining and Reno. Dome dropped 5-8 and Lake Shore and Hollinger posted fractional gains. Buffalo-Ankerite was another strong spot.

The Canadian dollar reduced its discount from 3-16 to 1-16 of one per cent. The pound sterling was up 1 7-8 cents at $4. 98 7-8. The French franc was well supported following the elections, and closed unchanged at 6.58 3-8 cents.

Mrs. P. Leche of Calgary says:

"I've never felt so safe and contented. A new set of Goodyears give me absolute *control* of my car."

Mr. J. P. Gilmour of Montreal says:

"I don't worry about blow-outs. I ride on Goodyears, and have fun."

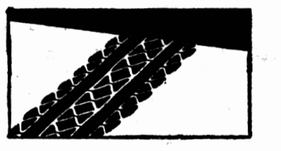
Any worry you may have had about blow-outs or skidding will be forgotten like childhood troubles when you ride on new, safe Goodyears. You can actually *feel* at brake and throttle the extra road grip, the extra responsiveness, power and *control* these safest of all tires give your car. Then you take it for granted —as experienced Goodyear users do.

You have a safe car on safe tires— leave your cares behind. Use your car to the full for enjoyment and profit. Call upon friends, picnic in favourite haunts, discover a marvellous new world as you escape in your car from the work-a-day world, beyond the horizon to happy landscapes and fine adventure.

New, safe Goodyear Tires complement the safety features that carmakers build into new models. If your present car happened to be equipped with tires other than Goodyears, and you now need new tires, get new, safe Goodyears now and leave your cares behind.

You'll naturally want the tires that make your car safest and most up-to-date — Goodyears.

PROOF



PROOF of Long Mileage—BEFORE YOU BUY! Your Goodyear dealer will show you "footprints" of actual tires on cars owned near you, which still retain safe traction after very long mileage. These will substantiate for you the two extra Goodyear qualities which the dealer will demonstrate to you—1. That Supertwist Cords retain their "life" much longer than ordinary cords — and — 2. That the All-Weather diamond tread stoutly resists skidding even on smooth wet surfaces.

Dull Session On New York Stock Market

By Frank MacMillen,
Associated Press Financial Writer
(By Guardian's Special Wire)

NEW YORK, May 4. — Traders got behind selected stocks in today's market, after an early relapse, and the price indicator was pointing moderately higher at the close of dealings.

Both buyers and sellers exhibited considerable timidity during the greater part of the session. They had to worry about the foreign situation, including the decisive swing to the left in the French run-off elections Sunday, and a possibility of a Guffey Coal Act ruling by the Supreme Court.

The Canadian list was generally firm with gains ranging up to ⅞ shown by Ford of Canada on the curb. Imperial Oil gained ½ and Power Corp. ¾ while smaller advances were shown in Lake Shore, Shawinigan, Quebec Power, Distillers Seagram and International Nickel. Mines were soft with McIntyre Porcupine losing 1¼ and shares. Lake of the Woods worked more than a point higher.

Dominion Textile, down more than four points, led the backward issues. Off fractionally were Steel of Canada, National Breweries, Canada Cement, Dominion Bridge, Montreal Power, Brazilian, Shawinigan, Foundation, B.C. Power and Canadian Industrial Alcohol. Dome 1¼. Canadian Pacific was unchanged and Brazilian slightly easier.

It was the dullest session since March 30, last, transfers totalling 1,069,900 shares. The Associated Press average of 60 stocks managed to edge up .2 of a point at 58.5.

After the close General Motors came through with a 75-cent extra dividend in addition to the regular quarterly payment of 50 cents. In the December quarter a 50-cent extra was voted. The stock ended with a net advance of ⅝ of a point at 62½.

International Nickel directors lifted the dividend rate from 25 cents a share, paid in the last two quarters, to 30 cents. The stock, down around 2 points at one time, came back to finish with a net gain of ⅛ of a point at 45¼.

Helpful to the communications stocks was the report of the New York Telephone Co. disclosing a net gain in telephones in April of 10,817 against an increase of 4,386 in the same month last year.

Shares of American Telephone, down to within ¼ of a point of the year's low, finished 1⅜ points higher at 152⅞. Others, up fractions to about 3 points, included U. S. Rubber at 30, Goodrich at 20, Goodyear at 25¾, Firestone at 28½, J. I. Case at 151, International Harvester at 82¾, Deere at 79, Santa Fe at 71, Chrysler at 95⅜, and Westinghouse at 106¼.

U. S. Steel, one of the three most active issues of the session, declined ⅞ of a point at 65⅜. Anaconda yielded ¾ at 32⅜. Allied Chemical dropped 4 to 179½.

Caution Is Exercised On Montreal Mart

(C. P. By Guardian's Special Wire)

MONTREAL, May 4.—Mindful of recent weak sessions, traders were cautiously selective in their buying on Montreal Stock Exchange today and only a group of individual issues came to the front.

A few metals and papers, along with other selected stocks, scored good gains bu the going was slippery for liquors, utilities, constructions and a few textiles.

Brisk demand for new shares of Smelters, listed Saturday, boosted the price 4¾ points to 56¼ on turnover of more than 3,500 shares. Hollinger and Noranda, however, eased.

Nickel, at one time down to 43½, staged a smart recovery after a dividend declaration and finished up ¾ point to 45½. The disbursement was for 30 cents, payable June 30 to stock of record June 2.

Demand for Bathurst Paper developed late in the session and a gain of nearly two points was posted at 13¾ after a brief idle spell. St. Lawrence Paper preferred got up a point.

Outstanding gain of 15 points was shown by Canadian Iron Founderies at 50 on a single transfer of 27

SAILORS AT SEA

Sailors at sea are guided to safe harbors by certain fixed constellations and not by sensational shooting stars. If you are at sea about the right pipe tobacco for you, try H. & N.'s BRIGHT CUT. This mild Ontario leaf has guided countless pipe smokers to soothing, aromatic pipefuls of sheer smoking enjoyment. Try a paper of BRIGHT CUT today—it's the smoothest smoke for a dime.
