PRINCE EDWARD ISLAND.

THE Cunard Atlantic Steamers having commenced plying between Liverpool, England, and Halifax, Nova Scotia, a new era is formed in the History of the North American Colonies. This expeditious mode of conveyance will, doubtless, bring to their shores a number of individuals in search of health-ful and fertile locations; and the Advertiser, therefore, solicits such persons, having agricultural views, to visit Prince Edward Island, so justly styled by writers "*The Granary of British North America.*" It is situated in the Gulph of St. Lawrence, and is onlytwo days' travel by Coach and Steamboat from Halifax, N. S. This Colony, with respect to salubrity of climate, fertility of soil, and excellent waters, is second to few, if any, in the British Dominions. The capitalist who determines on emigrating, may here purchase wilderness lands from 15s. to 25s. per acre; or improved Farms, in different sections of the Island, at from £2 to £6 per acre, according to situation, and the value of the Buildings erected upon the property. The soil of this Island produces nearly all kinds of grain, hay and vegetables; and cattle, as well as agricultural implements, suitable to the Colony, can be obtained at moderate prices. There are twelve Agricultural Societies, established within the last few years, actively employed in introducing from different countries the most improved breeds of Live Stock, Agricultural Implements, &c. suitable for the farmer.

To the Emigrant, even though but a small capitalist, Prince Edward Island offers many advantages:—First, its general prosperity, which is sufficiently proved by the increase of its exports, and its steadily improving revenue. Second, a healthy climate. Third, a plentiful supply of good water throughout the whole Island. Fourth, the fertility of the soil, and its freedom from all taxes, burthensome to the Settler. Fifth, the convenience of settlement, whereby the ruinous expenses which are sometimes incurred, by having to travel hundreds of miles, after landing, to a place of location, are almost totally avoided. Sixth, a certain remuneration for the labours of the Agriculturist, by a sure market, and a fair price, for all the surplus produce of his farm. Seventh, the labourer readily meets with employment, and receives liberal wages. Eighth, to the British Emigrant it offers the enjoyment of the benefits to be derived from the laws, language, customs and manners of his native land; and he preserves in himself an identity of interest with that of the parent state. Ninth, Prince Edward Island *is now only thirteen days' travel, by Cunard's line of Atlantic Steamers, from England;* and, if a Colony affording regular opportunities of speedy intercourse with the mother country, and possessing the advantages before enumerated, be desirable, the Advertiser, who has spent twenty years in the Island, thinks he may safely venture to invite such individuals as have resolved, or shall determine to emigrate, to pay it a visit; and should they be induced to establish themselves and families here, in preference to a foreign state, they will have the satisfaction to know that their posterity will be scions of the British Empire.

☞ *To individuals intending to emigrate from England to Prince Edward Island, it may be well to observe, that Vessels are to be found in London, Liverpool, Bristol, Plymouth, Bideford, Newport, Gloucester, Southampton, Hull, Newcastle-upon-Tyne, Yarmouth, and all the principal ports in Britain, either direct for the Colony, or to Pictou, Nova Scotia; or Miramichi, New Brunswick: these latter ports being only a short distance from Prince Edward Island, and, between which and the Island, a Steam Boat and sailing Vessels are generally running weekly during the period of the navigation's remaining open. The charges of transit are moderate.*

For passage, application may be made to Daniel Davies, Esq., Warwick-street, London; Cannon, Miller & Co. Liverpool; J. B. Winters, Esq. Bristol; Messrs. Peake & Son, Plymouth; John Howe, Esq. Bideford; Messrs. Davids & Tapston, Newport; Phillpot & Co. Gloucester.

☞ Persons desirous of purchasing either Improved or Wilderness Lands, are respectfully solicited to apply (if by letter, post paid) to the Advertiser, at his Office, Charlottetown, Prince Edward Island.

WILLIAM DOUSE,
August 26th, 1840. Land Agent.

FOR SALE,

THE Leasehold Interest of that eligible FARM, situate at Crapaud, and at present occupied by the subscriber, comprising 144 acres of excellent Land, 50 of which are in a high state of cultivation. About 30 acres more may be mabe ready for the plough at a small expense, and the remainder is well wooded. There is an excellent Mill-site on the Farm; the shore furnishes a supply of sea manure, and Lime may be obtained at a moderate rate from a Kiln adjoining the premises. It has a frost-proof cellar underneath, and a never-failing well of water at the door.

MOFFAT'S

VEGETABLE LIFE MEDICINES.

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor. In many hundred certified cases which have been made public, and inalmost every species of disease to which the human frame is liable, the happy effects of Moffat's Life Pills and Phenix Bitters have been gratefully and publicly acknowledged by all persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The Life Medicines recommend themselves in diseases of every form and description. The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling around them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrhœa, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death: and hence the prejudice of these well informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red colour from the agency of the liver and the lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Illtemper, Anxiety, Langour and Melancholy, Costiveness, Diarrhœa, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scurvy, Ulcers, Inveterate Sores, Scorbutic Eruptions and Bad Complexions, Eruptive complaints, sallow, cloudy and other disagreeable complexions, Salt Rheum, Erysipelas, common Colds and Influenza, and various other complaints which afflict the human frame. In Fever and Ague, particularly, the Life Medicines have been most eminently successful—so much so, that in the Fever and Ague Districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is, to be particular in taking the Life Medicines strictly according to the directions. It is not by a Newspaper notice, or by any thing that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial.
