IN MEMORIAM

MANN—In loving memory of my mother, Mrs. Elizabeth Mann, who passed away Nov. 22, 1956.

It was in the sad month of November
That we stood by an open grave
And watched friends lower our mother
We would have gladly died to save
But we knew our thoughts could not waken
Her soul in its silent clay
So we laid our hearts down beside her
And silently walked away.

Always remembered by her daughter Hazel, and Granddaughter Muriel.

MANN—In memory of Mrs. Elizabeth Mann who passed away Nov. 22, 1956.

We lost a grandmother with a heart of gold
Who was more to us than wealth untold
Without farewell she fell asleep
Leaving only memories for us to keep
We lost but God gained
One of the best Grandmothers
The world contained.

Lovingly remembered by her grand children Gladys, Elizabeth, Merrill, Toronto.

LAUGHLIN — In memory of Vera Helen Laughlin, who died on November 22, 1952, age 7 weeks. Always remembered by Mother and Dad.

Say Spy Played Part In Sputnik

PHILADELPHIA (AP) — Senate investigators said Thursday convicted atom spy David Greenglass told them in a prison interview that Julius Rosenberg carried earth satellite, atom-powered airplane and anti-missile secrets to the Russians shortly after the war.

Counsel Robert Morris of the Senate internal security subcommittee described Thursday's interview with Greenglass at a subcommittee hearing here.

Greenglass was a brother-in-law of Rosenberg, executed with his wife, Ethel, in 1953 for giving U.S. atom secrets to Russia.

At the hearing, a former Soviet army officer testified that the Russians kidnapped some 2,000 German scientists between 1944 and 1947.

They included missile scientists and experts in the fields of electronics and chemicals, said Vladimir Shabinsky of New York City, who identified himself as a lieutenant-colonel in the Soviet army until 1947.

SPACE PLATFORMS

Morris said "Greenglass told us that Rosenberg was stealing secrets about space platforms and atomic-powered airplanes."

Morris also interviewed Harry Gold, another convicted atom spy anf ellow prisoner of Greenglass.

Morris stressed what he said were demands placed on Gold by his espionage leaders that he acquire American processes rather than theories.

"It is evident the Soviet kept hammering at Gold to save Russia time and money by getting this information.

"Gold told me that his leaders praised him for saving them lot of sweat and tears."

Shabinsky said he feels "100-per-cent sure" that Soviet espionage activity in the last 10 years has enabled Russia to acquire scientific superiority in some respects to the remainder of the world.

Pressure Makes Style Changes

OTTAWA (CP) — High pressure campaigns to promote style changes often lead consumers to believe their clothes are out of date, a clothing manufacturers' representative told the tariff board Thursday.

"The inescapable influence of the Unite dStates has created a tricky and fluctuating market by increasing the demand and search for exclusivity of pattern, novelty of fabric and originality of design" said counsel Norman Genser as he presented a brief on behalf of the clothing manufacturers.

The brief opposed a bid by the Canadian wool cloth industry for increased tariff protection. The submission contended Canadian mills could not supply the changing needs of style and pattern and could not give the exclusiveness needed by individual manufacturers.

Mr. Genser said the "impingement of the American way" had made its mark on the Canadian consumer. He added Canadian clothing manufacturers frequently have wool cloth based on U.S. designs woven in the United Kingdom.

JUST LIKE CARS

"It may be true that, like the automobile industry, these seasonal changes of style are designed mainly to boost sales and production, yet it is equally true that they have the effect of putting patterns and designs out of style," the brief said.

Said board vice-chairman W. W. Buchanan:

"There is no limit to the ingenuity of some people in making others miserable with what they have."

Board Chairman Hector McKinnon interjected that he "hadn't thought we had reached the point where the United States set the style for our clothes."

Communist China's fisheries in 1956 yielded 2,550,000 tons of fish compared to Canada's 1,077,000 tons.

Suggests One Voters' List

OTTAWA (CP)—Harold Winch suggested Thursday that thought be given to establishing a permanent voters list for both federal and provincial elections.

The CCF member for Vancouver East told the Commons:

"I am confident that if this were done, hundreds upon hundreds of thousands of dollars would be saved for the taxpayers . . . and provincial and federal governments."

State Secretary Ellen Fairclough referred to his suggestion as "this interesting subject," but did not indicate her own views on it. At present a new voters list is prepared each election.

As debate on her department's spending estimates of about $3,600,000 was concluded members had a variety of suggestions about application of the Canada Elections Act.

Mrs. Fairclough's estimates were part of about $5,000,000,000 in total government expenditure plans for the current fiscal year ending next March 31. Following Mrs. Fairclough's came the $26,000,000 budget proposed for the mines department.
