**NIAGARA VAPOR BATHS**

We are the original manufacturers of portable Vapor Baths. We have, during the last ten years supplied thousands of our Baths to physicians, hospitals, sanitariums, etc. and we are now, for the first time, advertising them direct to the general public.

**IN BUYING A VAPOR BATH** Get one with a steel frame that stands on the floor. If a manufacturer does not show you a cut of a frame without the covering you may take it for granted that his "Steel frame" is a wire loop that rests on the shoulder of the bather.

Get one that is covered with proper material. Insist on seeing a sample of material before ordering. We make it with a handsome "all over" pattern of Niagara Falls.

Get one with a thermometer attachment. Don't go it blind—a bath that is too hot or not hot enough will be of no benefit to you.

Get one that you can return and have your money back if not satisfactory in a very way.

Send for sample of material and interesting booklet that will tell you all about Vapor Baths.

Vapor Baths are an acknowledged household necessity. Turkish, Hot Air, Vapor, sulphur or medicated Baths at Home, 3c. Purifies system, produces cleanliness, health, strength, prevents disease, obesity. Cures Colds, Rheumatism, Neuralgia, La Grippe, Malaria, Eczema, Catarrh Female Uterus, Blood, Skin, Nerve and Kidney Troubles. Beautifies Complexion.

Price of Niagara Baths, \$5.00

**FARM TO LET AT ROYALTY.**

To let "Milford Farm" on the North River Road, about a mile from the city, at present in the occupation of the Widow of the late George Thorne. It comprises about 29 acres of land in a high state of cultivation, fronts on the North River Shore. There is a good one and a half story farm house with outbuildings and a large stable and barn, and a tool house on the premises. Possession given, if required later end of November. These premises are well adapted for a butcher and pasture farm. Rent \$200.00 a year. For further particulars apply to.

DANIEL DAVIES, Dundas Esplanade

**The Heaviest Thing in the World.**

The heaviest thing in the world is the metal osmium, the bluish white metal with violet luster which Mr. Smithson Tennant discovered 90 years ago in the residue from dissolved platinum ores. This metal has a specific gravity of 22.477; that of gold being 19.265; lead, 11.367; iron, 7.79, and lithium, the lightest, only 0.594.

The French chemist, Joly, determined that osmium is likewise the most infusible of metals. It could never be made to yield to the oxyhydrogen flame which makes platinum and iridium run like water, but Joly has been subjecting osmium to the exclusively high temperature of the electric arc which Moissan has of late employed successfully in the manufacture of diamonds.

Under this fierce heat the rare metal, ruthenium, which used to be deemed all but infusible, readily melts, but osmium remains refractory, there being apparently only the faintest traces of fusion. On this account osmium cannot be prepared in sufficient quantities to make it very useful in the arts, but its alloy with iridium, which defies the acids, is of some value, nothing better having been found wherewith to tip gold pens. Being nonmagnetic, its employment for the bearings of the mariner's compass has been advocated.—Popular Science Monthly.

**A Shower of Hats and Shoes.**

Charles F. W. Mieglatz contributes "A Boy's Recollections of the Great Chicago Fire" to St. Nicholas. Mr. Mieglatz says:

Once, for a few minutes, I thought it was all over with me. The flames sprang from the middle of the block, on the east side of Wells street between Washington and Randolph, to the middle of the block between Randolph and Lake streets. Here a remarkable thing happened. At the northwest corner of Wells and Lake streets I stopped for a moment to catch my breath and to look back. At the southeast corner there was a boot and shoe shop, which had a glass front on the rear alley, similar to that on the street front, but not so elaborate. The fire struck this alley front with a force that swept the boots and shoes through the shop and into the street in a flash. A tongue of flame shot out, rolled across the street and kindled a tar kettle and a barrel, such as pavers use, bringing with it a shower of boots and shoes. Almost at the same instant the fire threw itself against a hat factory, a few doors east of the boot and shoe shop. It hit the rear of the building with the same impelling force, and the hats flew up into the air like spray.

**FARAWAY PEACE.**

The czar, with his universal peace show, evidently neglected to get a first class advance agent.—Richmond Times.

The greatest trouble in executing the czar's peace policy would be to find the power that would disarm first.—Nashville Banner.

In other words, the czar suggests the Texas rule of depositing revolvers with the usher before entering the church.—St. Paul Dispatch.

**A Howl.**

An English duke, while being shown the collection of birds in a museum, asked the name of one of them.

"That's a howl," said the attendant.

"A what?" exclaimed the duke.

"A howl," repeated the man with even more distinctness, whereupon a bystander, seeing the cause of the duke's mystification, said, "Your royal 'ligness,' he says hit's a howl!"—Sir M. Grant Duff's Diary.

Skim milk is now turned into champagne by an electric process, and the beverage is clear, bubbly and delicious in flavor, though nonalcoholic.

The annual expenditures of the Swiss for wine, beer, cider and brandy are 175,000,000 francs, or about six times as much as is spent on the army.

**A Swelled Head.**

A typical English woman, when some one spoke the other day of a certain man having a "swelled head," looked dazed. "Really! You don't mean it!" cried the English woman. "I'm very sorry." A day or so later the English woman, happening to meet the wife of the man in question, observed that she was so sorry to hear that Mr. Blank was ill.

"But he isn't!" cried the wife. "He was never better in his life."

"Is that so?" said the English woman.

"Why, what could Mrs. Dash have meant the other day when she said he was suffering from a swelled head?"

**HEADACHE AND NEURALGIA.**

Too many times the origin of a headache is miscalculated, and one begins dosing the stomach for it, when an application of Griffith's Liniment would draw out the pain and give immediate relief—it will cure any ache, no matter how severe.

"I suffered from severe headaches and could not obtain any relief until I had used Griffith's Menthol Liniment—the cooling, soothing action of this magical application always takes away the pain. I have not had a headache last longer than ten minutes since I began using this wonderful liniment." L. DEAS, 187 Centre avenue, Toronto.
