A grain of sand in the eye can cause excruciating agony. A grain of pepper in place of the grain of sand intensifies the torment. The pain is not confined to the organs affected. The whole body feels the shock of that little irritating particle. It is so when there is any derangement or disorder of the delicate womanly organs. The disorder may seem trivial but the whole body feels it. The nervous system is disordered. There are fretfulness, irritability, sullenness, and depression of spirits. The general health of women depends on the local health of the organs peculiarly feminine. Remove the drains, ulcerations, bearing down pains, and other afflictions of woman, and the whole body feels the benefit. Dr. Pierce's Favorite Prescription is a specific for the diseases that undermine the strength of women. It is free from opium, cocaine and other narcotics, poisons which enter into many other preparations for woman's use. It makes women strong and sick women well.

C. A. in Charlottetown; Rev. T. F. Fullerton gave a vivid description of the working of the Association among the men of the army. Mr. Fullerton paid a high tribute to Dr. Barrie, the Y. M. C. A. Secretary, who went with the Royal Canadian Regiment to South Africa. He said that Canada was the only place represented by the Y. M. C. A. on the battle field. He said that many a mother in Canada received letters from her son because of the conveniences furnished by the Y. M. C. A. for writing. The meeting closed with the Doxology and the Benediction.

AN ENVIABLE RECORD.

As an insurance of the popularity that the wonderful Biograph has achieved elsewhere we give below a partial list of its successes; Vancouver, two weeks; Victoria, one week; Brandon, one week; Winnipeg, four weeks; Port Arthur, one week; Toronto, four weeks; Kingston, one week; Montreal, six weeks; St. John, N. B., two weeks; St. John's, Nfld., two weeks, and Halifax, four weeks. This same machine exhibited in the Russel theatre, Ottawa, last winter, under the immediate patronage of His Excellency Lord Minto, and Sir Wilfrid and Lady Laurier, and drew the largest house that ever assembled in this magnificent building. One peculiarity of these pictures is that if you see them once you want to see them again and again. They grow on and fascinate one. Get your seats early if you want to be present tonight at the opening of what promises to be one of the most successful entertainments ever given on the Island. Popular prices.

LIQUORHABIT CURED.

A Clergyman's Testimony. Among the many victims of alcohol who took Dr. Dixon's new medicine for alcoholism during a public demonstration in Montreal, was a young man who stated that "he had been drinking heavily for years, averaging about 25 drinks daily; neglected his business; could not sleep; had no appetite for food, had lost all ambition; did not care for anything but drink, and who, from the third day after taking Mr. Dixon's new medicine had no desire for liquor, slept soundly and ate heartily three times a day." In corroboration of the above statement, Rev. Father Quinlivan says: "The young man who made the above statement has been well known to me for years, and I can fully and conscientiously substantiate all he affirms. His case appeared to be one of the most utterly hopeless as to cure that ever came under my notice. All self-control and self respect appeared entirely gone. Though an excellent worker when sober, his sole purpose in working seemed to be the earning what would procure drink. I induced him to take Mr. Dixon's cure, and the results are correctly set forth in his statement. I am, therefore, anxious fully believing in what is claimed for it by Mr. Dixon, to see this new, inexpensive home remedy brought to the notice of victims of the liquor habit, temperance workers and friends of humanity in general who seek a means of relieving such victims." J. Quinlivan S. S., pastor of St. Patrick's, Montreal.

Full particulars sent sealed free on application. Address, Mr. Dixon, 81 Willcocks Street, Toronto, Ont.

WASHING COMPOUND

We have secured the agency for the Island of the above named Washing Compound, which has been pronounced by the ladies of Canada to be the GREATEST LABOR-SAVER OF MODERN TIMES, and a real treasure on wash day.

It washes clothes and guaranteed not to injure the most delicate fabric. The properties possessed by this compound are those of loosening and separating the dirt without injury to the fabric, instead of eating up the dirt and rotting the cloth as is the case with many articles now on the market which claim to wash everything. By the use of this compound no rubbing is required, thus saving the wear and tear on clothes, to say nothing of the labor; simply boil and rinse, for flannels it has no equal, and ladies will find it particularly good for washing lace curtains, as there is POSITIVELY NO RUBBING REQUIRED. One cake will wash two large boilers of clothes and the cost is a mere trifle. Two cakes 5c; 25c per dozen, at all grocers. Wholesale by
