JUY NOW AND SAVE

Scout News and Notices

Their Majesties, the King and Queen, have graciously consented to be present at a parade of King's Scouts from all parts of Great Britain, at Windsor Castle, on April 23rd. His Majesty will take the salute at the March Past, which will precede the 11th annual National Scout Service in St. George's Chapel, held each year to commemorate St. George, the Patron Saint of Scotland.

His Excellency, Viscount Alexander, Chief Scout of Canada, has received from Lord Rowallan, Chief Scout of the British Commonwealth, the following message: "The Festival of St. George has come round once more. Let us try to live as he lived and show his courage and steadfastness in the face of danger."

Provincial Boy Scouts Executive Commissioners from across Canada will attend a national conference at Ottawa, April 25 to 27. - - - The Annual Meeting of the Canadian General Council of the Boy Scouts Association will take place in Ottawa on April 28. - - - A Provincial

A Relief for COLDS That Acts Quickly

"I suffered from a stopped-up condition in my nostrils. A bad cold prevented easy breathing; my nose and throat were mucous-clogged. I used Catarrh-o-sons. Its vapor gave me breathing comfort. My sore nostrils were soothed. I stopped coughing. I didn't sneeze. It was almost unbelievable the benefit I derived from Catarrh-o-sons. The surest way I know of to help head of a cold, is to inhale the germ-destroying vapor of Catarrh-o-sons; it is splendid for irritable throat, and helps to destroy the bacteria that excites Sore Throat, Colds and Bronchitis. At all druggists 35c and 70c sizes.

DIAMONDS are no better than a **STORE'S** reputation

A reputation for quality and value cannot be claimed... it must be earned and proved. We are justly proud that our diamonds have time and time again proven our right to such a reputation.

WATCH FOR OUR ADS on the grand opening of the new furnishings section in Holmans Charlottetown Store.

CITY POLICE COURT. - At the Stipendiary Magistrate's Court yesterday, a man convicted of being drunk and disorderly was fined \$10 and costs or 30 days. A young man charged with reckless driving was remanded for one week while a man charged with vagrancy was also remanded for one week.

Personals

Mr. and Mrs. George Keefe left by plane this morning for Halifax and Saint John, for a few days.

Mrs. Cyril Lambourn, City, is a patient at the Charlottetown Hospital.

Friends of Mr. Cyril D. Wood will regret to learn he is a patient in the P. E. I. Hospital. All hope for a speedy recovery.

Mr. and Mrs. J. L. Osborne of Toronto arrived in Charlottetown last week and plan to make their home here.

Mr. David MacKinnon, Prince of Wales College student spent the Easter holidays with his parents, Mr. and Mrs. Vernon C. MacKinnon, Union Road North.

Mr. Cecil A. Eikhoud, Radio Technician for Lounsbury Company, Sackville, N. B. has returned to his duties after spending the Easter holidays at his home in Wheatley River.

Unsymmetrical Development

By F. H. MacArthur

A marked tendency of this generation is toward the selection of specialties, not only in the professions, but in every walk of life. Whether this is necessary or not is a matter for debate; but now that we have so many irons in the fire, no single mind can hope to grasp them all. The best that any of us can do is to learn one thing well, human life is not long enough, even if the capacity of the brain were sufficient, which there is plenty of reason to doubt, to master all that is known in the various subjects which come under daily discussion and study.

Everyone is born with some peculiar fitness for certain things, mental or muscular, and if they follow the line most suited to their gifts, they are likely to make a success of the undertaking. This striving for efficiency and specialization is the outgrowth of our modern society and of the world, and while it may accomplish its aim, it is detrimental to the worker, whether he be a farmer or a statesman.

STANHOPE NOTE

Mr. Bernard Myers returned home after visiting friends out West.

Mrs. Harry Lawson is visiting in the city the guest of her sister Mrs. Watts.

Mrs. Bert Miesner returned home, she was visiting her daughter Mrs. David Clark, city.

Mr. Kenzie Ellis, Ira Carr and Joseph Myers have returned home from Montreal where they were employed during the winter.

The fishermen of Stanhope are busy at the shore getting their lobster gear ready. Mr. Bert Miesner is the oldest fisherman at the shore and this is his fifty-first year fishing.

Bellevo Strange Sub To Be Whales

SAN FRANCISCO, April 17 (AP) - The United States Navy kissed off the latest "foreign submarine" report today with a laconic "those were whales."

And that seemed to be the end of investigation of a military air transport flier's report he had seen a submarine on the surface yesterday about 55 miles west of the Golden Gate.

Search planes that went out to see what it was all about reported whales in the area.

The navy called the military air transport pilot's report "an error."

First World War Chaplain Passes

OTTAWA, April 15 (CP) - Rev. Richard Henry Steacy, director-general of chaplain services for the Canadian forces in the First World War, died at his home here Tuesday. He was 82. One of Ottawa's most distinguished Anglican clergymen, Col. Steacy had been rector of All Saint's Church in suburban Westboro for 37 years until his retirement in the spring of 1946. He had been in ill health for some time.

CARD OF THANKS

I wish to thank all my kind friends and neighbours for their kindness in helping me in my bereavement and also thanking them for sending flowers, letters and cards of sympathy.

Mrs. Harriet Bushay.

IN MEMORIAM

In loving memory of our dear Father, Robert Rogers, who passed away April 16th, 1949.

His memory is as dear today As in the hour he passed away.

Sadly Missed by Fidecia, Leslie and Madeline.

IN MEMORIAM

In fond and loving memory of our dear Father and Grandfather, Robert Rogers, who passed away one year ago today.

O how oft he comes before us His dear face so sweet and true Beating now in peace with dawn, Loving heart still long for you.

Sadly Missed and Always Remembered by Goldie, Iva and Grandchildren.

Religion and Life

By Very Rev. George C. Pidgeon, D.D., L.L.D. First Moderator of the United Church of Canada (Copyright)

An automobile on a street with its engine running drew attention to one of the governing factors of modern activity. That pulsing energy, ready at the driver's touch to send the car careering through the city, had lain inert for ages in the depths of the earth, its existence unknown, and, when discovered, its possibilities unrealized. Then, recovered and refined and harnessed, it became a source of light, heat and power which changes the whole face of our time.

The release of energy is one of the main pursuits of science in this generation. When Rutherford announced the discovery of the energy in the atom, men declared that the entire basis of our conceptions of reality was changed. One fearless thinker who had previously challenged the church's faith, said that this discovery revolutionized his thinking and drove him to the conclusion that the ultimate Reality was mind. Then when the energy in the atom was released humanity was astounded at the new possibilities opened up before us. It is a tragic commentary on human nature that its first use was destructive, but no one doubts that it too will soon be harnessed for the service of the people.

In persons to a greater extent than in things immeasurable energies lie hidden. You do not know how great you are; the world does not know how great you are. Nothing has ever driven you to the full exercise or development of your strength. There is fuel in your mind which, if kindled, would be a motive power of the first order. There is strength in your character sufficient for the control and direction of the forces of the spirit. Why not become what God designed when He made you? Why not give Christ a chance with you?

Last week Christian people everywhere were gazing at the inspiration and hope of Easter. But in each of the appearances of the Risen Christ to His friends and followers He emphasized the power released by His victory over sin and death. "You shall receive power when the Holy Spirit has come upon you," Jesus told them just before His ascension. After the gift had been received, Peter explained it thus: "Being therefore exalted at the right hand of God, and having received from the Father the promise of the Holy Spirit, He has poured out this which you see and know." These men, endowed in this way, changed the world.

Compare the achievements of these men as described in the first chapters of Acts with their condition when Jesus found them as described in the first chapter of John's Gospel. From the beginning of His ministry Jesus provided for perpetuating it. He did this by calling persons to follow Him so that He might teach, train and inspire them. They were quite ordinary folk when He took hold of them—some fishermen, a tax-gatherer, a fanatical nationalist, a mystic, and so on. Then look at Peter winning three thousand to Christ by a single statement and appeal, and others doing in different ways the same type of work. To our father's eyes the atom was a ball of inert matter too small to see with the naked eye; to the fuller knowledge of the present day it contains illimitable energy; so to the eyes of the learned and influential of that period these men were the unlearned and ignorant, but in them Jesus saw energies latent which He could release, and these He reinforced to such an extent that they transformed mankind.

Unsuspected power is developed in men by different means. Sometimes such potentialities are brought out by a burning issue. Here is a boy in a farming community, clever, interesting and active, but utterly irresponsible. He cared neither to learn nor to achieve. Then the First World War broke out, and in arms he showed a courage, an initiative and a resourcefulness which made him a magnetic leader. Just like Oliver Cromwell—genius smouldering until fanned into flame by a great occasion. Many a lazy man has been transformed into a human dynamo when a great love took possession of him. In cases without number personal influence and inspiration has made people new.

But there is no power equal to vital religion in this capacity to release and reinforce the energies of the soul. Religious papers in Britain have been celebrating the hundredth anniversary of Charles Haddon Spurgeon's conversion. Here was a lad in his middle teens sunk in despair, longing for God and God's forgiveness and unable to find Him. A Methodist preacher singled him out with a call to look to Christ. "And" said Spurgeon, "I looked and lived." He became unquestionably the most powerful preacher of his time. The radio gives preachers today a wide audience, but thousands listened entranced to Spurgeon every week and his sermons were read even to the remote corners of every land. Or take a convert whose influence has been still wider—John Wesley's spiritual illumination in a little Moravian meeting. Suddenly he felt that God had forgiven his sins and saved him from the law of sin and death. As with millions of his type, convinced and converted, he became fruitful, and the measure of that fruit is beyond calculation and beyond price. These are shining examples, but Continued on page 14

"DARLING, YOU MAY BUY THEM TODAY"

"You have been patient in waiting for that Refrigerator and that Washing Machine, and I now see our way clear to make the purchases."

"Go today to CROCKETT and STOREY LTD. and have them deliver the Westinghouse Refrigerator and the Connor Washer."

"You may decide for yourself which of the two beautiful models of Refrigerator made by Westinghouse you prefer—I like the Super DeLux Model—however you may be satisfied with the DeLux Model."

"Concerning the Washing Machine I think you will want the Connor Thermo Model—remember it carries a FOUR-year guarantee. However, they have a lower priced model with porcelain tub and it carries a two-year guarantee. See them for yourself, TODAY."
