HUNT' ER.

A man got separated from his wife while on a shopping tour about the city, and started to hunt'er. He asked a friend where he would be likely to find her. "What is she buying?" asked he. "Well, she's looking for a Bedroom Suit," said the man. "Then you'll find her at JOHN NEWSON'S," said his friend; "everybody goes there." He came directly here, and sure enough he

GRATEFUL-COMFORTING. EPPS'S COCOA

BREAKFAST-SUPPER. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which will save us many heavy doctor's bills. It is the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle miasmas are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." LITTLE'S SERVICE. To the Citizens of Charlottetown:

We have gone to considerable expense this fall increasing our plant to supply Incandescent Lights, and we are now about prepared to contract for any number of lights that may be required within the limits of the city. We, therefore, ask all, not to enter into any contract before getting our rates. About first of December we purpose running our plant twenty hours out of the twenty four.

INSECTS AND CONTAGION.

Written by Dr. Wm. D. H. Brown, Chicago. Clipped from the Journal of the American Medical Association. That insects are carriers of contagious diseases there is no doubt for, mosquitoes have been known to carry malaria and flies to communicate cholera, cholera and other infectious diseases as septic erysipelas, the common eye weakness or blood impurities the person afflicted. Some are affected more by small bite than others by a large wound. I have noticed those of nervous temperament are much more susceptible and more gravely affected by the poison. The bites of the insects will afford a clue to the varicella. The sting or proboscis may have been buried but a short while before in some part of the body and cannot penetrate the body without leaving some of the poison in it.

NEWS NOTES.

Sharp earthquake shocks were felt on Tuesday last in Athens, and in other parts of Greece. Lady Sandhurst is the only lady for more than 300 years on whom the honor of the freedom of the city of London has been conferred. Eugene Debs has been released from prison, and has begun operations with an address on "Liberty," delivered before a large audience in Chicago. The new tablet to the memory of Mary Queen of Scots recently raised in Peterborough was paid for entirely by contributions from English women named Mary. It cost about \$5,000. In the Norwegian town of Haugeund, which has a population of 4,200, not a drop of spirituous liquor has been sold for twenty-nine years. Many of the inhabitants have never tasted liquor. In the Italian Chamber of Deputies a few days ago Signor Sonnino, in presenting the budget, announced that the surplus would be 1,270,000 lire this year, and that he expected a surplus next year of 3,000,000 lire, without a loan. A penniless tramp named Maurice Barker, who slept in a Hamilton police station on Monday night, received on Monday morning a draft for fifteen hundred sterling from England, being his share of his father's estate. Longfellow has immortalized the name of Paul Revere, and Browning told in verse of the riders who brought the good news from Ghent to Aix, but the recent wonderful feat of a postman has not been recorded, except ephemeraly, in the columns of the newspapers. And yet what the good Father Begley, of Kingman, Kansas, has just accomplished is worthy of the poet's pen. A woman was dying on the ranch of her son, in the wilds of Texas, and Father Begley was sent for. The distance was three hundred and ten miles, and he had to get there within thirty-six hours, as she was not expected to live any longer. Of this distance, one hundred and sixty miles was over the desolate prairies of Western Oklahoma, No Man's Land and Northern Texas. Bays of horses were arranged for by the ranchmen en route, and without food and only one hurried drink of water, he covered the entire one hundred and sixty miles in twenty-one and a half hours, arriving at the dying woman's bedside before she reached that unconscious state which precedes death. The sombre robe sometimes covers as brave a heart as the brilliant uniform. 400,000 Free Samples given away in Eight Months. Chase's Kidney-Liver Pills are the only kidney pills known with sufficient merit to guarantee the proprietors in giving away hundreds of thousands of dollars' worth of packages free. Ask your druggist for a sample if your kidneys or liver is deranged.

PASSION OF MONEY GETTING.

Evil of Teaching Boys that Education Has Only Commercial Value. Rev. Charles H. Parkhurst in writing of "The Passion of Money Getting" in December Ladies' Home Journal says, concerning the prevalent idea regarding the value of an education to boys: "We are considering the effect which is going to be had upon the boy by being led to feel that the value of his training, whether in the street car business, college or in any other kind of a college, is determinable by the amount in cash, stocks and securities in which it may be expected ultimately to evaluate. That is an indirect, an indirect way of telling the boy that money is so transcendently great a thing that the only value that anything else can have is its efficiency in contributing to that end. The indirect way of telling him that the only value of an idea is its cash value, which amounts substantially to listing intelligence and putting it upon the market in mercantile competition with wheat, leather and railroad stock. Of course, there is no such intention as this on the part of the parents when they hurry their sons into the store or banking house or to the exchange, but the effect just stated comes, is bound to come, and is damning in its consequences." KEEP ENEMIES OUT. All diseases that linger and finally kill are the effect of bad blood. The blood must be kept perfectly pure. That is what the kidneys are for. They have everything to do in filtering out the poisons. This process of filtration may be interfered with by a cold. Usually if there is any lack of good kidney work, it is a cold, or perhaps over-eating and over-drinking. Nearly every acute ailment starts with a cold. So do the diseases that finally kill. The thing is to arrest the cold. This brings us to the question—What is the best treatment for a cold. Experience teaches us, from the universal success of Dodd's Kidney Pills in all the forms in which derangements of the kidneys show themselves that there is no treatment known to man anywhere equal to Dodd's Kidney Pills. Balfour Gets Fourteen Years. LONDON, Nov. 28.—The courtroom was crowded this morning when Jabez Spencer Balfour and his fellow defendants, who have been twice found guilty of fraud in connection with the Liberator Building Society and other kindred companies, were arraigned for sentence. Balfour was sentenced to fourteen years imprisonment—seven years for each conviction. Brook was sentenced to nine months, and Throok to four months, imprisonment. Wright and Dibly were discharged. The jury found them not guilty. The remaining charges against Balfour and his associates were dropped. Bad Blood Between Them. The ever-slaving farmer's wife, her delicate and feeble, suffer more than they care to tell. The dark rings round the eyes, headaches, dizziness, palpitation or rheumatic twinges, betoken a run-down system. The blood is poor, and is a bar to enjoyment of life. Scott's Sarsaparilla purifies the blood, strengthens and vitalizes the system, and speedily restores the bloom of health to the cheeks. It cures when all others fail. Cardinal Logue, Primate of Ireland, has issued a pastoral letter censuring the British Ambassador to Italy for having raised the British flag over the Embassy in Rome during the recent national celebration. The Cardinal regards as an insult to the head of the Church. An Old and Well Tried Remedy. Mrs. Winsloe's Sarsaparilla has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays the pain, cures the colic, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winsloe's Sarsaparilla. Do not take no other kind.—m. w. f. wily-1y

OUR COUNTRY'S REAL ENEMIES.

They are Those Who Refrain From the Faithful Discharge of Citizen's Duty. Ex-President Harrison contributes his paper to the series on "The Country of Ours" he is writing for The Ladies' Home Journal, in the December issue of that magazine. In discussing the country's real enemies in his paper General Harrison says: "The impulse of patriotism needs to be instructed, guided—brought to the wheel—it is to do the everyday work of our country—the dangerous ones against a faithful discharge of the prosy routine of a citizen's duty. A readiness to go to the field? Yes, and equally to the primaries and to the polls. The real enemies of our country—the dangerous ones—are not the armed men nor armored ships of the great powers. If there is too much exuberance in the thought that we can whip the world it is a safe saying that we can defend our coast against any part of the world that will ever be in arms against us. We are alert as to foreign foes—the drum taps rouses the heaviest sleepers. But we are a dull people never to inter-ambulate upon the integrity and purity of public administration. Salvation Army methods seem to be in vogue in politics. It has seemed to me that a fuller knowledge of our civil institutions and deeper acquaintance with them would make us more watchful for their purity; that we would think less of the levy necessary to restore stolen public funds, and more of the betrayed confidence and honor of the state. A good argument might be made for the war, if it were applied to patriotism, for it seems to have its ups and downs. There are eras when it rises to the combing point and others when it sinks to a selfishness rise above it on either side."

RECENT PUBLICATIONS.

The Canadian Almanac for 1896 has been received. This is a valuable hand book for everyone in Canada, particularly all who are engaged in commercial and public affairs. The regular departments of the Almanac, such as customs tariff, clergy list, post office list, with railways on which located, or nearest railway station, directory of government officials, societies, schools and colleges, statistics, and the Canadian flag, which is timely and valuable, are all included. The latest possible date. An article by Dr. Bourinon on "Forms of Government Throughout the World" will be found interesting and valuable. Also an article on "The Province, State and Country in the World is governed, and giving also its population and area. Mr. E. M. Chadwick, the eminent barrister, contributes an article on "The Canadian Constitution," which is timely and will help to crystallize public opinion on the question. This article is illustrated with colored lithographs of the red and blue ensign, with the maple leaves. We are in receipt of the Farm News, an interesting paper for farmers, published at Springfield, Ohio. It is full of news and information of a practical kind. The Ladies' Home Journal for Christmas is artistically beautiful and literally excellent. It contains much good news and suggestions for the gentlemen as well as for the ladies. For instance, "The Passion for Money Getting" is well treated by Charles H. Parkhurst, and there are hints for young men to their betterment. The Christmas number of the Delineator is at hand, with suggestions for Christmas presents and the like. Delicately illustrated and popular among the ladies. Subscription price of the Delineator, \$1.00 per year, or 50 cents per single copy. Address all communications to the Delineator Publishing Co., 250 Broadway, (Limited), 33 Richmond St. West, Toronto, Ont. The Thanksgiving number of Harper's Bazaar is notable for its appropriate and interesting stories and excellent articles for the ladies. The Thanksgiving number of the Housekeeper Corporation, at Minneapolis, Minn.—is a good one. The Housekeeper is a carefully edited journal of domestic economy and is only \$1.00 a year.

It's All Nonsense.

For people to say there is no cure for consumption. Sufferers from that dread disease and kindred ailments are being saved every day by Miller's Emulsion of Cod Liver Oil. It will cure them, if you will cure you. The secret of its success lies in the fact that it creates new blood in the system, thus enabling sufferers from lung trouble to overcome the destructive forces at work to waste the tissues of the body. Miller's Emulsion is the great nerve strengthener and blood maker, and cures coughs, colds, bronchitis, scrofula and all lung troubles. In big bottles, 50c. and \$1.00, at all drug stores.

Will not Race the Coming Season.

New York, November 28.—Lord Dunraven has decided not to race Valkyrie III in American waters in the coming year. Neither is he anxious to have her brought back to England. It is now said by those who are in his confidence that he will be happy when relieved of the care of the yacht. He proposes to bring this about by selling her. The boat is now on the market. The Americans are negotiating for the purchase of her. If any of the number secures her it is likely that Captain Sycamore, who was in command during her races with Defender, will have the position of skipper offered to him. Races can then be arranged between the Defender and Valkyrie.

Commercial Travellers.

Wm. Golding, commercial traveller, 130 Esther St., Toronto, says:—For 15 years I suffer untold misery from Itching Piles, sometimes called piles worms. Many and many weeks have I had to lay off the road from this trouble. I tried eight other pile ointments and so called remedies with no permanent relief to the intense itching and stinging, which irritated by scratching would bleed and ulcerate. One box of Chase's Ointment cured me completely.

The Outbreak of No Importance.

LONDON, Nov. 28.—The Times tomorrow will publish the following despatch from its correspondent at Caracas, Venezuela, under date of Nov. 28: "It is officially stated that the revolutionary outbreak is of no importance. No British ultimatum has yet been received, and many of the influential Venezuelans urge an amicable settlement. The government is afraid that the tendering of an apology would be equivalent to recognizing the rights of England to the disputed territory. Otherwise it is ready to give satisfaction. A considerable party favor a direct settlement of the frontier question without reference to the United States."

PROTECTION from the grip, pneumonia, diphtheria, fever and epidemics is given by Hood's Sarsaparilla. It makes PURE BLOOD.
