THE DAILY EXAMINER.

JUNE 25, 1889.

—A correspondent of the *Empire* says that P. E. Island is now known as the Kentucky of Canada.

—The debt of Truro has been refunded on favorable terms, the whole loan of $15,500 having been taken at a shade over 4 per cent. interest. It is pleasing to know that the credit of our neighboring towns stands high.

—The Nova Scotia Government are said to be casting about in the hope of again catching the vote of the majority. But the "seccession" bait is not worth a cent now; and as they have nothing else, they will not, in all probability, be successful.

—Ontario papers contain accounts of two deliberate murders on the same evening: one was committed by a young man of twenty, who stabbed another young man of about twenty-three to the heart, the other by a boy of fourteen, who shot and killed another boy of twelve. This in the land of free schools and churches.

—The decisive defeat of prohibition in the West New England States is the subject of much comment. It is now becoming generally understood that law cannot possibly stop the liquor traffic, while a larger proportion of the people fail to see that those who regard liquor as beneficial, or not injurious, should have their liberty to drink curtailed. Unfortunately the public taste is not yet so high that the people, as a whole, are willing to refrain from drinking, for the sake of those who may be tempted to offend and become drunkards.

—The English are contemplating an idea to lay down a postal tube between Dover and Calais. The plan is to suspend two tubes of about a yard each in diameter, by means of steel cables across the channel, forty yards above the level of the sea. The steel cables will be fixed to pillars at distances of about 800 yards, and in each tube a little railway will run with cars capable of carrying 450 pounds in weight. No parcel of greater weight than this will be taken, and the cost is estimated at the modest figure of $5,000,000.

—Referring to the meat combine of Chicago, which is now operating in the neighboring Provinces, to the loss of our farmers, the Moncton *Times* says: "The meat trade of America is year by year centering more largely in the hands of one or two corporations. The Aamours of Chicago now send their canned meets to all parts of the globe, and their refrigerator beef is sold in all the principal towns and cities, not only of the United States but of Canada. The facts contain a lesson for Canadian farmers who cannot hope for a better market for their beef as a result of reciprocity when the great combinations of the United States not only control the home market but are seeking to control the English market and have already obtained a foothold in Canada in spite of the duty imposed. What our farmers, and perhaps some of our manufacturing interests need most is not reciprocity but more protection. The home market must be preserved at any cost.

— A gentleman in this Province writes to the *Empire* to say:—"Until the last three or four years the bulk of the Island surplus was sent to the Old Country, but the low prices on the other side have made this unprofitable, and were it not for the fact that we find a ready and profitable market for our staple products—oats, pork and fat cattle—in the Nova Scotian and New Brunswick cities and towns, we would have to give up the production of those articles altogether. Even this spring, with the duties to contend with, Chicago beef and corn and oats have been brought down in large quantities and sold in competition with Island produce, materially lessening both the price and demand, while American pork is brought in to the market all the time. It is a certain fact that, were the duties off oats, pork and beef, the Island would have to go out of the production of those articles for export almost altogether. Now, the American market offers us nothing which would compensate for the loss of a market for our staples. I think that were the matter brought before the Island electors now they might pronounce differently from their verdict at the next general election" There is much force and truth in these remarks.
