

THE DAILY EXAMINER.

JUNE 15, 1891.

Canada's Progress.

SIR CHARLES TUPPER contributes an excellent article to the Contemporary Review for May, dealing with the progress made by Canada since the coming into power of the Liberal-Conservative administration in 1878.

"In 1878 Canada had 6,143 miles of railway; in 1890 she had 13,988. "In 1878 Canada employed 23,102,551 tons of shipping in the coasting trade, and in the transport of her imports and exports by sea and on the great lakes; in 1890 Canada, in the same service, employed 41,243,215 tons of shipping.

"In 1878 the deposits in the chartered banks in the Dominion were \$88,995,126; in 1890 they amounted to \$197,895,452.

"In 1878 the money orders received and sent out by the Money Order Branch of the Post Office Department amounted to \$7,130,000; in 1890 they amounted to \$11,907,862.

"In 1878 the business of the country required a note circulation of \$29,786,805; in 1890 it required a note circulation of \$47,417,971.

"In 1878 the 4 per cent bonds of Canada were six below par; the quotation for January, 1891, shows that they were on that date 9 above par.

"In 1878 the production of coal in Canada was 1,152,873 tons; in 1890 it was nearly 3,000,000 tons.

"In 1878 the value of exported Canadian made cheese was \$3,997,521; and during the whole period of liberal rule this important industry had stood still.

"In 1890, the value of exported cheese was \$9,372,212; the highest in any year, and greater than that of the United States, as it has been for three years past.

"In 1878, the exports of cattle amounted to \$1,152,334, and of sheep, to \$699,337; in 1890, the exports of cattle were \$6,149,418, and of sheep, \$1,234,347.

"In 1878, the exports of manufactures of wood, including sawn lumber, staves, shingles, box shooks, etc., were \$13,908,629 in value; in 1890, these exports were valued at \$20,659,348.

"In 1878, the export of home manufactures, including manufactures of wood as above, were \$18,182,647; in 1890, they were \$25,530,003.

"The extent to which the National Policy developed the manufactures of the country is partly seen in the fact that the import of raw material for manufacturing purposes in 1879 was \$5,342,912; and that in 1890 it had risen to over \$16,000,000."

These figures are all taken from official sources and may, therefore, be relied upon as correct. They show that during the period under consideration Canada has made substantial progress and is still prospering. Sir Charles has certainly done Canada a great service in thus directing attention to her almost marvellous advancement.

The final returns from Algoma give Macdonnell, Conservative, a majority of 448. The Conservative majority in Algoma at the last election was only 18.

Personal.

Sir George Stephen's new title in full, as chosen by himself, is "Lord Mount Stephen, of Mount Stephen, Alberta and Dufftown, Scotland."

Mr. W. H. Newsom, of Toronto, is on one of his regular annual business trips to the Province. He arrived on Saturday evening.

AN EXPLANATION.—Owing to a mistake made by our shipper this spring in sending us an inferior grade of green coffee our 40-cent coffee the past few weeks has not been up to its usual flavor and strength, but having just received another supply of pure Mocha and Java, we can now guarantee to give our customers the same satisfaction in this line of goods as we have done for many years past.—Beer & Goff.

BIG FAILURE IN NEW YORK.—The London and Liverpool Clothing Co., 86 and 88 Bowery, and Mack & Co., clothing dealers, 463 Broadway, failed last week. Both concerns are owned by Isidor Rosenheim and Isaac S. Mack. The firm claimed a capital of about \$100,000 and carried an average stock of about \$200,000 in the Bowery store, where the sales amounted to about \$500,000 a year.

THE LYCEUM.—Mr. Edward K. Hood, the great elocutionist, is travelling for the Redpath Concert Company. Charlottetown will have a chance to hear him on the 22nd inst. The following notice refers to his readings in Toronto some weeks ago: Mr. Hood is a public reader of very high order of talent—as an elocutionist he is almost perfect. His voice is clear and facile; his memory seems to be capacious and unerring, and his facial expressions are inimitable.—Toronto (Ont.) Grip.

CALEDONIAN CLUB.—At their meeting on Saturday evening, the Caledonian Club of P. E. Island, through their Chief—the Honorable Senator Andrew A. Macdonald, presented Lady Macdonald with feelings of sorrow, the great regret which they in common with Canadians of all denominations and nationalities feel, on receiving the sad tidings of the death of Sir John A. Macdonald, premier of Canada. The great chieftain's name for nearly half a century has been closely identified with the country which he loved so well and served so faithfully. His devotion and patriotism, manifested in her development and consolidation, will for all time occupy a prominent place in the history of Canada. With profound respect, they desire to convey to the bereaved widow of the departed statesman, their heartfelt sympathy, in this hour of her great grief and sorrow.

Christie's Soda Biscuits and 1 and 2 pound Fruit Cakes just received at Beer & Goff's. jels 3i

Presbyterian General Assembly.

WHAT WAS DONE AT KINGSTON LAST WEEK.

The Presbyterian General Assembly met at Kingston, Ont., at ten o'clock on Thursday morning; but after passing a resolution expressing sympathy with Lady Macdonald and her family in their bereavement, the Assembly adjourned until the evening to give members an opportunity of attending Sir John's funeral.

At the evening session, Rev. John McMillan of Halifax, presented the home mission report of the eastern section. The facts presented were highly encouraging. Within five years the contributions had increased nearly three-fold, from \$4,000 to \$11,000. The contributions for missions in Manitoba and the Northwest were over \$3,000.

Rev. P. M. Morrison presented the augmentation report, showing the prosperous and hopeful condition of the fund. Four aid receiving congregations have become self-sustaining. The \$9000 asked from the congregations have been given, being \$1000 over the previous year. Fifty-six congregations were aided. More new congregations are coming on the fund that are becoming self-sustaining. Great improvement is reported in all congregations.

Dr. Cochran presented the report of the western section. The number of fields is 306; preaching stations, 880; families, 10,200; amount paid for stations, \$63,000; paid by stations, \$45,000. The total receipts of the home mission, west, is \$121,000; east, \$21,000. Total over the whole church \$143,000. The augmentation fund of the western section is less successful than in the east. The indebtedness of the western section is only \$1,400.

At the morning session on Friday it was proposed to wipe out the deficit in the augmentation fund by reducing the grants to congregations by \$31 to \$59 each. The fund is short \$4,287.

The moderator was instructed to prepare a brief address to be read in all the congregations of the church and widely circulated by the Presbyterians, setting forth the great importance of the augmentation fund as a necessary part of the work of the church, and entitled to the hearty support of all its congregations.

In the afternoon it was decided to give Rev. Mr. Finlay, Superintendent of missions in Muskoka and Algoma, an increase of \$200 per year, making it \$1,400.

At the evening session reports of the foreign mission fund, eastern section, showed that the receipts were \$28,553.22; of the western division, \$86,972. The expenditure of the eastern section was \$34,364; of the western section \$87,195.

The Rifle.

INTER-CITY TELEGRAPH MATCH—THE HOME TEAM'S SCORE.

The Inter-City Telegraph Match was shot on Saturday. Each team was made up of fifteen men. The Martini rifle was used, and the ranges were 200, 500 and 600 yards, seven shots at each range. The teams competing represented Halifax, Charlottetown, St. John, Fredericton, St. Stephen, Quebec, St. John's (P. Q.), Windsor Mills, Montreal, Hamilton, London, Kingston, Toronto, Winnipeg, Vancouver and other centres. The score of the Charlottetown team follows:—

Table with 2 columns: Name and Points. Q M S Longworth 93, Capt H M Davison 91, Capt J A Longworth 90, Sapper H Anderson 85, Sapper M Davison 85, Sergt H Hooper 83, Capt W A Weeks 82, Capt J Henderson 82, Sergt-Major Grey 80, Sergt Connolly 79, Capt D Stewart 78, Sergt Bertigan 75, Sapper S C Moore 72, Sapper O N Baird 66, Lieut F W L Moore 58.

Excursion to Pictou.

A PLEASANT TRIP—HOW THE EXCURSIONISTS ENJOYED THEMSELVES.

The last of the excursions to Pictou by the Steam Navigation Company's steamer Northumberland took place on Saturday. Owing to the wet morning, not so many excursionists went as had intended, but those who did go were well satisfied with the trip. The steamer left Charlottetown at twenty minutes to 8, and in three hours afterwards the party were safely landed at Pictou after an exceedingly pleasant trip. Owing to the rain, the amusements on the way over were almost entirely confined to the saloon, where the piano was brought into use by several who fully understood how to bring forth its most melodious strains. The weather cleared up shortly after the steamer's arrival at Pictou and several hours were spent enjoying what is to be seen around the quaint old town. The school children and some of the younger teachers were rather amused at the old market house and surprised to learn that its exact counterpart adorned the Market Square, Charlotte-town, but were shocked to learn that during the Prince of Wales' visit here many years ago, the authorities deemed it prudent for the sake of the city to ever it with spruce trees. The Acadia nursery was called at, and every attention was shown our visitors by the enterprising proprietor, who by the way, is very enjoyable, and the sun shining brightly, made everything bright and cheerful. The school children romped around and perhaps did a little flirting, notwithstanding that the eyes of their teachers were upon them. The teachers, however, had their own to attend to. The return trip was made in three hours and a few minutes. It is superfluous to say that Captain Cameron did all in his power to make the excursion pleasant, but it may be pleasing to him to know that he was successful.

RAVAGES OF THE GRIP.—It is said that there have been no less than fifty deaths from a gripe at the Magdalen Islands since the disease broke out there.

IN MEMORIAM.—Mrs. Lafferty, of this city, has erected a very nice cap monument next over the grave of her late husband, Patrick Lafferty. The monument was the work of E. F. Purdy, Esq., upon whom it reflects much credit.

K. D. C. Cures Dyspepsia.

Two Sudden Deaths.

MR. JAMES TANTON AND MRS. JAMES PHILLIPS SUDDENLY CALLED AWAY.

Mr. James Tanton, of the Back Road, Summerside, retired to rest last night at the usual hour and in his usual health. During the night Mrs. Tanton was roused from her slumber by the trembling of her husband, and taking hold of his arm to shake him she found it quite limp. Becoming alarmed, she got out of bed and lighted the lamp, only to find that her husband was dying. Mr. Tanton passed away in the course of a few minutes, leaving his wife terribly stricken at his sudden death. Mr. Tanton was an elderly man, and was well-known and highly respected in the community in which he lived.

Mrs. James Phillips, of Lot 4, had paralytic stroke on Saturday, and passed away almost immediately.

Off to Greenland.

AN ARCTIC EXPLORING PARTY PUTS INTO NORTH SYDNEY.

The Arctic exploring steamer Kite with Lieut. Peary's party, who are to discover the northern border of Greenland, now supposed to be near the pole, was at North Sydney on the 12th inst., and left for Disco, Greenland, next morning. On reaching Greenland, the party will divide, Lieut. Peary's people wintering at Whale Sound and proceeding north next spring, and the others representing the Academy of Natural Science, to explore the Greenland coast as far north as the 77th parallel. The most interesting person on board is Mrs. Peary, a handsome woman of twenty-six, who accompanies her husband. Fifteen months will be taken by this frigid trip, and during that time she will remain at the winter quarters for three months. Next summer she will be there in company only of her negro servant, who is not likely, however, to stand the climate, as he already shivers night and day, and his jaws so chatter with the cold that his teeth have become loosened. Peary explored Greenland five years ago, and his theory is that the interior of Greenland, covered by an ice cap one mile thick in places, is quite smooth back from the coast and affords an easy means of reaching the extreme north by sledges. He believes 20 miles per day can be made without trouble. Ample provisions are being taken and it is expected to take up the caches left by Nares in 1874. The Kite's company number sixteen. Alex. C. Kenealy represents the New York Herald on the trip.

Boston Markets.

An official circular of the 11th, at hand this morning, says: Receipts of potatoes for the past six days, 64,000 bush. Receipts of cheneauges have been quite liberal, but other kinds of old stock are pretty well cleared up. Choice hard Hebrons, Dakota Red, Burbanks, etc., are bringing full former prices. Cheneauges have advanced to 95 cents and are in steady demand.

The egg market ruled steady until Monday, when under the heavy receipts it began to weaken. Since then the offerings have been large, weather warm and demand slack. Prices have declined to 16c for best western. P. E. Island, N S and N E close dull at 17c. The few strictly extra eastern received bring 18c.

There has been but very little change in the condition of the fish market during the past week. Prices are still ruling high and trade is quiet on all lines.

M. Eiffel, the daring civil engineer who conceived the tower in Paris which bears his name, lives up on the Jungfrau in the Swiss Alps. He has just obtained permission to build a railroad up the mountains to his very dwelling.

Mortgage Sale.

To be sold by Public Auction, on FRIDAY, the Seventeenth day of July, A. D. 1891, at the hour of Twelve o'clock, noon, in front of the Court House in Charlottetown:—

All that tract, piece or parcel of land, situate, lying and being on Lot or Township Number Forty-two, in King's County, in Prince Edward Island, bounded and described as follows: that is to say:—Commencing at a stake set in the south-west angle of fifty acres of land in possession of James Coffin; thence, according to the magnetic meridian of the year 1764, west to the south-east angle of land in possession of John McInnes; thence north twenty-five degrees west along said John McInnes's east side line to land in possession of Donald McDonald; thence east to the north-west angle of aforesaid James Coffin's land; thence south twenty-five degrees east along said James Coffin's west side line to the place of commencement, containing ninety acres of land, a little more or less, and is thus described in a deed from the Commissioner of Public Lands to Thomas Heath Haviland, bearing date the 23rd day of August, A. D. 1889, and is also thus described in a deed from the said Thomas Heath Haviland and wife to the mortgagor, bearing date the 15th day of April, A. D. 1889, excepting and reserving out of the said ninety acres of land all such parts or portions thereof as have been appropriated for railway purposes and public roads and highways.

The above sale is made under and by virtue of a power of sale contained in an Indenture of Mortgage bearing date the Twentieth day of April, A. D. 1889, and made between Catherine A. McPhee of the one part, and Lelia Matilda Mackieson of the other part.

For further particulars apply at the office of Messrs. Macneill & Macdonald, Solicitors, etc., Charlottetown.

Dated this 13th day of June, A. D. 1891.
