

ABOVE students are seen receiving advanced training in television trouble-shooting. In classrooms such as these ambitious men with no previous electronic experience use their spare time to train for a full time career.

INDIVIDUAL INSTRUCTION: Students receive individual help from qualified technician-instructors. Classrooms, completely equipped with the latest in electronic instruments, make PRACTICAL training a reality.

RECENT GRADUATES: Youngest student (age 16) confers with oldest student (age 63) after graduation. After just 50 weeks both are ready to enter the multi-billion dollar electronics industry as fully qualified technicians.

Fifty Weeks' Training . . . One Night Per Week With Home Study

Leading industrialists claim a crying need exists for properly trained television and electronic technicians. The R. E. T. S. course offers a thorough PRACTICAL training in Radio, Television, and Basic Electronics. Ambitious men seriously thinking about a future but having no previous electronic training or experience can now train

with R. E. T. S. for a career in Canada's fastest growing industry --- ELECTRONICS, The complete course lasts 50 weeks --- students can remain fully employed in their present jobs while being trained, Special classes are conducted for out-of-town students and shift workers,

This photograph shows guest speakers at a recent reception for a graduating class of R.E.T.S. Above the Hon. James Gardiner, Minister of Agriculture, addresses the graduates. Among those seated was Edgar A. Eaton; Ronald M. Robinson, Vice-President of Canadian General Electric Company and Kenneth D. Soble, General Manager, CHCH-TV (Hamilton).

Here is an extract from a letter sent by Mr. M. J. Stark, President of Stark Electronic Instruments Ltd.: "It has come to our attention that your Institute has inaugurated a school for training television technicians serving the Maritime Provinces. Your organization is to be congratulated upon providing facilities for training technicians, and helping to fill the dire need of same which exists throughout Nova Scotia and New Brunswick. We shall be very pleased to interview any of your graduates, with a view to employing them as technicians in our firm."

Requests for R.E.T.S. Graduates have come from as far as California.

WHAT *r.e.t.s.* MEANS TO YOU

An opportunity to obtain a Practical training in Television and Electronics for the first time without leaving Prince Edward Island. Because this training is now available locally it cost only a fraction as much.
