ATE SEED CORN.—A sad death occurred at Lower Granville a few days ago. A boy 13 years old, the son of Joseph Crowskup, ate a few grains of seed corn, and after a week of intense suffering, during which everything that could be thought of was done for him, he passed away.—Halifax Herald.

RELICS UNEARTHED.—Donald R. McKinnon, of Grand Mira while ploughing a few days ago unearthed a sword, dagger, pick and shovel and a very large lock. These relics were evidently left there by the French at the time of their occupation of this island.—Sydney Advocate.

CATERPILLARS PLENTIFUL.—There are thousands of caterpillars along the route of the Kensington and Pembroke Railway, Ontario. They have destroyed all the shrubs and grass for miles. One day last week while the train was coming south it had to stop on account of the caterpillars, a short distance from Ashdad. The rails were covered for a mile with caterpillars two or three inches deep. The wheels slid along the track and sand was placed on the rails, but this did not enable the train to move fast. Last year the caterpillars were numerous along this line.

Song and Talk.

"What is a song recital, Uncle Christopher?"

"A song recital? Well, somebody sings all afternoon, and an audience of women talk through the whole performance."—Detroit Free Press.

The "Prisoner of Chillon" did not suffer in the cause of liberty. He was a troublesome rogue sent to prison for mischief making and spent his time there in making indecent suggestions.

OBITUARY.

We regret to chronicle the death of Peter McIsaac, Esq., postmaster, Charlottetown, which took place on Thursday, the 12th of May ult., after a few months' illness, which he bore with resignation to the Divine Will, and in the 71st year of his age. A good man has passed away! kindly of heart, amiable in character, courteous to all and at all times to know him was to hold him. In regard to his last moments he was consoled by the rites of the Catholic Church of which he was a consistent member.

On Saturday morning, the 14th ult., his remains followed by a large concourse of sorrowing relations and friends, were conveyed to the church of St. Columba, where a solemn High Mass of Requiem was celebrated by the pastor, R. v. A. J. McIntyre, thence to the cemetery adjoining the church and gently laid away to await the final summons. Deceased leaves one brother and three sisters and a large number of relatives to mourn their loss.

The doctor may be a good old man, but even so, medical examinations and the "local-application" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Pierce's Favorite Prescription, a remedy for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It cures every form of "female weakness."

Postage Stamps.

Stamps were put on the market in August, 1847, but were so little used that the government had to pass a law enforcing prepayment of postage, which went into effect in 1855. Before this action was taken scarcely one letter in a dozen was found with a stamp affixed. Today the postoffices of the country sell 4,000,000,000 stamps (counting postal cards, stamped envelopes and stamps of all kinds), valued at \$75,000,000, during a single year.

Many English accident insurance companies charge an extra premium when their policy holders travel in Canada or the United States.

The diamond mining companies of South Africa estimate their losses by theft at £1,000,000 a year, of which they recover about one-half.
