

*NORTHUMBERLAND FERRIES LIMITED PROUDLY PRESENTS THE*  
**M. V. PRINCE NOVA**

Shown above is the wheelhouse of the Prince Nova. Complete with the latest in navigational aids and lifesaving equipment this vessel is supreme in her field. Each engine in this modern vessel operates a controllable pitch propeller which enables the Prince Nova to turn in her own length.

A view of the modern passenger lounge to the right. Featured are large observation windows and comfortable seats on the promenade deck which has a capacity of 130. A luxurious cafeteria and complete living quarters for the crew are other outstanding features of this new ferry.

The history of Northumberland Ferries Ltd. has been marked with a concern for their passengers to be sure of the utmost in comfort and a vigilance for their safety by fully equipping their vessels with the latest in safety features. Allan V. Ferguson, president of Ferguson Industries, has termed this "the finest vessel to be built at his yards". We are sure you will agree after a visit to this outstanding vessel.
