

### STOLEN CAR DUMPED IN HARBOR

A 1969 Meteor, owned by Robert Nelson, 13 Spring Park Road, is seen being hoisted from the water yesterday at the Railway wharf by a tow-truck from Murphy's Service Station. The owner did not know his car was stolen until told by City Police it was in the harbor. Harold Harrington, quartermaster on the freighter Kingdoc, which is tied up at the wharf, saw the car being run into the water at approximately 3.05 Friday morning. Two persons are believed involved. (See story on page 5.)

## Final Okay On Auto Pact Seen Probable Next Week

By ARCH MACKENZIE  
WASHINGTON (CP) — Final congressional approval for the autoproduction pact between Canada and the United States is probable next week following a Senate-House of Representatives conference Friday. The two chambers worked out differences in separate versions of the bill, approved Thursday by the Senate. The amendments were not major but the joint session resulted in erasing two changes tacked on by the Senate, and gave back to President Johnson more authority for future action under the agreement. The agreement left the president his original powers to extend the agreement's provisions to other nations. Few if any are expected to apply. The amendment had written in congressional roles in such extensions. The second amendment adopted Thursday would have required Congress to approve if Canada after 1968 asked Canadian subsidiaries of General Motors, Ford, Chrysler or American Motors to boost their Canadian production beyond level.

## Caouette Expects 'Control' In Next Gov't At Ottawa

By REMY d'ANJOU  
QUEBEC (CP) — Creditiste Leader Real Caouette predicted Friday that no party will get a clear-cut majority in the Nov. 8 federal election and that his party will hold the balance of power. Mr. Caouette told a press conference that because of this balance of power the Creditistes will be able to impose their will on the aspiring Canadian prime minister. "He who wants to become prime minister will have to sign an agreement with us to the effect that, in the first speech from the Throne, he will announce an increase in family allowance—according to the cost of living index—a reduction in taxes, an increase in old age pensions to \$100 a month with a later objective of \$125 and the granting of interest-free loans to municipalities and provinces." Mr. Caouette was in Quebec City to attend a day-long closed meeting of his party's organizers. Aim of the meeting is to map out party strategy for the forthcoming electoral campaign.

# 324 Prince Fishermen Seek Government Help

## ONE OF BODYGUARD LED COUP

## Sukarno Backers Down Uprising In Indonesia

From Reuters-AP  
KUALA LUMPUR (CP) — President Sukarno is still head of state in Indonesia, according to a broadcast over Jakarta Radio monitored in this Malaysian capital today. The broadcast was made by Brig-Gen. Mohammed Sabur, a senior officer of the guard at Sukarno's palace. Brig-Gen. Suharto, whose forces are believed to have crushed the coup led by Lt.-Col. Untung, one of the president's bodyguards, also went on the air to say that the president and the defence minister, Lt.-Gen. Abdul Haris Nasution, are safe and in good health. He said Col. Untung and two other officers have been dishonorably discharged from the army and strict disciplinary action will be taken against them. In a separate broadcast, Rear-Admiral R. M. Martadinata said the navy is co-operating with the army against the coup leaders. No mention was made of the air force. Gen. Suharto, in his broadcast, said the organizers of the coup had kidnapped six officers and forced them to make announcements and to take over the telecommunication facilities. He said the kidnapped officers included the army chief of staff, Maj-Gen. Ahmad Yani. There was no confirmation by the Jakarta radio of earlier reports that Gen. Yani and another senior officer, Gen. Panjaitan, are dead. Other reports have said Gen. Nasution and his daughter were both wounded in exchanges of gunfire. (Continued on page 3 Col. 1)

### Seal Killing Report Issued

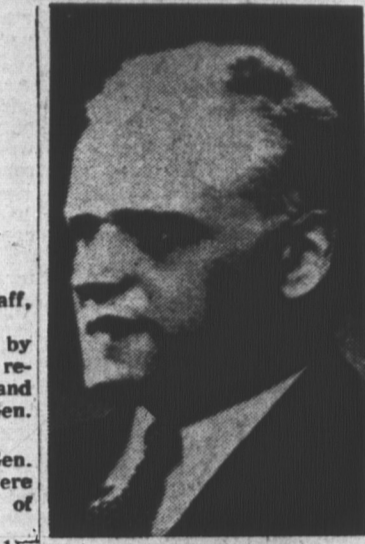

MONTREAL (CP)—There is room for greater improvement in methods of killing seals in the Gulf of St. Lawrence, a report to the Canadian Federation of Humane Societies said Friday. New seal-hunting regulations imposed this year by the federal fisheries department have brought some improvement but not enough, the report said. Pending other and better methods of killing baby seals, clubbing should be the only way, the report recommended. The club should be wooden, 48 inches in length and four pounds in weight. A new plastic fragmentation bullet should be tested as one method of killing baby seals. Small-calibre rifles should not be used for killing adult seals, only should hard-nosed bullets of any calibre be used. The report was prepared by Jacques Vallee, executive secretary of the Canadian SPCA of Montreal, and Brian Davies of the SPCA in Fredericton. The federation, at its annual meeting Friday, received the report and adopted its recommendations.

### Two Killed In Accident

FREDERICTON (CP) — Sherman M. Colford, about 20, of Blissfield, N.B. and Frederick Coyle 53, of nearby New Maryland were killed and a Moncton couple injured Friday in a two-car collision at Island View, about 10 miles from here. Mr. and Mrs. Pierre Lacroix of Moncton were reported in satisfactory condition in hospital here with multiple injuries. The two victims were driving in a small foreign car which collided head-on with the Lacroix vehicle in heavy rain. The accident occurred on a straight stretch of Trans-Canada Highway. The new school will be a senior high school for grades 11 and 12. The present building will become a junior high school, taking grades 9 and 10. School board members at the meeting were William M. Jay, the chairman; Dr. J.A. Doiron; Dr. James L. Saunders; and David E. Morrison. Also at the meeting were Town Councillor Herbert Schurman; Francis MacNeill, supervisor of schools; Alfred J. Hennessy, the architect; and Glen Cowan, the engineer from Moncton who drew up the plumbing, heating, and electrical plans.

Mrs. John Diefenbaker decided her husband's old gray fedora was in need of replacement and set out in Toronto Friday to buy a new one. With friend Mrs. W.R. Brunel, she looks over the new model. (CP Wirephoto)

### IS HONORED

Lt. Col. Edwin A. Baker, 72, co-founded of the Canadian National Institute for the Blind, was honored at a luncheon in Toronto. Luncheon chairman Judge F. G. J. McDonagh described Col. Baker as "one of Canada's immortals." Col. Baker was presented with the book "No Compromise" by Marjorie Wilkins Campbell, the life story of Col. Baker and the CNIB. (CP Wirephoto)

### 13 Persons Die From Bad Flour

PANAMA (AP)—Medical authorities said Friday at least 13 persons in the border area between Panama and Costa Rica have died this week from contaminated pancake flour. They said the flour became contaminated by a toxic chemical fertilizer while in the hold of a ship unloading in Costa Rica.

## Karachi Altered For Indian Aid

By REUTERS  
All street lights were turned off and key areas blacked-out in Karachi Friday night, following reports of renewed fighting between Indian and Pakistani forces. A Pakistani defence ministry spokesman in Rawalpindi, Pakistan's new capital, said Indian troops have launched a strong attack on Pakistani positions in the Chamb sector of Kashmir. He said the fighting may spread to other areas. The Karachi deputy commissioner, in a broadcast that interrupted a regular Radio Pakistan program, announced the partial blackout and spoke of the possibility of Indian air attacks. An official announcement in Lahore said civil defence exercises will be held there today. Lahore, Pakistan's second largest city, after Karachi, is only 20 miles from the Indian frontier. Maj-Gen. Bruce MacDonald, Canadian chief of the new United Nations observer mission whose job is to keep the scrapping armies apart, reported the situation along the UN ceasefire line is tense and tricky. TO JOIN FORCES  
Macdonald's 100 UN observers and the long-established UN Kashmir team will link forces in trying to make the ceasefire effective. Officials in Rawalpindi claimed Indian troops violated the ceasefire arranged by the United Nations Sept. 23 and attacked Pakistani positions Thursday night. They said the fighting was still going on Friday. The premiers are John Robarts of Ontario, Duff Roblin of Manitoba and Robert Stanfield of Nova Scotia. Hon. Andrew MacRae, acting premier of Prince Edward Island, also is attending. The opposition leader at his press conference again criticized the Liberal government for failing to protect consumers when it negotiated the United States-Canada auto trade agreement. Asked how he would protect consumers, Mr. Diefenbaker replied: "A prime minister is listened to when he places his view before the country. "I am sure the automobile manufacturers would be the first to listen to the need for fairness being done to consumers." To Industry Minister Drury's charge that this would involve price controls and a first step towards socialism, he said "there is no socialism in ensuring the benefits should be passed to the Canadian people."

## Ottawa Valley Farmers Facing Skinny Winter

OTTAWA (CP)—For all the Texas cloud wringers, Manitoba tanker trucks, Sudan - sorghum seed and government subsidies, farmers in the Ottawa Valley face a skinny winter. The worst dry spell since records were kept in 1891 has many on the ropes economically. It began in 1962 and since then, the accumulated deficit has been 45 inches. This has left wells low and vital ground moisture lower in a region where thousands of dairy and beef cattle must be kept watered. In the six-week growing season that began in mid-May, less than one inch of rain fell, stunting hay crops and leaving pastures scrubby. Beef farmers in Renfrew County began trimming herds beyond the normal limits in July, putting the money into fodder to keep the rest going. Ontario brought in Texas rainmakers in early July and the federal government ordered a fleet of irrigation trucks from Manitoba. HAY HARVEST DOWN  
But the first hay harvest was down to 10 per cent of normal in places and seldom better than 50 per cent. The late-season rains, which were above average, helped create a record-breaking corn crop. Farmers all over the valley are using it for silage. Meanwhile, the federal-provincial subsidy program provides \$30 a ton for concentrates and \$15 a ton for hay. But even with subsidies, farmers throughout the valley are reported seeking part-time jobs to help meet the financial burden. The irony of it all is that rainfall in the June-September period was two inches above normal. It all came at the wrong time. "Even with all the rainfall, the water table is still down," said Larry Taylor in Renfrew. "It will take at least three years for most of them to recover but they will do it," said W. D. Black of Ottawa. That's if the dry spell has ended.

## Most Catches Fail To Give Expenses

Lobster fisherman from Victoria to North Cape asked the Provincial government to declare lobster fishing District No. 8 a disaster area in a brief presented to Hon. Leo F. Rossiter, minister of fisheries. The brief was presented by the East Prince Fishermen's Association who said that 324 registered fishermen - boat owners in District No. 8 suffered a serious decline in income as a result of an unprecedented drop in lobster production. In their brief the Association said they feel the present, unforeseen status of the lobster and inshore fishery in general, warrants assistance from government sources, "federal and/or provincial." The brief stated that the average production per boat for the five year period 1960-64 was 7,000 pounds, approximately 2.6 times the anticipated 1965 per boat production. Approximate landings per boat up until Sept. 25 were given for seven areas as: Howard's Cove - 4,000 lbs., Skippers Pond - 3,500, Ebbsfleet - 3,400, Egmont Bay - 2,500, Cape Traverses - 2,000, Victoria - 1,500 and Summerside - 1,000. The season ends Oct. 10. The brief stated that fishermen estimate a 3,000 - pound production is needed for the average operator to cover expenses; the majority of fishermen concerned will fall below this basic production level. According to the brief, lobster production is the primary cash crop for these fishermen. Though some have been able to exploit the cod, herring, oyster fishery and Irish moss, for the most part this additional income has been negligible. The brief urged the cabinet to place this item on its agenda for the Oct. 5 meeting and asked this be followed up with a meeting of the committee that submitted the brief. The brief was signed by Donis-hee Poirier, president; Reuben Wall vice-president; Walter Sontar second vice-president and Adelard Gallant secretary - treasurer.

## Pedestrian Is Killed On Highway

A pedestrian was killed last evening on the St. Peter's Highway at Marshfield when he was struck by a car. The accident occurred about 8:30. It was raining heavily at the time. RCMP had no details and there was no identification of the body. The driver of the car stopped and reported the accident. Other sources said the victim was an elderly gentleman and that there was no identification on the body. He was found in the ditch on the north side of the St. Peter's Road. No one in the area knew the victim. The body was taken to the Prince Edward Island Hospital by MacLean's Ambulance.

## Execution Delayed

MONTREAL (CP)—Two convicted murderers sentenced to be hanged Oct. 22 have been granted a delay by Quebec Superior Court until April 23 as an appeal can be heard. Francois Schirm, 33, and Edmond Guenette, 20, were sentenced to death May 21 for their part in an Aug. 29, 1964, raid on a Montreal arms store in which two employees were killed. One of the employees was killed accidentally by a police bullet during a gunbattle between police and the five raiders.

## Bargaining Promised CS If Dief Gov't Is Elected

TORONTO (CP) — Opposition Leader Diefenbaker Friday promised immediate action by a Conservative government on collective bargaining for the federal civil service but indicated it should not include the right to strike. At a press conference held a few hours before his largest rally of the election campaign so far, Mr. Diefenbaker said action would be taken "just as soon as we assume office." "We would think that acceptance of the principle of collective bargaining (with the right of appeal being provided would deny the right to strike." He expressed hope civil servants would "accept the need for protecting the public interest." The Toronto rally—featuring a Dixieland band, a Calypso singer and three provincial premiers—marks a departure from the 1963 election when Mr. Diefenbaker held no mass meetings in the downtown area. The premiers are John Ro-
