TURKISH SOLDIERS.

They Will Suffer the Most Intense Agony With Remarkable Fortitude.

An English surgeon, Dr. Ryan, while serving with the Turkish army in the campaign of 1877-8 saw a marvelous exhibition of the fortitude that resists pain and sustains with cheerfulness a violent physical shock.

The surgeon's first capital operation was performed on a Turkish soldier whose knee had been shattered by a shell. He refused to take chloroform, and the surgeon took his leg off above the knee.

He never groaned nor uttered an exclamation, but smoked a cigarette during the operation. When the Turkish captain came around with his notebook to take down the name, age and regiment of each wounded man, his patient answered quietly all questions, though the surgeon was stitching up the flap of skin over the stump.

At the first battle of Plevna Dr. Ryan worked all day among the wounded. In his book, "Under the Red Crescent," he records that in all his surgical experience he has never known men to exhibit such fortitude under intense agony as did these Turkish soldiers.

The recovery of the wounded, considering the unfavorable conditions under which they were treated, filled him with wonder. Their injuries were terrible, but their splendid physique, unimpaired by intemperance, enabled many of them after a few weeks in the hospital to resume their places in the ranks.

"I never saw a private soldier under the influence of liquor during the whole time that I was in the country," writes Surgeon Ryan. "There were many of these men whose lives I could have saved if I could have persuaded them to take stimulants, but it was impossible to get them to touch alcohol even as medicine."

"The principles of their religion forbid the use of alcohol, and the humble Turk clings so tenaciously to his religion that he would rather meet death itself than violate its precepts."

Many of the wounded lost their lives owing to their religious belief that the loss of a limb would prevent them from entering paradise. They refused to submit to amputation, preferring to die rather than to live maimed.

"She Carries Her Heart on Her Sleeve"

What a boon to many a man or woman if this were literally so—How many spirits are broken because this particular organ is shackled by disease—and yet how many times has Dr. Agnew's Cure for the Heart brushed against the grim reaper and robbed him of his victim.

Diseases of the heart are by far the most treacherous of ailments which afflict humanity—ruthless to old and young alike—not insidious but violent, for when the heart fails the whole system suffers violence. Discussing causes here will not console the suffering one. The one great yearning of the heart-sickened patient is how to get relief and a cure. Dr. Agnew's Cure for the Heart stands pre-eminently to-day as the star of hope, to sufferers from heart trouble, and so far past the experimental period that thousands to-day proclaim, in no uncertain sound, the belief that were it not for this great remedy they would have long ago passed into the great beyond.

Most eminent doctors, whom heart cases have baffled, have tested Dr. Agnew's claims, and to-day they prescribe it in their practice as the quickest and safest heart remedy known to medical science. What are the symptoms? Palpitation, fluttering, shortness of breath, weak and irregular pulse, swelling of feet and ankles, pain in the left side, chilly sensations, fainting spells, uneasiness in sleeping, dropsical tendency and as many more indications that the heart is deranged. Dr. Agnew's Cure for the Heart is a heart specific; and no case too acute to find relief from it inside of thirty minutes—a powerful cure.

Mrs. JNO. FITZPATRICK, of Gananoque, Ont., after having been treated by eminent physicians for heart disease of five years' standing, was discharged from the hospital as a hopeless incurable. She suffered from acute pain, her feet and ankles swollen, and there was every tendency to the dropsical form of heart disease, but the lady procured Dr. Agnew's Cure for the Heart as she declared, as a last hope. One dose relieved her of a very acute spasm in less than thirty minutes, and three bottles cured her—not a symptom of the trouble remaining.

CONDUCTOR WILLIAM C. LUCAS, of the N. & W.R.R., and living at Hagarstown, Md., suffered for years with acute valvular form of heart disease—cost him many a "hay" from his daily duties on the road, and he spent a small fortune in remedies and treating with heart specialists in promise of a cure, and all ended in disappointment, until a good friend, who had been benefited, recommended Dr. Agnew's Cure for the Heart. He tried it, and found it gave him relief and comfort almost immediately. He continued its use until a few bottles were taken, and to-day he is well and strong, and says, "Tell all heart sufferers that I can highly recommend this great remedy."
