The City Council.

AN emergency meeting of the City Council was held on Monday evening for the purpose of considering the necessity of more clearly defining by Statute the borrowing power of the City. The Mayor, Recorder, and ten Councillors were present.

Councillor Morris explained that there was some doubt regarding the borrowing power of the City, and they wanted to set that doubt aside. He, therefore, moved the following resolution which was seconded by Councillor Tanton,

Whereas, Some doubts have arisen relating to the borrowing powers of the City under Statute 39 Vict, Cap. 20; and

Whereas, It is necessary to set at rest these doubts.

Therefore Resolved, That the following Bill be submitted to the Legislature defining the borrowing powers of the City as previously understood by the Corporation.

The Bill was then read as follows:—

Be it enacted by the Lieutenant-Governor, Council and Assembly,—

1. That the words in said Eighth Section contained, viz:—The amount actually collected of the year's Assessment, levied and coled for school purposes under the authority of Statute of 40 Vic., Cap. 1, entitled "The Public Schools Act 1877," and of Acts in amendment thereof to the intent, and hereby it is expressly enacted that the borrowing power of the City of Charlottetown shall, in the manner prescribed by the 8 Section of the Act 39 Vic., Cap. 20, be calculated upon the total year's assessment actually collected, including all sums levied and collected for school purposes in accordance with said Statute 40 Vic, Cap 1.

2. Debentures issued by the City School Board, under the said Statute 40 Vic., Cap. 1, shall not be deemed to be debentures issued by said City, and in estimating the power of the said City to issue debentures under the said 8 Sec., 39 Vic., Cap. 20, no debentures issued by said School Board shall be included or taken into account.

3. The above enactments shall be construed as declaratory of the meaning of the said Eighth Section of the said 39 Vic., Cap. 20, and it is hereby enacted and declared that the said City had under the said re-cited act, and shall have the borrowing powers conferred by the said act as declared by this act.

A short and irregular debate followed regarding the course the Mayor and certain Councillors, it is said, pursued in sending the act to be introduced in the House of Assembly without first having the consent of the Council. The Recorder explained that such was not the case.

Councillor Crabbe moved the following resolution, which was seconded by Councillor Murphy.

Resolved, That Section 24 of the Act of Incorporation be amended by striking out the words "not exceeding one hundred pounds" and inserting in lieu thereof the words "not exceeding five dollars;" and

Further Resolved, That Section six of the Act of Incorporation enacting that the office of Stipendiary Magistrate be struck out, and the following clause inserted in lieu thereof. That the said Stipendiary Magistrate shall be paid a salary out of the current funds of the Corporation a sum not less than five hundred dollars nor more than one thousand dollars per annum; and

Further Resolved, That neither of the above alterations shall take effect until the first day of January 1884.

The amendment was put and lost six to four.

Moved in amendment by Councillor Murphy, seconded by Councillor Lea.

Whereas, It is proposed to apply to the Legislature to more clearly define by statute the borrowing power of the City, or in other words, to pass a Bill to enable the City Council to increase the City's permanent debt by the sale of Debenturs to the amount of Fifteen thousand dollars and upwards, as may be declared necessary; and

Whereas, Citizens at a late Public Meeting of rate payers, intimated that the City's debt was then far too large; and

Whereas, The late Finance Committe sold Debentures previous to the said public meeting for their par value, and levying five per cent. interest; therefore

Resolved, That before the Bill is submitted to the Legislature, a public meeting of the rate payers be called, so as to give his Worship the Mayor, and the Finance Committe an opportunity of explaining to the tax payers, the requirements of the City, as well as the nature and provisions of the proposed Bill, and to ascertain by vote if it is the wish of a majority of the Citizens then present that the said Debentures shall be issued; and further

Resolved, That the Bill provide that the said Debentures shall not be sold under their par value, and shall not bear a greater rate of interest than five per cent. per annum.

It was also lost on the same division, Councillors Koughan, Lea, Crabbe, and Murphy, voting for it; and Councillors Davy, Horne, Ladner, Douse, Tanton, and Morris, against it.

The original motion was then put and carried.

Council adjourned at 11 o'clock.

King's County Temperance Convention.

On the 27th ult., at Georgetown, a large number of temperance workers met at the Court House, for the purpose of forming themselves into an Alliance. The following officers were elected:—

President—Rev. C. McDonald, P. P.
Secretary—Rev. R W. Stevenson.
Treasurer—W. Sanderson, Esq.

Several committees were elected and a fund started for the purpose of prosecuting parties who should violate the Scott Act, until the time when the Government will appoint the Public Prosecutor from the Alliance. A request will be made for them to do so.

In the evening a very interesting public temperance meeting was held. Good stirring speeches were made by Rev. E. A. Tonkin, of Murray Harbor South; Revs. Defoe and McKay, of Summerside; Rev. R. W. Stevenson, of Montague; Rev. E. Bayne, of Murray Harbor, and several laymen. The outlook for the temperance cause is bright. The rumseller will have to give in.

The Alliance motto is "No surrender."

CURRENT NOTES.

There was a barque ashore at Holyhead, on the 30th. Crew, consisting of 23 persons, were all drowned.

It is estimated that $25,000,000 has been wasted by English capitalists in wild cat mining schemes in India and Australia.

King Alfonso, of Spain, has conferred the order of the Golden Fleece upon Crown Prince Frederick William. This official recognition gives great satisfaction in Berlin.

Winthrop, Me., has a musical prodigy who whistles like a bird and plays with equal facility the following instruments:—Piano, organ, violin, banjo, cornet, fife, xylophone, bones, harmonica, and guitar.

Numerous copies of the manifesto of Prince Jerome Napoleon have been posted in conspicuous places and upon various public buildings in Bordeaux. As soon as they were discovered the police removed them.

Three Conservatives have been elected Poor Law Guardians in the place of three Parnellites in the Rotunda Ward, Dublin. This indicates an important revolution of feeling and has considerable political significance.

Louise Michel was arrested in Paris on the 30th ult., while leaving the house of a friend. The special charge brought against her was that she had entered bakers' shops at the head of an armed band and plundered them of their contents.

There is a $100,000 muskrat-hold in Windsor, Mass. It was not wanted, but that amount was paid for it. The Windsor locks furnish water power for thirteen mills, which employ 3,000 operatives. A muskrat bored through the dam, and away it went, costing $100,000 to make the repair.

The Prefect of Police unearthed a band of Nihilists at their rendezvous in an obscure residence in St. Petersburg, on the 30th ult. The Police in attempting to capture them met with stubborn resistance. Three officers were wounded and one Nihilist, finding capture inevitable, committed suicide on the spot. The eight remaining conspirators were arrested.

A slight shock of earthquake was felt in San Francisco on the 30th ult. Further south the shock was heavier. At Watsonville, Santa Cruz County, nine shocks were felt, breaking crockery, etc. In Pollister, plate-glass windows were smashed and brick buildings cracked. During the temporary panic, the streets were filled with inhabitants, many of them in undress.

The residence of Henry Porter, a wealthy farmer near Chattanoga, was burned on Sunday night by four masked men, because Porter refused to give them $500 which they claimed he concealed in his house, and it was believed there was a large sum belonging to a lady visiting at the house. The burned residence was valued at $40,000. The affair has created great excitement.

Mrs. Emeline Meaker was hanged at Windsor, Vt., on the 30th ult., for the murder of little Alice, half-sister of Mr. Meaker, in April 1880. Her son, Almon, was convicted of complicity, but his sentence has been commuted to imprisonment for life. Mrs Meaker has maintained her innocence from the first, although Almon has made a confession criminating his mother. She was cool and collected to the last, her final words being: "Hang me if you want to murder me, but I am an innocent woman." The body was buried in the prison burial ground, friends refusing to care for it. She is the first woman ever executed in Vermont.

"Boys," said a Leadville preacher, "you'll find this life like a game of seven-up. You want to save your tens and look out for game, an' never beg when you hold a good hand. Also recollect in the long run low counts as well as high, if it is only a trump. The devil has stocked the cards, but just play 'em honest, and when it comes your deal yer boun' to get a winnin' hand every time, and old split-hoof will jist have to jump the game and look after a softer snap. Also, if you happen to turn Jack, call it lucky, but don't forget to remember that turning Jack is uncertain business, an I'll never do to bet on."

A band of Indians numbering 25 crossed the Southern Pacific Railroad near Separ station early on the morning of the 30th ult., closely pursued by Capt. Forsyth, and his command, comprising two companies of the 4th Cavalry. The troops have fresh horses and a fight is hourly expected. Mexican troops under General Carbo are in the field with orders to take no prisoners but kill bucks, squaws and children. Four men were killed at Clarke's Camp, four at Total Wreck, four on Gila River, and two at Beach's camp. Hostilities are believed to have originated with the Jus band, reinforced by some Hirecuahuas. All the troops in Southern Mexico are in the field and all possible measures for the protection of settlers and punishment of the Indians are being taken by General McKenzie.

Attention is being called in England to the large number of shipwrecks every year resulting from preventible causes. According to a statement lately made by Mr. Chamberlain to a deputation of shipowners, the losses of British vessels, excluding those lost from stranding or collision, during the period between 1877 and 1881 averaged 368 ships and 1,551 lives per annum. In 1882 the number of losses far exceeded this average, amounting to 548 ships and 2,833 lives. Mr. Chamberlain pointed out that a great many of these disasters were preventible, and suggested that the law should be so altered as to allow the widows or orphans of men drowned by the proved default of owners to sue for damages. One great cause of the increase in marine disasters is the over-insurance of vessels, which is carried to such an extent
