Chili and Peru are to settle their differences by dividing Bolivia between them.

A London despatch says that 30,000 nailers in Staffordshire will strike in a few days.

Mr. Anand, who has held the post of General Immigration Agent for the Dominion for some time, has now been allowed to retire on a gratuity of £100 and three months salary.

A statue of Burns, in bronze has just been safely landed in New York by the Anchor Line steamer Anahoria. It was executed by Sir John Steel, R. S. A., of Glasgow, and is intended for the Central Park.

An order in Council has been passed granting Mr. Saadford Fleming \$45,000 for his services as chief engineer on the Pacific Railway and consulting engineer on the I. C. R., he having received no salary for acting in these capacities.

Russia has never taken a reliable census, but a St. Petersburg paper has figured out Government statistics to show a population of 64,681,000 in European Russia, with an excess of 782,000 births over the number of deaths.

The Brother of the Baroness Bardet-Coutts died a few weeks ago at his chambers in Albany, London, leaving behind him no will nor any record of his property. In his rooms were found £250,000 in £1,000 Bank of England notes. He possessed a fine house in Gloucester place and a country estate.

Captain Payne, the indomitable invader of the Indian Territory, claims that the legitimate residents of the Indian Territory—Indians and others—do not object to anything which he has done, or proposed; that he has kept himself within the law, and that the Indian office, and the authorities generally in Washington, have been misled by reports from interested parties.

There is just one thing—politics—that we have too much of. It is ruining the country fast. It is more demoralizing than bad whiskey. There is too much time given to the consideration of party politics among our people. And they allow their political sympathies to carry them away against the best and dearest interests of the country.—*H. C. New Era.*

LIKE A DONKEY.—"William, do you know why you are like a donkey?" "Like a donkey?" echoed William, opening his eyes wide, no, I don't." "Do you give it up?" "I do." "Because your better half is stubbornness itself." "That's not bad. Ha! ha! I'll give that to my wife when I get home." "My dear," he asked, as he sat down to supper, "do you know why I am like a donkey?" He waited a moment, expecting his wife to give it up, but she didn't. She looked at him somewhat commiseratingly as she answered: "I suppose because you were born so."

What is more charming than an agreeable graceful woman? Here and there we meet one who possesses the fairy-like power of enchanting all about her; sometimes she is ignorant herself of the magical influence, which is, however, for that reason only the more perfect. Her presence lights up the home; her approach is like the cheering warmth; she passes by and we are content; she stays a while and we are happy. To behold her is to live; she is the aurora with a human face. She has no need to do more than simply to be; she makes an Eden of the house; paradise breathes from her, and she communicates this delight to all without taking any greater trouble than that of existing beside them. Is not here an estimable gift.

Remedy for Hard Times.
Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple pure remedies, Hop Bitters that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.

DRIVING over a rough road last winter, one of my horses became suddenly lame—a bad sprain of the right ankle. Applied all the remedies I knew of and those suggested by horsemen, without any benefit. The horse was entirely useless for two months, and thought him permanently disabled. Giles' Linctum Iodide Ammonia took away the lameness and restored him. Dalhousie College and University.
THE MUNRO BURSARIES.

THE Winter Session of Dalhousie College will commence on WEDNESDAY, 27th October, 1880. The Matriculation Examination will begin on that day, at 10 o'clock, a.m., and classes will be opened on Monday, 1st November. Students may enter as (1) Undergraduates, with the intention of applying for a University Degree in Arts or Science at the end of their course, or (2) as General Students who do not look forward to a Degree. For the latter no Matriculation Examination is required.

The Matriculation Examinations are partly oral and partly written; the subjects for entrance into the First year of the Arts course are:

I. IN CLASSICS.—Latin Grammar, Greek Grammar, one Latin subject, one Greek subject. The following subjects are recommended:
In Latin—*Cæsar*, Gallic War, Book I.; or *Virgil*, *Aeneid*, Book III.
In Greek.—*Xenophon*, *Anabasis*, Book I.

Instead of the above, equivalents may be offered, if they be not parts of the Undergraduate course, on giving a week's notice to the Secretary of the Senate.

II. IN MATHEMATICS.—Arithmetic; Euclid's Elements of Geometry, Books I. and II.; Algebra, Simple Rules, and Simple Equations of one unknown quantity, not involving Surds.

III. IN ENGLISH.—Grammar; History of England; Geography; Composition.

The subjects for entrance into the first year of the Science Course are—
I. IN MATHEMATICS.—Same as for the First Year in Arts.
II. IN ENGLISH.—The same as for the First Year in Arts.

III. IN LATIN OR GREEK OR FRENCH:
Latin.—The subjects of the Matriculation Examination for the First Year in Arts.
German.—Grammar and Translation.
French.—Grammar and Translation.

The following Bursaries and Scholarships are offered for competition at the Matriculation Examinations:—
1.—The Munro Bursaries.

GEORGE MUNRO, Esq., the Founder of the Munro Professorship of Physics in this University, offers this year seven Bursaries for competition at the Matriculation Examination. The value of each of these Bursaries is Two Hundred Dollars yearly, with Free Class-Tickets for the first two years of the Undergraduate Course, taken consecutively; provided that the holder of Bursary gain a Certificate of Merit at the Seasonal Examinations of the first year. After these two years, the Bursaries are again to be competed for, and will be held during the third and fourth years of the Course, on terms similar to those of the preceding years.

These seven Bursaries are allotted for competition to students from the following five districts of Nova Scotia, and from New Brunswick and Prince Edward Island, one to each, viz:—

1. The Island of Cape Breton.
2. Pictou, Antigonish and Guysboro.
3. Colchester, Cumberland and Hants.
4. Halifax, Lunenburg and King's.
5. Annapolis, Digby, Yarmouth, Shelburne and Queen's.
6. New Brunswick.
7. Prince Edward Island.

Candidates must satisfy the Principal, before the week in which the Examinations are held, with respect to the districts to which they belong, and as coming from which they are entitled to compete.

Students who have already Matriculated at any College are disqualified for competition. The Bursaries will be awarded to those Students from the several districts mentioned, who make the highest total of marks at the Matriculation Examinations; but no Bursary will be awarded unless a Standard of Merit, determined by the Senate, shall be reached by the candidate.

Further information may be obtained on application to the Principal.

2.—Professors' Scholarships.

Two Scholarships, entitling to free attendance on all the Classes of the Undergraduate Courses in Arts.

The subjects of Examinations for these Scholarships this year are nearly the same as those for Matriculation in Arts at the University of Halifax, viz:—
Latin for 1880: *Cæsar*, Gallic War, Book I.; *Virgil*, *Aeneid*, Book III.
Greek for 1880: *Xenophon*, *Anabasis*, Book I. Arithmetic: the ordinary rules of Arithmetic, Vulgar and Decimal Fractions, Proportion and Interest.

Algebra: as far as Simple Equations and Surds.
Geometry: First and Second Books of Euclid.
English: Grammar, Analysis, Outline of English and Canadian History, and General Geography.

One Scholarship entitling to free attendance on all the classes of the Undergraduate courses in Science, is offered by the Professors this year for competition at the Matriculation Examination. The subjects are the same as those of the Matriculation Examination in Science.
