CAMERA FOR SALE

Cost \$10.00, two months in use, as good as new, will be sold for \$5.00.
For sale at this office.

WELCOMING FRESH CARES

"As far as fresh cares are concerned," said a man of mature years, "as I grow older I rather welcome them. They blot out the old cares completely and so show how unsubstantial they were, and I know that in due course these new cares will be supplanted by others and will as completely give way to them. Thus I am constantly reminded that our cares really don't amount to much, except as we imagine them great, and I expect to see the day when I shall give but scanty room to them and not be disturbed by them at all."—New York Sun.

Blind Reading.

By a system of numeral type invented by Rev. W. H. Murray of Peking, originally a Scotch workman, the blind people of China are now taught to read and write in less than three months, and this in spite of the fact that there are 408 distinct sounds in the Chinese language. By a special adaptation of this system the blind are now actually teaching sighted pupils to read.

In some of the European art galleries the dust is removed from the paintings and statuary by means of an air pump, a jet of air being thrown with great force against the article which needs dusting.

King is the most ancient of titles. It, or its equivalent, is found in every known language.

Rats avoid a house wherein a guinea pig is permitted to roam at will.

The average clergyman is not a healthy man. There are many reasons that contribute to make him delicate. He leads a sedentary life. He doesn't take sufficient exercise. Just the same he is a hard-working man. He takes too much trouble about other people's troubles to trouble much about his own. He thinks too much about other sick people to look after his own health. The result is that the hard-working clergyman becomes a semi-invalid early in life.

There is no necessity for this. A clergyman adds nothing to his usefulness, but greatly detracts from it, by neglecting his health. If a man, be he clergyman or layman, will resort to the right remedy just as soon as he feels out of sorts, and knows that he is a little bilious, or that his liver is torpid, or his digestion is out of order, he will remain healthy and robust and add much to his usefulness and many years to his life. Dr. Pierce's Golden Medical Discovery restores the appetite, makes digestion and assimilation perfect, invigorates the liver, purifies the blood and tones the nerves. It is the greatest of all known blood-makers and flesh-builders. It cures 98 per cent. of all cases of consumption and diseases of the air passages. Thousands who were given up by the doctors and had lost all hope have testified to their complete recovery under this marvelous medicine. It is the discovery of an eminent and skillful specialist, Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. All medicine dealers sell it.

"Eight years ago I was taken with what my doctor called liver complaint," writes N. E. Kendrick, Esq., of Campton, Grafton Co., New Hampshire. "I began doctoring for it, taking sarsaparilla and other medicines. Last February I had a bilious attack, and I could not sit up long enough to eat. I began taking Dr. Pierce's medicines. I have taken one bottle of 'Golden Medical Discovery' and one vial of 'Pleasant Pellets.' I find no other medicine equal to yours in helping me."

Without an equal for constipation and biliousness—Dr. Pierce's Pleasant Pellets.

We have a Beautiful

line of goods to show you this season in

- Diamond Rings
- Gipsy Rings
- Chain Bracelets
- ornette Chains
- Gents chains
- Brooches
- etc. etc. etc

We are giving special value in Watches and Clocks until Xmas. It will give us pleasure to show them to you.

QUITE INFORMAL

In the "Biography of Charles Carlton Coffin" is his own account of accompanying the committee to the home of Mr. Lincoln in Springfield, Ill., to notify him of his nomination for president. They reached Springfield early in the evening, and after supper at the hotel made their call on Lincoln. It was not to be a very formal interview.

Lincoln stood in the parlor, dressed in a black frock coat. The announcement was made, and his reply seemed brief. He was evidently much constrained, but as soon as the last word had been spoken he turned to Mr. Kelley of Pennsylvania, the chairman of the committee, and said: "Judge, you are a pretty tall man. How tall are you?"

"Six feet two."
"I beat you! I am 6 feet 3 without my high heeled boots."

"Pennsylvania bows to Illinois, where, we have been told, there were only little giants," said Kelley.

This was an allusion to Douglas, who had been called the "Little Giant."

One by one the members of the committee were introduced to Lincoln, and when the handshaking was over he said:

"Gentlemen, Mrs. Lincoln will be pleased to see you in the adjoining room, where you will find some refreshments."

There Mrs. Lincoln met them pleasantly, but the only visible sign of refreshments was a white earthen pitcher filled with ice water. This was possibly Mr. Lincoln's little joke, for it was afterward ascertained that his Republican neighbors had offered to furnish wines and liquors, which he refused to have in his house, and that his Democratic friends had sent round baskets of champagne, which were also declined.

CHIMNEYS KNOCKED OUT.

Machine Shops Can Be Run More Economically Without Them.

A few years ago the building of a machine shop without a chimney would have been looked upon as the act of an idiot. Now it may be the wisest thing a builder can do, for the large fan which is taking the place of the chimney costs a great deal less than the lofty stack, and does its work much better. Besides this there is a great saving in fuel.

In one plant where this experiment was tried there were three boilers, aggregating 260 horsepower, and directly above them was mounted a fan connected direct with a 5 by 4 double cylinder engine. The wheel of the fan was 54 inches in diameter, and as it could be run at any speed, it provided a draft quite independent of the fire. It was possible to use a much cheaper grade of coal and the saving thus effected was quite appreciable.

For instance, with the ordinary form of chimney the shop would use 1,624 tons of Cumberland coal, at \$3.65, aggregating \$5,929 a year. Using the blower, a mixture of Cumberland coal and yard screenings, half and half, would suffice. This, at \$2.85½, would amount to \$4,995, showing a difference of \$934. The cost of operating the fan was placed at \$183 per annum, so that the net gain was \$751, a sum greater than the entire cost of the mechanical draft apparatus.—St. Louis Globe-Democrat.

Keep Well

Easy to say, but how shall I do it?

In the only common sense way—keep your head cool, your feet warm and your blood rich and pure by taking Hood's Sarsaparilla.

Then all your nerves, muscles, tissues and organs will be properly nourished. Hood's Sarsaparilla builds up the system, creates an appetite, tones the stomach and gives strength. It is the people's Spring Medicine, has a larger sale and effects more cures than all others.

Hood's Sarsaparilla Is the One True Blood Purifier. C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the favorite family cathartic. Price 25c.

NOTICE.

Notice is hereby given that the Annual General Meeting of the shareholders of The Examiner Publishing Company, will be held at the office of THE EXAMINER newspaper, on Wednesday, the 25th day of January, inst., at 8 o'clock in the evening.

A Ridiculous and False Claim.

As a rule, modern newspaper advertisers endeavor to make their statements clear and truthful; they know that an intelligent public—especially the women portion—quickly condemns untruths and deception.

Some advertisers, intending to soar high, suddenly fall from the sublime to the ridiculous in their statements. Such errors are promptly detected by the class of people the advertisers would influence.

Imagine an advertiser of dyes for home dyeing, after giving a long list of the virtues possessed by his products, remarking: "they cleanse and dye at the same time." This statement made to tens of thousands of intelligent women is so contrary to truth and common sense, that the advertiser is, without loss of time condemned as a simpleton or deceiver.

Diamond Dyes, the standard home dyes of the world dare not make any such claim. In their valuable book on Home Dyeing (sent free to all who send for it) they specially mention that "all goods should be cleaned before they are dyed." A Solon, however, arises in the land and formulates a new doctrine by asserting that—Dyes "cleanse and dye at the same time." Soon we will hear of some new starch manufacturer making a claim that his starch will cleanse and stiffen at the same time.

No wonder that many of our women show temper and suffer disappointment when they make use of dyes that pretend to take out dirt and re-color at the one operation. No wonder that deceived women complain of muddy and dismal colors after using adulterated dyestuffs.

Let it be distinctly understood that the inventive genius of man has not yet devised a dye that will take out grease spots, stains and dirt, and at the same time give a decent color. The Diamond Dyes—The World's popular home dyes—give the fullest and richest colors on all materials when the goods are clean. They are the only warranted dyes on the market and always do what is claimed for them. Do not allow the false claims of any manufacturer of common dyes to lead you into trouble and financial loss.

CALIFORNIA PRUNES

Griffin & Skellys California Prunes are by far the best stock on the market. They are also much nicer flavored and more juicy than the Turkish Prunes.

We sell them from 12 to 16 cents per pound.

We have also:—

California Evaporated

Peaches and Apricots

BEER & GOFF

GROCERS.

What is known and Sold as

Ready-Made Clothing

Is clothing cut out by machinery, put together by machinery, and with the aid of starving female labor. Such a garment stamps the wearer on sight as dressed in slops. He not only looks it but as a consequence feels it. Men are learning that they cannot afford to be ill-dressed. Slops have had their day.

TWO KINDS "Ready-Made" and "Ready-to-Wear."

Shorey's Ready-to-Wear Clothing

expresses exactly what the name would imply

QUITE READY-TO-WEAR.

Made by tailors, designed by an artist, sewn with the best linen and silk, cut to fit the form of man be he tall, short, stout, or thin. Any man not a positive malformation can be fitted by Shorey's Ready-to-wear Clothing.

By fitted we mean dressed so that he looks a Gentleman, and possesses that feeling of comfort and air of ease that always marks the well dressed man.

See that Shorey's Guarantee Card is in the pocket of every garment.

ARE YOUR

Artificial Teeth...

:: Giving Satisfaction

Many persons who are compelled to wear Artificial Teeth on Plates, find that the Rubber or Vulcanite plate causes heating of the mouth, bad taste, shrinkage of the gum, etc, finally causing the plate to get loose. Sometimes sore lips, sore mouths and sore throats are caused directly from the wearing of a rubber or Vulcanite plate. While it is true that a majority of persons can wear rubber or vulcanite plates with satisfaction, yet it is a fact that to a large percentage the same material is poisonous.

We have seen many cases where people who had rubber or vulcanite plates were continually suffering from the above cause, and came to us for relief. In cases of that kind we always recommend a metal plate, either of

Gold, Platinum, Aluminum

Our reason for recommending a metal plate is that it is a conductor of heat and cold, thereby keeping the mouth cool, and it is non irritating, and is thinner, lighter and stronger than any other plate. It is clean in every particular, and is enjoyed by the wearer. You can have your impression taken and have a Gold, Platinum or Aluminum plate made same day, fully guaranteed because we make them ourselves and know all about the material used. We also make the famous THURLO PLATE noted for its thinness, coolness and durability.

We would like you to call and see specimens of all our different lines of work including our Continuous Gum Plates—the very finest plate work known to Dental Science. Every piece of work done by us must give entire satisfaction to the patient else we will not allow it to leave our office.
