Enterprise Said Key To Success In Tourism

Speaking at the annual dinner banquet of the P.E.I. Tourist Association held last night in the Charlottetown Hotel, George W. Powell, president of the Canadian Tourist Association said "I wonder how many of you realize that your province of P.E.I. has pioneered in the tourist industry."

Mr. Powell was guest speaker at the banquet which was also attended by Premier W.R. Shaw, Charlottetown Mayor A. Walthen Gaudet, who is also secretary of the association; Hon. J.D. Stewart, provincial minister of tourism; R. Gordon Shaw, president of the P.E.I. Tourist Association; L. G. Ercroyd, newly appointed executive director of the CTA.

Mr. Powell said he was pleased to hear that Island association members are not leaning on the government for support entirely. "You are doing a tremendous amount of work on your own resources," he said. "Private enterprise is where the success or failure of the tourist industry is to be found."

He went on to say "P.E.I. is to be credited as being one of the very top investors in Canada on a per capita basis. The tourist literature of your province is really outstanding. It reflects a credit on those who are responsible for its production."

Mr. Powell reviewed briefly tourism happenings over the world. He stated that the largest single form of international trade in the world is travel and tourism. "Tourism is the number two earner of foreign dollars for Canada. Scenery and courtesy, in that order, are our two biggest attractions to tourists."

COMMENTS EFFORTS

He commended the Island group for its splendid efforts in promotion of the tourist industry in the province. "Perfection is not doing extra-ordinary things, well," he said.

Commenting on Canadian markets, he said "In Canada the inter-provincial travel market ranks first; the U.S. market second; and others third."
