Exchange Board Officials Hold Conference

OTTAWA, Sept. 17 (CP)—Representatives of Montreal and Toronto Stock Exchanges, organized Friday afternoon, to discuss the newly created Foreign Exchange Control Board headed by Governor Towers of the Bank of Canada.

The Board proposes to proceed in regulating foreign exchange were clarified, and the representatives of the stock exchange returned home today to explain the proposals to their members.

The Government's object in setting up the board, it was explained at the Board's meeting, is to prevent the flight of capital out of the country which might hamper Canada's war effort.

A spokesman for the Board said every possible effort will be made to interrupt as little as possible the business relations between Canada and the United States.

In general, Canadians will not be allowed to buy foreign securities when it entails purchase of foreign exchange. Canadians may sell foreign securities they already hold, provided they sell the exchange they receive in payment to the board.

Canadians must declare to the board their holdings of foreign securities. This will include securities of some companies usually regarded as Canadian Companies. Stocks of several companies operating in Canada, including Wall Street and also on Canadian exchanges.

When these companies undertake to pay dividends in New York, Canadians holding such securities must declare them as if they were foreign securities.

For the present, there is no intention of taking over the foreign securities held by Canadians, but if such a step should be taken later on, the owners will be paid the market value of the securities on the day they are taken over.

The expectation is that Canadians having foreign securities or margins in New York will be notified by the board and they provided they do not have to buy United States dollars in connection with the transaction.

Canadians holding foreign exchange must declare it.

Subsidiary plants in Canada will be enabled to buy exchange to make their returns to their parent companies abroad.

The Board will provide exchange to meet dividend payments of Canadian Companies or their subsidiaries.

It is expected provision will be made to provide exchange to meet all commitments outside Canada in regard to interest and dividends on public and private goods.

When a Canadian exporter ships goods out of Canada he will get a certificate from the Customs Office, in his application for a licence, he will set out to whom the goods are consigned, how much he is to be paid for them and the Canadian bank in which the returns from the shipment are to be deposited. This is to make certain the payments for the goods returned to Canada and not sent to a foreign country.

Importers of foreign goods will be provided with exchange to pay for these goods much the same as in the past.

Canadians having marginal accounts with Brokers in United States or other foreign country, will have to obtain licences before they may send money out of the country to protect their margins.

Each morning the Board will announce the rate of exchange on New York funds and sterling in Canadian dollars, and chartered banks will observe these rates throughout the day unless the board countermands them. Except for rare occasions, it is expected the rates announced in the morning will last throughout the day.

Rates of exchange for currencies other than United States and sterling will be set by the chartered banks as in the past, but the rates will be based on the Board's figures for New York and London funds.

Scout News and Notices

A contribution of \$30 was voted by the Town Council of Kempenfelt, Ont., toward the camp fund of the local Scout troop, to enable them to hold a camp on the shores of Sutherland, Sask., for the benefit of the training.

The Saturday "shocking rights" on the streets of Sutherland, Sask., were given the local Boy Scout, by the town Council, as a means of raising needed troop funds. In granting the concession the Council commended the activities of the Scouts.

Some 12,000 young pine trees were planted by Scouts and Cubs of the Upper Canada College Scout Troop at Norval, Ont., at the first Scout camp held on a 600 acre college campus. The trees were planted under direction of Mr. A. H. Richardson, of the provincial forestry department, and a Scout commissioner.

The more than 200 Boy Scout camps registered in Ontario this year included the "New Canadians Camp" of the Scout Troop of All People's Mission Church, Niagara Falls. The camp included Czechs, Slovaks, Germans, Russians, Hungarians, Ukrainians, Poles, Roumanians, Serbians, Austrians, and English. Visitors declared the camp a model of tidiness and good organization.

Nobody could have expected that the Polish State would have betrayed such impotence and such swift collapse as has now already taken place all over Poland.

LITTLE THEATRE ABANDONS PLANS

OTTAWA, Sept. 17—Canada's Little Theatre movement will be without a national competition this season for the first time since 1932. The Dominion drama festival which was to be held in the capital next spring, will not take place since its executive feel such festivities would be unsuitable under war conditions.

At the same time, the executive feels that local groups would serve a useful purpose in continuing their usual activities by providing entertainment and diversion necessary in war time.

Since its founding in 1932 by the Earl of Beesborough, then Governor-General, the drama festival each year has climaxed the amateur theatrical season. It has provided stimulus not only to amateur actors but also to Canadian

Famed Dover Patrol Is Re-established

(By John Culmer Associated Press Staff Writer.)

DOVER, England, Sept. 17—(CP)—The Royal Navy, tuned to fighting efficiency weeks before war started, has re-established the famed Dover Patrol that kept guard over the English Channel in the last Great War.

In peace little more than a handy Naval coaling station, Dover today watches the Navy policing England's "Sea Wall."

Three destroyers steaming leisurely in line formation enter the harbor and drop anchor, their lead-grey hulls bright in the morning sun. Back from channel duty they have been relieved by other ships of the emergency "Barrage Squadron."

Three miles from shore, slim on the pale sea, two patrol ships move almost imperceptibly a half mile apart. Westward a third straddles over the French coast.

Away to the east in a dim irregular line a group of war craft stand as poised to strike. Beyond them, invisible, you know where are other ships of the King's Navy.

An occasional naval seaplane drones overhead, wheeling above the sea like the gulls that still, oblivious to war, cry across the red-daubed beach.

Dover has bitter memories of the last war. German seaplanes attacked the town; zeppelins; dropped bombs. In the straits submarines struck at merchant vessels and torpedoed a British hospital ship.

"Things are different now," a retired navy man said. "Fritz gave us one good lesson. We don't forget quickly."

MOLOTOFF'S SPEECH ON EVE OF INVASION

Gives Soviet Reasons For Marching Into Poland

MOSCOW, Sept. 17—(AP)—Following is the text of the speech today by the Soviet Premier-Foreign Commissar, Vyacheslav Molotov, as distributed by Tass, official Soviet news agency.

Comrades, men and women citizens of our great country:—

Events arising out of the Polish-German war have revealed the international insolence and obvious impotence of the Polish State.

Polish ruling circles have suffered bankruptcy.

All this has passed in the briefest space of time. A mere fortnight has passed and Poland already has lost all her industrial centres.

Warsaw as the capital of the Polish State no longer exists. No one knows the whereabouts of the Polish Government.

The population of Poland have been abandoned by their ill-starred leaders to their fate. The Polish State and its Government have virtually ceased to exist.

In view of this state of affairs, treaties concluded between the Soviet Union and Poland have ceased to operate. A situation has arisen in Poland which demands of the Soviet Government especially concern for the security of its state.

Poland has become a fertile field for any accidental and unexpected contingency which may create a menace to the Soviet Union.

On the last moment the Soviet Government has remained neutral. But in view of the circumstances mentioned, it can no longer maintain a neutral attitude toward the situation that has arisen.

Nor can it be demanded of the Soviet Government that it remain indifferent to the fate of its good brothers, the Ukrainians and Byelorussians (White Russians) inhabiting Poland, who even formerly were without rights and who now have been abandoned entirely to their fate.

The Soviet Government deems it its sacred duty to extend the hand of assistance to its brother Ukrainians and Byelorussians inhabiting Poland.

In view of all the above, the Government of the Soviet Union has this morning handed a note to the Polish Ambassador in Moscow announcing that the Soviet Government has instructed the higher command of the Red army to order the sea like the gulls that still, oblivious to war, cry across the red-daubed beach.

Dover has bitter memories of the last war. German seaplanes attacked the town; zeppelins; dropped bombs. In the straits submarines struck at merchant vessels and torpedoed a British hospital ship.

THE BAPTIST CHURCH

The Rev. Harvey L. Denton D. D. took as the subject of the morning sermon "God Speaks Twice." In St. John 1:17 "For the Law was given by Moses but grace and truth came by Jesus Christ." God spoke in terms of law through Moses, at Sinai, menacing, forbidding, with thunders and earthquakes, in the atmosphere of power and abiding strength came the words of law, and to the people perhaps their first spiritual apprehension. At Calvary, in whose sacrifice we re-member "And if I be lifted up shall draw all men unto me. God speaks twice, and in this second message is filled out, fulfilled in the death of one who sacrificed for all, the message of Grace and Truth.

God speaks twice and we might everywhere should hear, that all men well hope and expect that all men obey, but still are men's minds dull and ears deaf to the offered blessings and enlightenment.

There are now and always needful, the hearing ear, the understanding heart, the obedient will to fulfil, individually and as nations, the principles of Jesus "He that willeth to do His will shall know" The morning anthem was "Teach us O Lord."

Mr. Denton's strong and eloquent evening sermon for the evening service was "The Duty of being a Christian wherever you are" Stainer's anthem "God so Loved the World" was presented by the choir. The Church School met at 2:30 P. M. with the senior groups holding their session at close of morning service.
