The Potato Bug.

ADVICES from several sections of the Province state that potato bugs have already appeared in considerable numbers, and that they are working their mischief upon the tender plants. We trust that prompt measures will be taken to eradicate them. It is needless to say that, if permitted to increase, they will do incalculable damage. It should not be necessary to invoke the law concerning them; for every farmer ought, himself, of his own motion, to spare neither time, trouble nor expense, in their destruction.

The Best Markets.

THE *Pioneer* reports that the grand total of the value of the exports of Prince County thus far for the season, amounts to "$155,581, of which $52,586 went to the United States, $80,700 to the Dominion, and $22,295 to the West Indies;" and remarks:

"This shows clearly then where the 'best markets' of, not P. E. Island, but of Prince County are, notwithstanding the restrictions to trade existing between Canada and the United States."

Yes. It shows that the best markets are in the Dominion!—though it must be admitted that the markets of the United States are worth having.

When the United States remove the restrictions which they have placed upon trade we shall all rejoice.

We have only to add that it is quite possible that the *Pioneer* has undervalued the exports to the Dominion; for, as everyone knows, a great deal of our produce is shipped to the neighboring Provinces, of which no account whatever is taken by the Customs Department.

"A Change Wanted."

UNDER this heading the St. John *Sun* enters a protest against the present summer arrangement of the Intercolonial Railway. The *Sun* points out that no connection is made either way with the International line of steamers, by all odds the most important summer feeder of the I. C. R. Passengers who arrive by boat for points beyond Moncton must spend all night in St. John, except in the case of the few who are en route to points north of Moncton. The *Sun* says the cancelling of the night express to Halifax is a distinct loss to traffic, both on the International line and on the I. C. R. The same difficulty is met in connection with the boat from St. John to Boston. There is no through train in the morning, and passengers for Boston must come into the city on the day before. Owing to the lack of proper connection the Saturday night boat for Boston will be discontinued after this week. There is also a possibility that another of the boats will cease to call at this port. Indeed, the time table seems to have been arranged in such a way that no interest is well served, and no part of the country well pleased. Certainly, it ought to be changed.

Notes and Clippings.

—Several American towns that had raised funds for Fourth of July demonstrations have concluded to dispense with fireworks and paid orators for that date, and give the money to the Johnstown victims.

—It is said that the concession to lay a cable from Brazil to the United States, granted to an American company by the Brazilian Government, has been cancelled owing to expiration of time, and now that Government will take this matter in hand and invite tenders for the construction of the cable.

—It is an error to suppose that the Johnstown disaster is the greatest of its kind in modern times. The great flood in the Yellow River of China in 1887 destroyed 3,000 villages, and the best informed European in Pekin calculated the destruction of life at 2,000,000. The lowest estimate was 1,000,000. In 1876 a tidal wave overflowed the land of Deccan-Shahbazpore, in the Bay of Bengal, drowning 300,000 people.

—A California public man of unblemished character publicly declared, a few days ago, that the legislature of that great State was owned by a scheming unprincipled boss, who is called by friends and enemies alike "The Blind Devil." His account of the corruption that is openly practised in both state and municipal politics was almost incredible, but it has been confirmed by more than one independent witness. The truth seems to be that public life in the great Pacific State has become so degraded that it is difficult to descend any lower. Politics are there literally the last refuge of scoundrels. In New York State, so respectable a journal as *Harper's Weekly* being the witness, the political world is in pretty much the same state. From the evidence of American citizens who are in possession of the best means of arriving at the truth, it is difficult to say which is the worst and most disgusting sink of iniquity, Albany or Sacramento.

The Operator at Johnstown.

MESSAGE I.

The torrent poured across the plain,
Lapped torrents from the hills o'erhead;
"It looks as tho' 'twere going to rain,"
The laughing operator said.
And then she wired—she loved her joke—
"That reservoir may soon be broke,
You'd better all get out your arks!"
They laughed, forsooth, to hear her larks!

MESSAGE II.

"There is a flood, and here's your proof—
We're telegraphing from the roof!
Flee for your lives! the muddy foam
Engulfs already many a home;
The water's at our window sills—
The Dam *has* broken through the Hill!"

MESSAGE III.

"*This is my last message*" a hush—
Along the wire; a sudden rush
Of waters—"Help!" Too late—they've swept
Where two brave women dying wept.
And weeping died, if they might save
The prey of Conemaugh's wild wave!

Merry Wedding Bells.

IT is with pleasure that we to-day announce the marriage of our talented young friend, J. Hedley Brehaut, of the Boston *Post*, formerly of Summerside, and Gertrude M. Nourse, which took place at the residence of the bride's parents, Codman Park, Boston, on the 11th inst. The happy couple were the recipient of a number of costly and valuable presents. After the ceremony, they left for a wedding trip to the Berkshire Hills, Saratoga and New York. THE EXAMINER extends its hearty congratulations.
