NAUFRAGE POND.

Proposed Harbor Works There.

Pursuant to notice of a meeting of the inhabitants of Monticello, Naufrage, St. Margaret's, Clear Spring and Bear River, was held at St. Margaret's schoolhouse, on Monday the 14th inst., for the purpose of taking the preliminary step towards obtaining a survey of Naufrage Pond and vicinity, with a view of opening a harbor of refuge and one affording shipping facilities at that place.

The meeting, which was fairly representative, was called to order by appointing Mr. R. D. McDonald chairman and the undersigned secretary.

Letters were received from J. J. Hughes and A. Currie, Esq's, Souris and Alex. Robertson, Esq, Red Point, regretting their inability to attend.

Practical speeches were delivered by Messrs. Herman McPhee, James K. McDonald, Arch. C. McPhee, John O'Henley and others.

Mr. Herman McPhee stated that there was no harbor of refuge for boats or vessels between St. Peter's Bay and East Point, a distance of 35 miles and that by opening a harbor at Naufrage, which is midway between these two places, it would be an incalculable benefit not only to the inhabitants of the adjacent districts, but to the fishermen of the Maritime Provinces in general as well. He believed that it was quite feasible to open the proposed harbor. All that was necessary was to put a sufficient grant.

Mr. James K. McDonald said that before the Province entered Confederation the local Government on being memorialized for a harbor sent an engineer to make a survey, but his report was never published. About ten years ago, Mr. Brown Federal Government Engineer made a survey of the pond and vicinity, but in his published report he certainly made a mistake in stating that the depth of water in the pond was only 2½ feet, whereas it is at least 4 feet. Mr. McDonald was in favor of a new survey with a view of constructing a harbor for schooner accommodation, as such a harbor would be a great boon to the farmers in time of shipping their surplus produce. He further stated that the large grants for Souris Breakwater and other public works had militated against them in obtaining a grant for a harbor, but now as they were about reopening their claim he exhorted the people to be more persevering than they were heretofore.

Mr. Archibald C. McPhee was in perfect accord with the proposed movement and fully endorsed all that had been said in favor of its feasibility and possible benefits, and mentioned that such a harbor would afford means to the farmers not only to ship their surplus produce but also to bring in limestone to increase the productivity of their farms, besides coal and other necessities; also that it would be a great benefit to the fishing industry, and as the fishing grounds off the coast are frequented by fishermen from Nova Scotia, he believed that the matter ought to be advocated by the Federal representatives of that province as well as those of our own province.

Mr. John O'Healey, who lives in the vicinity of the pond, said that from soundings he had taken, he believed that a harbor such as they wanted would be easily opened at Naufrage and submitted the following data substantiating his opinion:—The pond is ½ mile in length and ¼ mile in width with an average depth of 4 ft, and is fed by three large streams, besides a number of small feeders; that the bottom is composed of soft mud to a depth of 10 feet which could be easily dredged. The beach separating the pond from the Gulf is about 75 yards wide, measured from ordinary high water mark and is composed of an alluvial formation consisting of 4 feet of sand overlying a stratum of mud resting on gravel. The gulf forms a cove opposite the pond which is sheltered on the western side by a headland extending seaward a distance of 300 yards. Mr. O'Healey felt confident that a survey would prove the feasibility of opening a harbor there.

On motion, it was unanimously resolved that the Minister of Public Works be petitioned for a survey of Naufrage pond and vicinity with the view of obtaining a grant for the opening of a harbor there.

After adopting a resolution to have the proceedings of the meeting published in THE EXAMINER and Patriot newspapers the meeting disposed.

HUGH MCPHEE Sec'y.
St. Margaret's, March 14, 1898.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything marvellous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All disease live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

New Shoes now opening up at R. K. Josts Stampers Corner.

The prohibition meeting in Y. M. C. A. Hall next Tuesday evening, will be an interesting one. Everybody welcome.

LOCAL AND OTHER ITEMS

THE mails arrived today at 3.15 p. m.

CHARLEY SLATE was gathered in by the police at noon to-day.

THE WEATHER.—Decreasing westerly winds, fine, little lower temperature.

FOOTBALL.—Don't forget the meeting of the proposed football and Athletic Association in the Y. M. C. A. parlors tonight at 7.30.

SKATING.—The ice at St. Dunstan's College rink is splendid. Come out tonight and have a good night's sport. A special train will leave the city at 7.30, returning at 10.30.

TENDERS.—Contractors can see plans and specifications for proposed church at Tracadie, by calling at the Bishop's palace on Monday Tuesday and Wednesday of this week.

THE STANLEY left Pictou early this morning and at noon arrived off this harbor. At 3 o'clock she was about one mile from the blockhouse trying to make her way in.

BEN HUR.—We are requested to state that the stereopticon entertainment of "Ben Hur," will be given on Easter Monday night, the 11th of April, not tonight as advertised in the morning paper. Miss Lefargey is to undertake the reading of the different parts of the story that are to be illustrated.

AN OLD AND WELL TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

ST. DUNSTAN'S CATHEDRAL.—REV. I. R. McDonald preached the fourth Lenten sermon in St. Dunstan's Cathedral yesterday. The church was filled and many could not obtain standing room. The subject was Purgatory. For over an hour the closest attention was given to the words of the preacher. Text after text from Scripture was quoted to prove the existence of a middle-place. Tertullian, St. Cyprian, and many other fathers of the church adhered firmly to this belief. The classical writers of antiquity prove that this belief was universal before the foundations of Christianity were laid. The inhabitant of the Dark Continent and the red Indian of America believe a place of Purgatory.

The preacher held that belief in a middle place was the teaching of the Christian religion and was also consistent with human reason.

PERSONAL

It is pleasing to hear that Messrs. Harry McQuaid, Fred and William Doyle, who left here for the Pacific Coast some weeks ago have all obtained positions in Vancouver.

Rev. Mr. Brown, of North River, will give an address in the Y. M. C. A. tomorrow evening, on the temperance question.

Four more of our active, energetic young men have left for the Pacific Coast. They are Albert Kennedy, William Flood, James Bateman and Finley McFadyen. The three first-mentioned young men left here in the Capes special last night, and Mr. McFadyen joined the party at Cape Traverse. On Saturday evening Mr. Flood was entertained by the Abegweit's at Carter's restaurant, and presented with an address to which he made a fitting reply.

We have been in this stand for over 22 years, but now we are going to move. Before doing so, we will offer our large stock of crockery and glassware at a bargain wholesale and retail at the cheap crockery store.—W. P. Colwill.

The fruit business of Southern Italy and Sicily is suffering from unusual prostration, a result attributed to the Dingley Tariff.

Postum Cereal

is a nourishing, palatable and fragrant food drink.

It is composed entirely of cereals, and is used by those who cannot drink coffee, on account of its bad after effects.

It closely resembles coffee, both in taste and smell, and has a pleasing taste which increases with age; but its chief value is in the fact that it gives enduring strength to brain, nerves and muscles.

It is prepared in the same manner as coffee. Call at our stores and get a circular explaining all about it.

Price for large (20 oz) package.
