EIGHT BUILDINGS BURNED IN OHIO PENITENTIARY RIOT

Gov't Boosts Loans For Building Rental Housing

Two Ships Lost, Two Men Drowned In Storm At Sea; Missing Freighter Safe

ST. JOHN'S, Nfld., Oct. 31 (CP)—Stars and a nearly full moon gleamed tonight on sullen North Atlantic seas that have claimed two ships and at least two lives since Wednesday.

The season's worst storm, meanwhile, has harmlessly moved along Greenland's west coast. Weather officials reported abating seas and 25-mile winds along the entire Canadian seaboard.

In the St. Lawrence River, salvage preparations were being made for the 700-ton Swedish cargo vessel Ryholm, which sank to 23 miles east of Quebec after colliding with the Swiss freighter Basilea.

All crew members were rescued and the Basilea was only slightly damaged. The Ryholm's deck was reported about a foot submerged at high tide. The Foundation Maritime tug Hanscot will leave for the scene tomorrow from Halifax, and a floating derrick was expected to be sent from Gaspe to help salvage the cargo.

Off Newfoundland, the overcrowded American trawler St. Nicholas and several of the trawler fleet were heading shoreward after two days of savage gales and pounding seas some 300 miles off Cape Race, Nfld.

Aboard the St. Nicholas were the 10 survivors of the Boston-based trawler Newton, who were rescued in a heroic night-time transfer when the Newton, leaking badly, foundered in heavy seas. All clambered aboard safely.

No word has been received from the St. Nicholas since last night. Veteran fishermen here thought the vessel may make for Argentina, Nfld., base of two U. S. cutters that attempted to rescue the Newton's crew after intercepting the S O S Wednesday.

John Leonard 28, of (Legy Bay Road) East St. John's, Nfld., was lost overboard from the 22,500-ton liner Queen of Bermuda, 35 miles off the coast from Queen City, Md.

Albert Keeping, 21, of Grand Bank, Nfld., was lost overboard from another ship earlier. Details of the accident were not available immediately.

Turns Up Safety
The 2,500-ton Norwegian freighter Dux, reported missing en route to Montreal from Rotterdam, turned up safely in the Gulf of St. Lawrence. Her wireless had apparently broken down.

Off Cape Breton Island, the 9,004-ton Canadian Pacific freighter Beaverbrae was making headway with her two-tug escort for the first time in two days.

Foundation Maritime Ltd., officials at Halifax reported the Beaverbrae, riddled since Monday, was making five knots at the end of towlines of the Foundation Vera and Foundation Josephine II. She was expected to reach Halifax Sunday.

The freighter was en route to the United Kingdom with a cargo of grain from Montreal. Farther at sea, the British freighter Alendi Hill, bound for Hampton Roads, Va., radioed today she would call at Halifax Nov. 4 for extra fuel, after being buffeted by mountainous seas for several days.

Big Increase Expected In Construction

OTTAWA, Oct. 31 (CP)—The Canadian Government today boosted maximum loans for building rental housing in a drive to overcome a housing shortage which has particularly hit Canada's big cities.

In a two-pronged move, Resources Minister Winters announced: 1. A boost of \$1,800-per-unit in the maximum joint loans which commercial lending institutions and the Central Mortgage and Housing Corporation can make on semi-detached or double houses, or rows of attached houses built for rental. This increases the ceiling to \$8,500 per unit from \$6,700.

2. A boost of \$500 per unit in maximum joint loans on multiple family dwellings such as apartments built for rental, raising the ceiling to \$7,200 per unit from \$6,700. In addition, if elevators are built in the apartments, the loan may be increased by as much as 20 per cent of the estimated elevator costs.

Most of these loans run for about 20 years and bear an interest rate of 5 1/4 per cent calculated semi-annually. At the same time the Resources Department announced a new Federal-Ontario Government agreement to share costs of new housing projects in three Ontario municipalities at an estimated cost of \$1,420,000. The projects will be in Stamford township near Niagara Falls, Lindsay and Owen Sound.

The new ceiling on rental housing loans is expected to spark an expanded flow of millions of dollars into the construction industry in the form of mortgage money.

No Trace Of Missing Hunter

KINGSTON, N. S., Oct. 31 (CP)—Forty men searched without success today for Clyde Potter, 50, missing since he went deer hunting in the South Mountain area 11 days ago.

Potter, a civilian employee at the nearby Greenwood R.C.A.F. base, had intended to go to his camp on Cloud Lake but search parties found no evidence he had been there.

He is married but has no children. The search will continue tomorrow.

LABORER SUFFOCATED

DALHOUSIE, N. B., Oct. 31 (CP)—A young Dalhousie laborer, Jack Balfour, 37, died of suffocation this afternoon when buried in a ditch he was digging for sewer pipe. One side of the eight-foot ditch collapsed and covered him with two feet of earth while he was working alone.

and is also offered to the highest bidder. The C. N. S. "Lady" fleet will have given way to three diesel vessels and five freighters in the Canada-West Indies trade.

The other three sister ships—Lady Hawkins, Lady Somers and Lady Drake—as well as the Nelson, fell victims to U-boats in the Second World War, but the Lady Nelson was raised, repaired and fitted out as Canada's first hospital ship of the war.

A brief, informal ceremony in the quarters of Nova Scotia-born Capt. D. C. Wallace, O.B.E., D.S.C., followed the Nelson's arrival. Mayor-elect E. W. Patterson expressed the city's regret that this call is the last here for the proud liner. She had been almost a landmark at the port, he said, bidding her farewell on behalf of Saint John citizens.

Huge Deposit Of Jet Engine Material Found

OTTAWA, Oct. 31 (CP)—A federal engineer, examining a rock sample believed to contain graphite, has spotted kyanite leading to the discovery of huge deposits of this scarce, heat-resistant mineral used to coat jet engine exhausts.

M. F. Goudge, chief of the Federal Industrial Minerals Division, said in an interview today that the highly-prized industrial mineral has been found in Eastern Ontario, particularly in the Mattawa, Ont., area and deposits run into "millions of tons."

When fully developed, the deposits will help Canada out down on expensive imports of this mineral which she currently gets from India and other foreign sources.

Extensive mining is expected to begin as soon as the Industrial Minerals Division completes research work on a cheap method of extracting kyanite from rock.

The discovery was made by V. A. Haw, 33-year-old Winnipeg engineer now with the Industrial Minerals Division. He came across traces of the kyanite while examining a rock sample sent in by a geologist who hoped to find graphite.

Other geologists immediately got into the search, leading to the discovery of the vast deposits. Besides its use in jet engines kyanite can be used in bricks to line big mill furnaces and in cement to form a strong heat-resisting lining in various types of pipes.

Finishes Old Job

LONDON, Oct. 31 (Reuters)—Field Marshal Sir William Slim, 61, who leaves in February to become Australia's new governor-general, spent his last day at the desk of the chief of the Imperial General Staff today. Slim is being succeeded by Gen. Sir John Harding, commander-in-chief of the British Army of the Rhine.

Stevenson Gambles And Wins In Prison Riot Move

NEW YORK, Oct. 31 (CP)—Adlai Stevenson gambled and won. He took one of the biggest chances a presidential candidate ever took in suspending his campaign tour to down an Illinois prison insurrection.

If he succeeded, it would be a master stroke. If he failed, his prestige might be damaged beyond repair in these last hours of a bitterly-fought campaign.

Thus, this late day in his drive for the White House was chalked up tonight by political experts as a big gain for his aspirations.

The Democratic candidate announced in Pittsburgh last night that as Governor of Illinois he had to intervene in an uprising in Menard State Prison at Chester, Ill. Since Monday, more than 300 convicts had held seven prison guards as hostages.

Unprecedented Event
Victory came at 10:47 a. m. today, less than 12 hours after Stevenson left his campaign train in the middle of a speaking tour, an event unprecedented in American political history. An ultimatum issued at his direction was read to the convicts. They surrendered and the guards were released uninjured.

18 Burned To Death In Nursing Home Fire

HILLSBORO, Mo., Oct. 31 (AP)—Fire swept through a three-story nursing home for aged persons tonight, killing 18 and injuring many of the victims.

The dead and injured were patients living on the second and third floors of the stone structure on the edge of Hillsboro.

Chinese Reds Cling To Crest Of Triangle Hill

SEOUL, Nov. 1 (Saturday) (AP)—The bitter battle of Triangle Hill on the Korean central front slackened Friday night but Chinese Red troops still menaced Allied control of the whole sector.

The Chinese clung to the crest after the bloodiest day since fighting began 19 days ago. Allied infantry withdrew at dusk from the 2,000-foot height after nearly 24 hours of swaying battle in which three South Korean companies — about 550 men — stayed and died, preventing a Red breakthrough.

Other Allied troops held fast to Pinpoint Hill, the pinnacle of Snipers Ridge, two miles to the northeast and the Chinese were massing in trenches and tunnels close by.

The Red grip on Triangle Hill may be only a temporary one, but it threatened the whole Allied position on the heights north of Kumhwa, and brought that road hub leading south towards Seoul under the guns of the Communists.

AP correspondent John Randolph on the front reported hundreds of Allied and Communist artillery and mortar pieces eased fire Friday night after three days of tremendous barrages.

The battle for Triangle Hill and Sniper Ridge has cost the Chinese more than 11,000 killed and wounded since Nov. 14, by Eighth Army headquarters estimate. Allied casualties were not given but were also heavy.

It was the longest sustained battle since Heartbreak Ridge one year ago.

The muddy, red clay peak of Triangle changed hands at least three times and probably more with the battle raging at bayonet range at times with neither side in firm control until the Allies finally withdrew.

COVENTRY, N.Y., Oct. 31 (AP)—Mrs. Carl Fejersen, 32, tossed her three small daughters from a porch roof to safety in her husband's arms early today as fire destroyed their home. Mrs. Fejersen suffered the only injury, a thumb burn.

MOSCOW, Oct. 31 (AP)—The Soviet press announced the death today of Lt.-Gen. Pavel Verkhovtchikov, 52, an authority and teacher in the field of military science. He took an active role in the Russian revolution and the Second World War.

British Judges Fighting Wave Of Violent Crimes
LONDON, Oct. 31 (Reuters)—British judges are fighting a wave of violent crimes sweeping the country by throwing the book at convicted gunmen, razor slashers and back-street bandits.

Restricted on one side by the parliamentary law abolishing flogging, judges are increasing sentences. The 1948 law which ruled out flogging gave magistrates wide powers of discretion.

Damage May Amount To Million Dollars

COLUMBUS, O., Oct. 31 (AP)—Rolling convicts at burned and battered Ohio Penitentiary returned to their cells tonight, virtually putting an end to the Halloween rebellion that sent eight prison buildings up in flames.

A handful of the "bad food" rioters remained out of their cells but a prison spokesman said "it's as much under control as it can be tonight."

Guardmen Mobilized
The men returned ahead of a scheduled big push by 600 soldiers of the Ohio National Guard.

The guardmen were mobilizing outside the prison when a dozen die-hard prisoners armed with knives gave up and allowed their fellow inmates to return to the cellblocks.

Maury Koblenz, Assistant Commissioner of Corrections, said 100 prisoners still milled about the prison courtyard.

Koblenz said reports that three convicts were shot during the height of the uprising in the prison were false.

"No convicts were shot," he said. Warden Ralph W. Alvis said that no guard had been held hostage.

Both stories gained official credence during the excitement of the riot.

Patrolman Wounded
One State Highway patrolman, R. W. Lawrence, mistaken for an escaping convict, was wounded in the head.

A prison spokesman said damage would go as high as \$1,000,000. Five buildings, including the desecrated Roman Catholic chapel, were destroyed by convict-set fires. Three others were damaged badly.

Recall Last Fire
Even this high price was lower by far than the last Ohio Penitentiary convicts set fire to the prison. That was in 1930 when convict-set fires—part of an escape plot—caused the deaths of 322 prisoners.

That was on Easter Monday and the thoughts of that holocaust spurred action by city and state tonight.

By 8 p. m., the flames of nearly a dozen fires inside the walls were dying.

Four hundred of the 1,200 convicts who set the fires returned to their cellblocks. Prison spokesmen said the riot was over.

Girl Wounded In Hallowe'en Shooting Incident

A minor flesh wound in the left arm, just above the elbow, was suffered by Lois Dawson, 17, daughter of Mr. and Mrs. Murdock Dawson, Albany, when she was hit by a shot from a gun allegedly discharged by Mrs. Marjorie Silliker, Leard's Point, Tryon. The weapon is believed to have been a .22 rifle.

Although complete details were not available late last night, it was reported that a group of youngsters were playing Hallowe'en stunts and had been warned away from the farm where Mrs. Silliker lives with her husband. When the group continued to annoy her the gun was discharged in the general direction and the shot entered the Dawson girl's arm. She was taken to a doctor in Bedouque for treatment.

The Borden detachment of the R. C. M. P. is investigating.

Sentenced to Hang

SWEETSBURG, Que., Oct. 31 (CP)—Oscar Senecal, 51, father of seven children, was convicted yesterday of murdering his wife and sentenced to be hanged Jan. 30.

Defence counsel Alexander Chevalier of Montreal said an appeal will be taken on behalf of Waterloo, Que., farmer who formerly lived in Brunswick, Me.

It was the second trial for Senecal. A jury disagreement ended the first trial last year.

The crown said Senecal killed his wife Nov. 7, 1950, and buried her body behind his home. The body bore head injuries.

Police said Senecal admitted that he killed the woman.

Boys Held Responsible In Slaying Of Father

MONTREAL, Oct. 31 (CP)—Two boys who told police they took turns shooting at their father because he was angry when they came home late were held criminally responsible today by a coroner's jury for his death.

Phillippe Bedard, 54, was shot in the chest and stomach yesterday. A statement to police by one of the teen-agers said they shot Bedard because he didn't like them coming home at 4:30 in the morning.

They couldn't get into the store and returned home. Their parents were up and demanded the boys tell where they had been.

A statement to police by the father became angry and advanced toward the boys. Before he reached them, Robert drew the revolver and fired a "couple" of shots. He handed the gun to his brother who fired two more and the father slumped to the floor.

The mother holding her wounded arm, ran to a neighbor's home, while the boys ransacked the house for money and ran into the street.

They were arrested by police who saw them acting suspiciously near parked automobiles.

Police Report Quiet Hallowe'en

The quietest and best Hallowe'en celebration in the memory of veteran police officers was reported with pride by the City Police last night. There was not a single case of vandalism reported, no street lights were broken, no fences interfered with and parked cars were left strictly alone.

The youngsters had a wonderful night of freedom which they did not abuse and Police, though watchful, let the kids have their fun.

Apparently the educational program launched some years ago by civic authorities bore fruit. Another factor which contributed greatly towards eliminating the old-time hoodlumism was the big party sponsored by the Kinmen Club at the Armouries. Hundreds of youngsters gathered there for fun and frolic and to receive the treats handed out by the Club.

Last night's festivities marked a new high in the observance of law and order on a Hallowe'en.

Sees More Need For Whole Milk Than Butter

TRURO, N. S., Oct. 30 (CP)—Canadians will pay a little less than 70 cents a pound for butter next year, Agriculture Minister Gardner said tonight.

He said Canada's 40,000,000 pounds of surplus butter would be sold at a wholesale price of 62 cents a pound—a policy which would give the farmer the highest possible return.

Mr. Gardner, who made the announcement while officially opening the Nova Scotia Artificial Breeders Co-Operative Association's new insemination unit, did not disclose when the butter would be sold to wholesalers.

Mr. Gardner said the high costs of butter production in Canada made it impossible to compete in the world market, but production and consumption statistics proved that Canadian farmers were only producing sufficient butter to supply their own needs.

He said there was far more need for whole milk in Canada today than butter or any of the milk products, and urged greater attention be given to this phase of the industry.

"The production and sale of margarine in Canada now is legal," he said "and I don't know if I can agree that it should be made illegal. It's now essential that we should have sufficient milk production in this country."

The government purchased the 40,000,000 pounds of butter last year at the 58-cent price and estimated that the government would lose \$10,000,000.

BERLIN, Oct. 31 (Reuters)—A 20-foot model of Picasso's "Peace Dove" is to be erected by East Berlin Communists at Potsdamer Platz, meeting place of the British, United States and Russian zones of Berlin and scene of many East-West clashes.

Coming Events

*Pantry Sale, Millar Bros., today, Kingston Women's Institute.

*Rummage sale, Trinity Social Hall, Saturday, 3:00 p.m.

*Rummage Sale at the Clover Club today, 3 o'clock.

*Dancing Stanley Bridge Rink Hall every Tuesday night. Music by Munroe's Orchestra. 9 to 1.

*Raffle and Dance in Vernon River Hall, Monday, November 3rd, at 8 P. M.

*Farmers, ask about the Shu Gain Feed Finance Plan. For particulars contact your local feed mill.

*Masquerade dance Stanley Bridge Rink Hall, Tuesday, November 4th.

*St. Mary's Parish, Montague, Chicken Supper, Beaver Club Hall, Wednesday, November 12th.

Drew Plans Tour Of British Columbia

OTTAWA, Oct. 31 (CP)—George Drew, Progressive Conservative leader, will start a 10-day tour of British Columbia Nov. 6.

Mr. Drew, who completed a tour of Manitoba today, will visit Castlegar and Nelson, B. C., Nov. 6.

Other points on his itinerary: Nov. 7—Trail and Penticton; Nov. 8—Kelowna and Vernon; Nov. 9—Vernon and Kamloops; Nov. 10—Salmon Arm; Nov. 11—Kamloops; Nov. 12 and 13—Vancouver; Nov. 14—Victoria; Nov. 15—Nanaimo and Alberni.

Saint John Bids Farewell To Liner Lady Nelson

By JOHN MOSHER
SAINT JOHN, N. B., Oct. 31 (CP)—A gallant old lady of the sea returned home today to face an uncertain future.

Nostalgia rode into port with the liner Lady Nelson, retiring after 24 years in Canadian National Steamships' Service. The veteran of peacetime commerce and mercy work in war will sail for Halifax next Wednesday and there be offered for sale.

Arrival of the white-hulled vessel, displacing 11,183 tons, was the second last paragraph in a colorful chapter of marine history. When a sister ship, the Lady Rodney, returns to Halifax in December.

Meeting of Conservative electors of New Haven Poll at Fulford Darrachs, Monday, November 3rd, 8 P. M.

Repeat performance of recital by pupils of Mrs. Louis MacLeod in New London Hall, Monday, November 3rd, at 8:30 P. M.

Commencing Monday, November 3rd, will be buying a limited amount of good sound logs, 6 inches or larger at small end. Webster's Mill, Souris Line Road.

The Annual Meeting of the North West Rural Telephone Co. will be held in North Westville Hall on Wednesday, November 5th, at 8 o'clock.

Chick time is coming soon! We would like to let our customers know that we will again be hatching New Hampshire X White Leghorn Crossed chicks. Your order now will guarantee delivery when desired. Reynor's Chick Hatchery, Mt. Herbert.

Dance, Emerald Hall, Thursday, November 5th. Music by Russell Warren and his Blue Haven Ramblers. Canteen service.

Dance in St. Mary's Hall, Souris, Wednesday, November 5th. Canteen service. Chalson's Orchestra.

HALIFAX, Oct. 31 (CP)—Official forecasts issued tonight by the Dominion Public Weather office here and valid until midnight Saturday.

Synopsis: A disturbance is moving east from Ontario and another from Manitoba. This will keep the weather cloudy and cause showers in Northern New Brunswick and Eastern Quebec. In the Southern Maritimes fine weather will continue.

Regional forecasts, with an outlook for Sunday: Clear and hazy with a few cloudy intervals. Continuing mild. Southwest winds 15. Low and high Saturday at Charlottetown 40 and 68.

Outlook for Sunday—Sunny and mild. High tide today at Charlottetown at 10:12 A. M. and 10:01 P. M. High tide on the North Shore at 5:08 A. M. and 4:58 P. M. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 6:51 A. M. and sets at 5:02 P. M.
