The young friends of Miss Bertha McCarthy will be sorry to hear she is confined to her bed with an attack of the flu.

Miss Teresa O'Brien has arrived home from Notre Dame Convent to spend the summer holidays with her parents, Mr. and Mrs. W. A. O'Brien.

Farmers Find Silage Is Cutting Production Costs

The savings in feeding cost due to the high price of concentrate feeds has induced many farmers in this Province to turn to silage as a means of reducing costs. A relatively new venture here, little being produced before 1950, it is rapidly gaining converts among the farmers.

Steps have been taken by both the Department of Agriculture and the Farm Improvement Service Division of the Department of Industry and Natural Resources to demonstrate the value of grass silage.

During the past winter, some 20 trench silos were in operation in the Province, the majority of which had been filled with clover-straight grass. The amount of silage stored by the individual farmers ranged from 30 to 100 tons with most of the silos being filled with unchopped material.

The majority of it came out in from good to excellent condition. Most of it was fed to cattle during the winter, particularly to milch cows, with young cattle, swine and sheep receiving some as part of the daily ration.

Girl Guide News

SOURIS GUIDES

On Wednesday, July 2nd, the Field Secretary visited Souris Guides. She enrolled Peggy Campbell and presented the following badges:

SECOND CLASS: Jeanette Peters, Florence Bushey, Dorothy Poole, Helen MacPhee, Maureen Wood, Mary McLean, Helen MacDonald, Belle Roach, Irene Creamer, Margaret Pierce, Betty McIntosh, Ethel McEwen, Katherine MacDonald, Joyce Jarvis, Rose McAulay, Anne McIntyre, Joyce Cheverie, Jean McIntyre, Margaret MacLean, Swimmer: Jeanette Peters.

Such an enthusiastic group of Guides they have been more than busy preparing for their second class, and much credit is due their leaders, the Misses Noonan, Foley, MacKay and MacPhee, for their untiring efforts.

One Saturday not long ago, the Guides started out on a hike. They walked four miles each way. While some rolled the turf and built the fires, the others prepared the vegetables for the stew.

For their own Signalling flags and furnishings for their Patrol Corners.

PARKDALE GUIDES The following Guides were presented with their Second Class Badges on Monday, June 30th: Marlene Gregory, Ruth Waters, Gwen O'Brien, and Brenda MacKay.

RAISIN DAY The Provincial Executive wishes to thank all those who so generously assisted financially to make the Annual Girl Guide Raisin Day such a success. Also, special thanks is extended by the Finance Committee to the splendid workers who assisted — Provincial Executive, Local Associations, Commissioners, Guides, Guides, Brownies and friends of Guiding who indeed did, as the Brownies say, "Lend a Hand."

hall on June 19th was a big success and well attended, and another in the Sinnott-Road school on June 20th was well attended also. Proceeds were for the school fund.

What is believed to be a record for long years of service has been set here by the two men who take up the collections in the Church of St. Laurence. They are Mr. Fred Sinnott and Mr. Peter Dunphy who started their task back in 1915 and have taken up the collections for thirty seven years without a break.

Life-long residents, they have seen thousands of strangers come and go. Mr. Sinnott says they have gathered thousands and thousands of dollars during the years. The monster bell which is in the tower of the church was in a building called the bell house when they started their church collections, and it was rung at noon each day and again at six p. m. and could be heard for miles. Scores waited to hear it to set their clocks. This old bell, worth hundreds of dollars, weighs more than two ton.

Most of the farmers found they could increase production and yield only half as much home grown grain with no concentrate. Most prefer to feed silage once a day, but no roots. The elimination of the growing and feeding of roots means much labor saved.

It has been noted that the yield of green material per acre shows a great variation. Some yields ranged as high as 12 tons per acre while others were down to 5 tons.

It is known that ensiling grass and clover preserves nutrients usually lost in hay making and another important factor is that it is possible to harvest the crop for silage when weather conditions would stop hay making. It has also been reported that on grass silage health of animals is better throughout the Maritimes than on previous feeding systems.

But the savings feature is one which all farmers appreciate with some stating they had savings in concentrate feeds as high as 30 per cent.

Farmers are advised to have constructed a trench silo suitable for the proper storage of grass silage for two to three years. The best time to cut for highest yield of red clover-timothy mixture is when the clover is starting to bloom, generally around June 15.

WHIM ROAD W. M. S.

The Whim Road W. M. S. of Montague, United Church, held their meeting at the home of Mrs. George Clary on Friday night, June 19th. Eight members were present and the president, Mrs. Cecil Campbell opened the meeting and led the devotional period.

Mrs. Colin MacDonald was present and attended to her secretarial duties; the theme for the evening was "meditation on community friendship." The president gave an interesting reading on this subject.

Mrs. George Clary was in charge of the singing, and the first hymn sung was "Jesus Saviour Pilot Me," followed by prayer by the president. A reading on "growing in Christian parenthood" was given by Mrs. Leslie Stuart.

The portion of Scripture read by Mrs. Campbell was taken from 2 cor. chapter 5 "all the way our saviour leads me" and "He leadeth me" followed the Scripture reading.

The minutes of the previous meeting were read by the secretary, and roll call was answered by payment of dues and a verse of Scripture.

Mrs. George Clary read a portion from the study book "this is our faith" written by Prof. John Dord and the concluding hymn sung was "Blest be the tie that binds." Meeting adjourned with prayer.

A social chat was enjoyed by all while the hostess served a dainty lunch, assisted by Mrs. Webb Nicholson and Mrs. Colin MacDonald.

WESTERN DUCK

The buffalo-head is a small duck about the size of a teal, which nests in hollow trees in Western Canada.

LONDON—(CP)—The Air Ministry has announced that personnel in British Airfields must be capable of defence against ground and paratroop attacks in any future war. The plan includes proficiency tests for every officer and airman.

NETHERTON, England—(CP)—Letters in this Shropshire village are being handed direct to the postman instead of being put in the mailbox. The box is being left in charge of a bird that built its nest there until its family has been reared.
