Tribal Chiefs Back Smith in S. Rhodesia

SALISBURY, South Rhodesia (Reuters)—Prime Minister Ian Smith's white minority government has received unanimous backing from 600 African tribal chiefs and headmen to have independence from Britain under the present constitution.

The minister of internal affairs, William Harrow, who presided at closing session of the six-day secret session, received no reply when he asked if anyone would like to speak against the decision to support independence.

The colorful indaba (meeting) was intended to demonstrate the white government has the support of the nearly 4,000,000 Africans for its independence policy. A referendum of voters—most of whom are among the 200,000 white Rhodesians—was set for Nov. 5.

The Royal Rhodesian Air Force flew over the indaba and dropped paratroops Saturday—as entertainment for the chiefs—a spokesman said.

CNR Clears St. John's Yard At Picketing Is Threatened

By DAVE BUTLER
ST. JOHN'S, Nfld. (CP)—St. John's truckers are working overtime late Tuesday in an attempt to clear freight from the CNR yard as striking longshoremen considered moving picket lines onto CNR premises.

The National Truckers Association earlier voted to respect picket lines of the longshoremen's Protective Union (Ind.) which struck Monday, protesting an industrial injury report.

The action is actually a re-statement of a 60-day strike that tied up the port last spring. The longshoremen's agreement with the shipper, represented by the St. John's Employers Association ran out last fall. No agreement has been reached on a new pact.

The union opposes moves by the shippers to introduce automation to the port.

"They are not members of the association and are not affected by the strike," a spokesman said. "CNR DECLINED"

The CNR said it declined to comment on the picketing and a spokesman said it would not picket the rail yards.

They fled, fearing they might be struck with night sticks, but were arrested by constables Pierre Lachance and Jack-Yves Perron in a courtyard behind a downtown store.

The students, however, said they were not disturbing the peace or blocking traffic.
